About this book -----

For every year of my school life (and I am sure it was the same for most of you), the end of the school year meant a report card that you had to bring home to mum and dad. My reports were typically unmemorable – average grades, mundane comments about needing to live up to my full potential, and as a timid young girl I never really got into a lot of trouble. However, one report has remained with me throughout my life and has challenged and impacted me the most. Reading it ignited in me a life-long determination to cultivate and improve upon it in every aspect of my life. This is what it said:

“Erinna lacks creativity.”

Fast forward many (many, many) years later ...

I am sitting here, writing this introduction as one of the final items on my (very) long list of things to-do, surrounded by an explosion of yarn and threads, piles of notebooks scribbled with illegible pattern drafts, photography props and doll prototypes, in preparation for my very first book of amigurumi patterns. Who would have thought?

From a very young age, my mum has always fostered a love for crafting in us, be it clay work, painting, cross-stitch or decoupage amongst many others. In 2014, I itched to learn a new craft, as an outlet to relax after work and to challenge myself to learn a new skill. I picked up a hook and yarn and after a few false starts, made my first chain stitch. Whilst I do not cross-stitch or make clay figurines anymore, five years later I am still crocheting. So what is it about crochet that has me hooked (pardon the pun)?

A love for illustrations and creating cute characters. A pen frustrates me as it disallows me to put the characters I create in my head onto paper. Amigurumi has allowed me to fulfil my love for character creation. Seeing a character I imagine come to life with just yarn and stuffing feels great, but what is even better is receiving a note from another person telling you how happy

they are with their recreation of your character with your pattern!

Amigurumi design is maths with an artistic flair. As a scientist by day, fact and methodology dictate my thinking. Amigurumi is surprisingly mathematical! A nose or a foot can be created using simple algebra. I always knew the pain of maths classes would come in useful one day. However, I still have not grasped the importance of all those differential equations. Maybe one day ...

A supportive global crafting community. Where would we all be without social media? That we get to share our finished work with a large community of crochet lovers has no doubt kept me motivated and encouraged. I have met so many wonderful people from all around the world and have been inspired by the creativity of many.

It is not just about crochet. I never thought crochet would let me acquire new skills in graphic design, photography, digital illustration, accounting, branding and business management. Now if only there was more time in a day.

Last but not least. I get to travel my crochet journey with my mum. We both started crochet at about the same time, and it is wonderful that, whilst we have each developed our individual styles, we are able to share ideas, go yarn shopping together and provide honest open feedback to each other.

These are just some of the reasons I believe crochet has become such a passion of mine, perhaps they resonate with you too?

This book is a culmination of more than a year's work. It has been a demanding journey, working full-time and juggling my time preparing for this publication without compromising my research productivity. However, I would not have given up this incredible experience and there are so many people I want to

say a most sincere thank you to:

The incredibly encouraging Joke, Dora and Bruno from *Amigurumi-Patterns.net* who gave me this opportunity, my first break in pattern design and who continue to be instrumental to my crochet journey.

Magazines like *Simply Crochet* and *Inside Crochet* who have taken me under their wing and provided me insights into the world of publishing, and have given my contributions global exposure.

DMC for so generously providing the yarn for this book and in turn giving me the freedom to play around and experiment when creating these patterns.

My loved ones and special friends, for all the reasons that have kept me going.

To my teacher (who shall remain unnamed) for writing THAT report card. It gave me a life-long challenge and I hope that I have developed a level of creativity that has since been applied.

Last but not least, to all of you who have recreated my patterns, who have provided encouraging and supportive comments on my work these last five years and who have bought this book. That you are holding this book and reading this introduction is humbling. I have tried my best to incorporate as wide a variety of ways to achieve different shapes and to put the characters together and I wish so much that you will enjoy the patterns. Let your creativity flow and have fun with the patterns, and mix and match the accessories as you so wish to create your own special characters with their own personalities.

As the title of this book goes, I hope that the amigurumi and skills that you achieve from the patterns in this book will be ones that you or a special someone will treasure for life.

With love, *Erinna*

BASIC MATERIALS

COLORFUL YARN

For every pattern in this book I've listed the materials used to create that design, including the yarn thickness. I've used DMC Natura Just Cotton yarn (50 g / 155 m), a fingering weight yarn with a matte finish which is soft to the touch. Don't feel tied to the choices of yarn thickness though: any weight of cotton, acrylic or wool can be used as a substitute, provided you use the right crochet hook accordingly. The patterns don't give the yarn quantity. The amounts are rather small and will vary according to how loosely or tightly you crochet. You could use some of the remnants from other projects or start with a new ball of yarn. One ball of a color is usually enough.

CROCHET HOOKS

Not only yarn, but hooks as well come in different sorts and sizes. Bigger hooks make bigger stitches than smaller ones. It's important to match the right hook size with the right weight of yarn. In the table below you will find the standard hook size recommended for each yarn weight. For amigurumi, however, you generally use a hook two or three sizes smaller than what is recommended for your yarn. The crochet fabric should be quite tight, without any gaps through which the stuffing can escape. Using a smaller hook makes it easier to achieve this.

Hooks are usually made from aluminum or steel. Metal hooks tend to slip between the stitches more easily. Preferably choose a crochet hook with a rubber or ergonomic handle.

STITCH MARKER

A stitch marker is a small clip in metal or plastic. It's a simple tool to mark your starting point and give you the assurance that you've made the right number of stitches in each round. With your stitch marker, you always mark the last stitch of a round.

STUFFING

For the filling, polyester fiberfill is advised. You can purchase this at any craft shop. It's inexpensive, washable and non-allergenic. Be careful not to overstuff your amigurumi, as the stuffing might stretch the fabric and show through.

SAFETY EYES

For most patterns safety eyes are used. These are widely available in craft shops. Be careful when you apply safety eyes: once you put the washer on, you won't be able to pull it off again, so be sure that the post is where you want it to be before attaching the washer. Alternatively, the features can be embroidered, which is recommended if you're crocheting for children under the age of three. For embroidery, a tapestry needle with a rounded tip is used.

WHAT YOU SHOULD KNOW BEFORE YOU START

SKILL LEVEL

easy (●○○)

intermediate (●●○)

advanced (●●●)

Every pattern is marked with a skill level to indicate how easy it is to make. If this is your first time making amigurumi, it's best to start with an easy pattern and work up to the intermediate and advanced ones.

PATTERN STRUCTURE

All patterns in this book are worked in continuous spirals, not in joined rounds. Crocheting in spirals can be confusing, since there's no clear indication of where a new round begins and the previous one ends. To keep track of the rounds, you can mark the end of a round with a stitch marker or safety pin. After crocheting the next round, you should end up right above your stitch marker. Move your stitch marker at the end of each round to keep track of where you are.

At the beginning of each line you will find 'Rnd + a number' to indicate which round you are in. If a round is repeated, you'll read 'Rnd 9 – 12', for example. You then repeat this round four times, crocheting the stitches in rounds 9, 10, 11 and 12.

Although we usually crochet in rounds, occasionally it happens that we switch to rows, going back and forth instead of working in continuous spirals. When we switch to rows, it will be indicated with 'Row + a number'.

At the end of each line you will find the number of stitches you should have in square brackets, for example [9]. When in doubt, take a moment to check your stitch count.

When parts of the instructions repeat throughout the round, we place them between rounded brackets, followed by the number of times this part should be worked. We do this to shorten the pattern and make it less cluttered.

AMIGURUMI GALLERY

With each pattern, we have included a URL and QR code that will take you to that character's dedicated online gallery. Share your finished amigurumi, find inspiration in the color and yarn choices of your fellow crocheters and enjoy the fun of crocheting. Simply follow the link or scan the QR code with your mobile phone. Phones with iOS will scan the QR code automatically in camera mode. For phones with Android you may need to install a QR Reader app first.

SAFETY

Please leave out small accessories when the toy is gifted to children under the age of three.

BLOCKING

Blocking is handy for neatening up the shape of an item. Take your finished, unblocked item, a set of rust-proof straight pins, a spray bottle with cold water and a blocking mat (an ironing board or foam board does the trick). Pin your item in place. Lightly spray it, it should not be soaking wet. Allow your piece plenty of time to dry completely. Make sure not to remove the pins from your blocking mat until the item is dry.

If you're working with acrylic yarn, or a blend of acrylic and natural fibers, you might need to steam block for the best result. Hold the iron carefully over the item, a few centimeters from the surface, allowing the steam to plume onto the yarn for 15 seconds. Do not put the iron directly on the item though, as it will melt acrylic yarn. Allow the item to dry.

ACCESSORIES

Mix and match the accessories included in this book as you wish to create your own special characters with their own personalities. On the next page you will find an overview of all the characters an accessory can be matched with. Alternative versions for the beanie and hat (without ear holes) are included in the book.

BASIC STITCHES

If this is your first time making amigurumi, you might find it useful to have a tutorial at hand. With the stitches explained on the following pages you can make all of the amigurumi in this book. I suggest you practice the basic stitches before you start making one of the designs. This will help you to read the patterns and abbreviations more comfortably, without having to browse back to these pages.

STITCH TUTORIAL VIDEOS

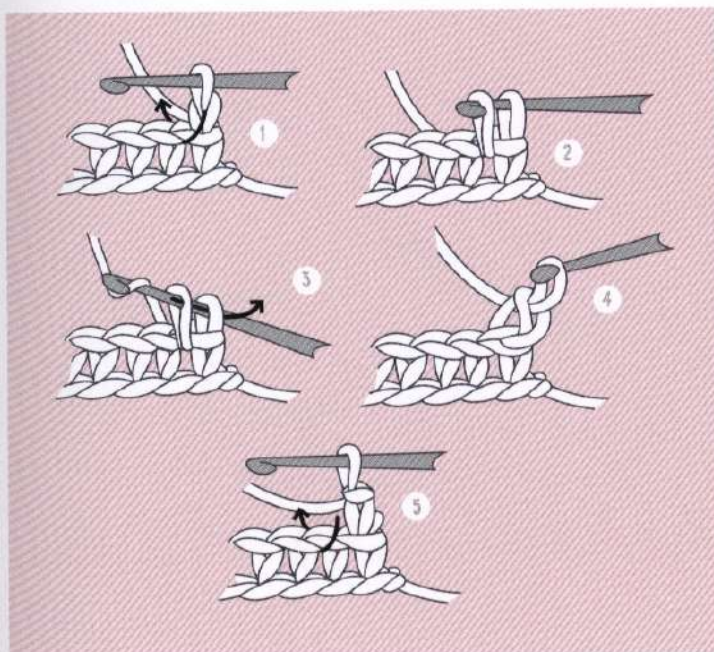

With each stitch explanation I have included a URL and QR code that will take you to an online stitch tutorial video, showing the technique step by step to help you master it even more quickly. Simply follow the link or scan the QR code with your smartphone. Phones with iOS will scan the QR code automatically in camera mode. For phones with Android you may need to install a QR Reader app first.

CHAIN (abbreviation: ch)

If you're working in rows, your first row will be a series of chain stitches. Use the hook to draw the yarn through the loop (1) and pull the loop until tight (2). Wrap the yarn over the hook from back to front. Pull the hook, carrying the yarn, through the loop already on your hook (3). You have now completed one chain stitch. Repeat these steps as indicated in the pattern to create a foundation chain (4).

SINGLE CROCHET (abbreviation: sc)

Single crochet is the stitch that will be most frequently used in this book. Insert the hook into the next stitch (1) and wrap the yarn over the hook. Pull the yarn through the stitch (2). You will see that there are now two loops on the hook. Wrap the yarn over the hook again and draw it through both loops at once (3). You have now completed one single crochet (4). Insert the hook into the next stitch to continue (5).

SLIP STITCH (abbreviation: slst)

A slip stitch is used to move across one or more stitches at once or to finish a piece. Insert your hook into the next stitch (1). Wrap the yarn over the hook and draw through the stitch and loop on your hook at once (2).

HALF DOUBLE CROCHET (abbreviation: hdc)

When starting a new row of half double crochet, work two chain stitches to gain height. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through all three loops on the hook (3). You have completed your first half double crochet. To continue, bring your yarn over the hook and insert it in the next stitch (4).

DOUBLE CROCHET (abbreviation: dc)

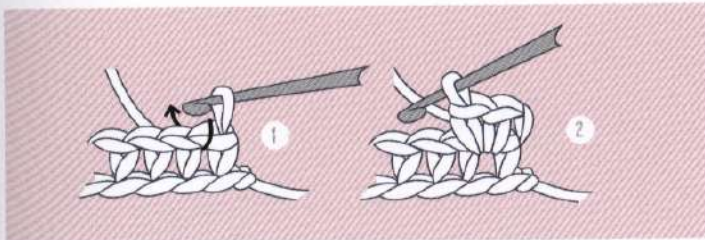

When starting a new row of double crochet, work three chain stitches to gain height. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). You now have two loops on the hook. Wrap the yarn over the hook one last time and draw it through both loops on the hook (4). You have now completed one double crochet. To continue, bring your yarn over the hook and insert it in the next stitch (5).

**TRIPLE CROCHET** (abbreviation: tr)

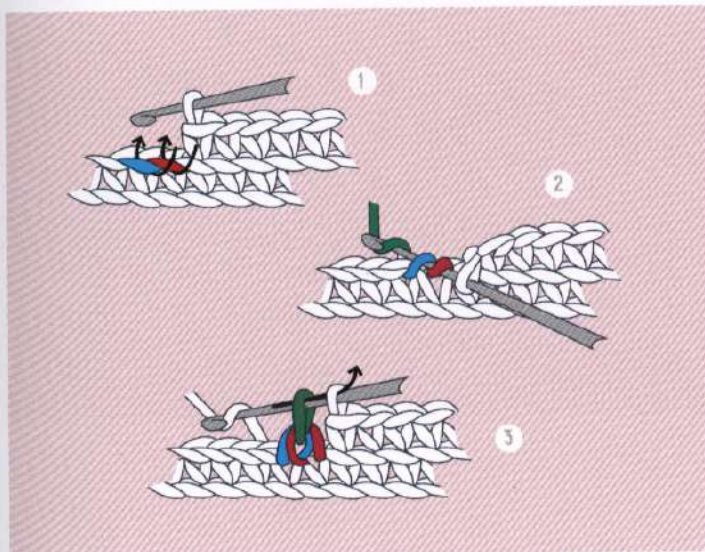

When starting a new row of triple crochet, work four chain stitches to gain height. Bring your yarn over the hook twice before you insert it in the next stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). Repeat this last step twice (4, 5). You have now completed one triple crochet stitch. To continue, bring your yarn over the hook twice and insert it in the next stitch.

**INCREASE** (abbreviation: inc)

To increase you make two single crochet stitches in the next stitch.

**INVISIBLE DECREASE** (abbreviation: dec)

The invisible decrease method will make your decrease stitch look much like the other stitches in the row, resulting in a smooth and even crochet fabric. Insert the hook in the front loop of your first stitch. Now immediately insert your hook in the front loop of the second stitch (1). You now have three loops on your hook. Wrap the yarn over the hook and draw it through the first two loops on your hook (2). Wrap the yarn over again and draw it through the two loops remaining on your hook (3). You have now completed one invisible decrease.

FRONT LOOPS ONLY (abbreviation: FLO) AND BACK LOOPS ONLY (abbreviation: BLO)

When making a crochet stitch, you end up with two loops at the top of the stitch, a front loop towards you (1) and a back loop away from you (2). When asked to crochet FLO or BLO you make the same stitch but leave one loop untouched.

BACK POST (abbreviation: BP) OR FRONT POST (abbreviation: FP)

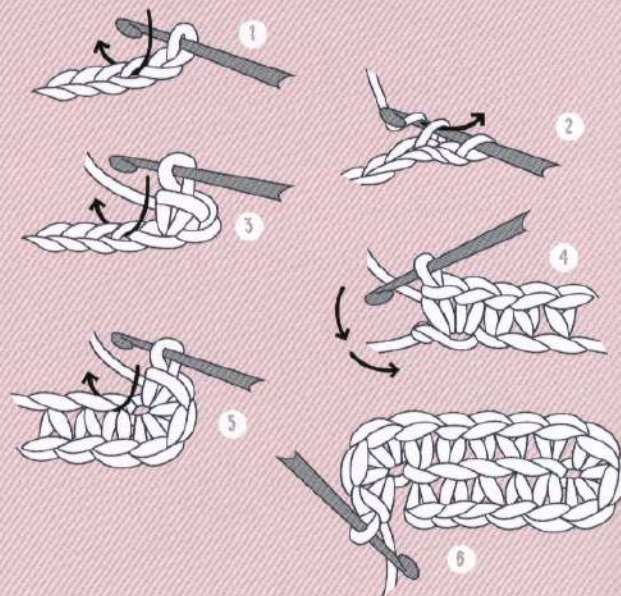

To make a back post or front post stitch, insert the hook from right to left around the vertical post of the next stitch according to the picture. Wrap the yarn over the hook and draw up a loop. Finish the stitch as usual.

CROCHET AROUND A FOUNDATION CHAIN

Some pieces start with an oval instead of a circle. You make an oval by crocheting around a foundation chain instead of crocheting into a magic ring. Crochet a foundation chain with as many chains as mentioned in the pattern. Skip the first chain on the hook (1) and work a sc stitch in the next chain stitch (2, 3). Work your crochet stitches into each chain across as mentioned in the pattern. The last stitch before turning is usually an increase stitch (4). Now, turn your work upside down to work into the underside of the chain stitches. You'll notice that only one loop is available, simply insert your hook in this loop (5). Work your stitches into each chain across. When finished, your last stitch should be next to the first stitch you made (6). You can now continue working in spirals.

MAGIC RING

A magic ring is the ideal way to start crocheting in the round. You start by crocheting over an adjustable loop and finally pull the loop tight when you have finished the required number of stitches. The advantage of this method is that there's no hole left in the middle of your starting round.

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2). Hold the circle with your index finger and thumb and wrap the working yarn over your middle finger (3). Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4, 5). Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6). Wrap the yarn over the hook again (7) and draw it through both loops on your hook. You have now completed your first single crochet stitch (8). Continue to crochet (repeating step 6, 7, 8) until you have the required number of stitches as mentioned in the pattern. Now grab the yarn tail and pull to draw the center of the ring tightly closed (9, 10). You can now begin your second round by crocheting into the first single crochet stitch of the magic ring. You can use a stitch marker to remember where you started.

If you don't prefer this technique, you can start each piece using the following technique: ch 2, x sc into the second chain from the hook — where x is the number of sc stitches you would make in your magic ring.

PICOT STITCH

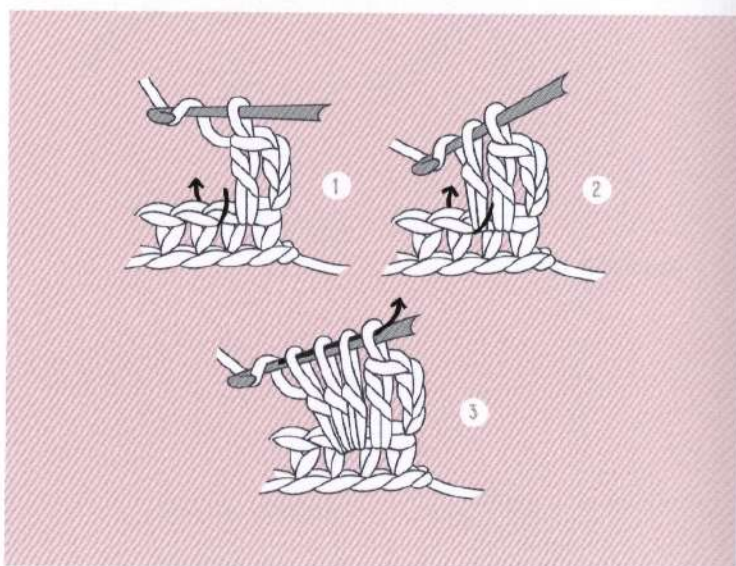

Picots add a decorative touch to an edging. Make the number of chain stitches as specified in the pattern. Insert your hook in the first chain stitch you made (1), wrap the yarn around your hook and draw it through both loops on the hook. You have now completed one picot stitch (2).

BOBBLE STITCH

The bobble stitch creates a soft dimensional bobble. Think of it as a cluster of dc stitches worked in the same stitch. Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook. Wrap the yarn over the hook again and pull it through the first two loops on the hook. One half-closed double crochet is complete, and two loops remain on the hook (2). In the same stitch, repeat the preceding steps twice. You should have four loops on your hook. Wrap the yarn over your hook and draw the yarn through all loops on the hook (3). You have now completed one 3-dc-bobble stitch. Create a bobble stitch with as many dc stitches as indicated in the pattern.

CAMEL STITCH

The camel stitch is basically a half double crochet stitch made in the third loop. Crochet on the wrong side of your crochetwork. Bring your yarn over the hook from back to front before placing the hook in the third loop of the stitch (the loop below the two loops you normally crochet in (1, 2)). Yarn over and draw through this third loop. You now have three loops on your hook. Yarn over and draw it through all three loops on the hook. You have now completed one camel stitch.

INVISIBLE COLOR CHANGE

When you want to switch from one color to the next, you work to within two stitches before a color change. Make the next stitch as usual, but don't pull the final loop through (1). Instead, wrap the new color of yarn around your hook and pull it through the remaining loops (2). To make a neat color change, you can make the first stitch in the new color a slip stitch instead of a single crochet. Don't pull the slip stitch too tight or it will be difficult to crochet into in the next round. Tie the loose tails in a knot and leave them on the inside.

FASTENING OFF

When you've finished crocheting, cut the yarn a couple of inches / cm from your last stitch. Pull the yarn through the last loop until it is all the way through (1). You now have a finished knot. Thread the long tail through a tapestry needle and insert your tapestry needle through the back loop of the next stitch (2). This way the finishing knot will remain invisible in your finished piece. You can use this piece of yarn to continue sewing the body pieces together.

MATTRESS STITCH

The mattress stitch is a sewing stitch. Line up the edges and thread your needle. Work from the inside out and sew back and forth between the edges to lace them together. Fasten off and weave in the yarn end.

Ming the kitten

Ming is a most prim and proper little kitten. Never a hair out of place thanks to her drawerful of headbands and hair accessories. However, be warned ... Give yourself an extra half an hour if heading to a party with Ming, as she does tend to take that extra bit longer when getting dressed for the event. Her best friend Rosie the fawn is fully aware of this.

YOU WILL NEED

Fasten off, leaving a long yarn tail. Sew the long edges of the headband together using the mattress stitch 5 6. This sewn edge forms the middle seam and will face the bottom of the headband. Do not weave in any yarn ends yet. With the middle seam facing the bottom, spray the headband with a little water and block it to flatten it out (instructions on page 5).

Optional: measure the length of the headband. In the pictured example, it measured 5" / 12.5 cm. Cut a piece of wire that is slightly shorter than the length of the headband. Curl the ends in, so that they don't poke through the headband 7. Insert the wire through the middle.

Fasten off, leaving a long yarn tail. When working row 2, the side that is facing you is the outside of the rose. Start rolling the rose away from you (at the end where you started row 2). Use the starting yarn tail to sew the base of the rose together, so it doesn't unravel. Use the end yarn tail to do the same 10. Leave long tails for sewing.

ASSEMBLY

— Sew the ears to the head. The inside corners of the ears should lie between rounds 4 and 5 and the outside corners should lie between rounds 13 and 14 of the head 11.

— Pin and sew the head to the body. The opening of the body should fall over rounds 27 to 29 of the base of the head.

— Sew the arms between rounds 20 and 21 of the body. They should be 7 stitches apart in the front.

— Put the shoes on the feet. Sewing the shoes to the feet is optional.

— Sew the base of the horn in the middle of the headband. Attach a piece of pink yarn at the back of the base. Spiral the yarn upwards. In order to prevent the spiral from slipping and unwinding, sew a backstitch on the back of the horn after every one or two winds of the yarn 12. Fasten the end of the spiral at the back of the horn tip and weave in the yarn ends.

— Sew the flowers along the base and on either side of the horn. Arrange these as you prefer.

— Put the finished headband on the kitten's head.

Lily the bunny

Lily is a budding bunny ballerina. She is a perfectionist and always strives to be the best she can be. Her favorite part of any ballet class is the jumps, as she has the best ballon out of all her classmates. She is not too keen on those pirouettes though, but as they say, practice makes perfect.

– Sew the legs to the body. The widest part of the thigh should fall over rounds 9 to 13 of the body ¹³. The back of the leg should sit just past the midline of the body ¹⁴. Attach each leg to the body by sewing around the inside of the

thigh as indicated by the dotted line in picture ¹³. Only sew on the inside of the leg, so that these stitches are not seen on the outside.

– Sew the arms between rounds 28 and 29 of the body. The arms should be 7 stitches apart in the front. The decreases made on rounds 6 to 9 of the arms should face the body.

– Sew the ears onto the head. The front corners of the ears should lie between rounds 18 and 19 of the head, and the corners of each ear should be 2 stitches apart ¹⁵. The back of each ear should fall between rounds 20 and 21 of the head ¹⁶. The inside corners of both ears should be 14 stitches apart ¹⁷.

George the dodo

ASSEMBLY

— Position the outer head onto the inner head. Centralise the tip of the "V" of the outer head between the two eyes. The tip of this "V" should fall at round 7 11. Sew it on.

— Sew the body to the base of the outer head. Tilt the dodo's head slightly if you wish. Use the marked stitches on round 25 of the body to help align the two pieces. Pin the parts into place first. Once secure, sew the body to the head. In the

example, the opening of the body was sewn over rounds 13 to 20 of the bottom of the outer head 12.

– Sew the beak to the inner head. The base of the beak should fall over rounds 15 to 20 of the inner head, between the eyes 13. The marked stitch on round 3 of the beak should face upwards.

– Sew the wings to the body. The magic ring of each wing should be attached between rounds 27 and 28 and the wings should be approximately 8 stitches apart in the front of the body. The bottom corner (where the base of the top feathers was joined) should be sewn between rounds 20 and 21 of the body. The top corner should be sewn between rounds 31 and

32 of the body. Use the starting yarn tail to sew around the top of the wing as indicated by the dotted line in 14.

– Sew each foot to the base of a leg. The base of the leg should sit over rounds 5 to 7 of the top of the foot. Use the end yarn tail to sew the foot through the front loop, left in round 3 of the leg.

– Sew the legs to the body. The opening of each leg should fall over rounds 9 to 12 of the body 15. If you count the stitches between rounds 9 and 10, the inside edges of each leg should be approximately 7 stitches apart 16.

– Sew the tail to the back of the body, between rounds 17 and 18 17.

ASSEMBLY

— Sew the outer head to the inner head. To position the outer head, make sure the two stitches of row 29 of the outer head sit just above the top of the nose 11. The middle of the bottom side of the outer head (purple safety pin in 11) should fall between rounds 14 and 15 at the bottom of the inner head. The two corners of the center panel of the outer head (pink safety pins in 11) should sit between rounds 14 and 15 at the top of the inner head. Use the long yarn tail of the outer head and sew around to secure it to the inner head.

— Using off-white yarn, embroider a few decorative stitches on the center panel of the outer head 12. Each stitch should run over two rows.

— Position the head onto the body and pin it into place. In the example, the opening of the neck was sewn over rounds 12 to 18 of the base of the outer head. Sew the head on the body.

— Attach the hind legs to the body by sewing around the inside of the leg as indicated by the dotted line in 13. Only sew on the inside of the leg, so that these stitches are not seen on the outside. The widest part of the thigh should fall over rounds 8 to 11 of the body, with the marked stitches on rounds 7 and 14 on the hind legs facing forwards. The top centers of the hind legs should be approximately 22 stitches apart.

— Attach the front legs to the body by sewing around the inside of the leg as indicated by the dotted line in 14. Only sew on the inside of the leg, so that these stitches are not seen on the outside. The widest part of the thigh should fall over rounds 21 to 24 of the body (you can place each front leg at a slightly forward angle), with the marked stitches on round 7 on the front legs facing forwards. The top centers of the front legs should be approximately 20 stitches apart.

— Sew the ears to the head. The flat edge at the base should fall over rounds 14 to 16 of the outer head 15. The ear bases should be 17 stitches apart in the front 16.

— Sew the tail to the body. The opening of the tail should be sewn over rounds 4 and 5 of the top back of the body.

— Sew the flowers and leaves to the garland base as you desire, and place the floral garland on your little fawn's head.

SMALL HEART SPOT (make 3, in light brown yarn)

Rnd 1: start 6 sc in a magic ring [6]

Rnd 2: ch 2, work in the center of the magic ring: 3 dc, 4 hdc, 1 dc, 4 hdc, 3 dc, ch 2, slst [20]

Fasten off, leaving a long tail for sewing. Weave in the starting yarn tail.

ASSEMBLY

– Position the head onto the body as desired, tilting it slightly if you wish. Use the marked stitches indicating the sides and front/back of the body to align the two pieces. Pin the parts into place first. Once secure, sew the body to the head. In the example, the opening of the body was sewn over rounds 19 to 26 of the bottom of the head ⑥.

– Sew the arms to the body. The front corner should be sewn between rounds 30 and 31, and the back corner should be sewn between rounds 29 and 30 of the body ⑦. The arms should be 9 stitches apart in the front.

– Sew the legs to the body. The top and bottom of the leg are indicated by the marked stitches. The widest part of the thigh should sit over rounds 7 to 12 of the body ⑧. Attach each leg to the body by sewing around the inside of the thigh as indicated by the dotted line in ⑧. Only sew on the inside of the leg, so that these stitches are not seen on the outside. The back

of the leg should sit just past the midline of the body ⑧.

– Sew the ears to the head. The flat edge of each ear base should fall over rounds 25 to 27 of the head ⑨. The front corners of the ears should be 14 stitches apart ⑩.

– Sew the horns to the head. The base of each horn should sit on the inside of each ear, and over rounds 25 to 27 of the head ⑪.

– Sew the tail to the body. The base of the tail should be sewn over rounds 8 to 9 of the back, in the middle between the two legs. Using light brown yarn, make a 35 mm pom pom and sew it to the end of the tail.

– Sew the big and small heart spots to the body. Position these as you wish (⑫ shows an example of how to place them).

– Make two 55 mm pom poms in pink and turquoise yarn and sew them to one side of the body, just below the head.

– Tie the ribbon around the top of the neck, creating the bow on the other side.

Slst in next st. Fasten off and weave in the yarn tail. We will now create the ear flaps. Use markers to identify the base of each ear flap ④. For the left ear flap, mark the 34th st (white marker, front of left ear flap) and 41st st (yellow marker, back of left ear flap) of round 12. For the right ear flap, mark the 18th st (white marker, front of right ear flap) and 11th st (yellow marker, back of right ear flap) of round 12.

Right ear flap (in light brown yarn)

Crochet in rows. Pull up a loop of light brown yarn in the yellow marker stitch ④, with the opening of the hat pointing away from you.

front of the hat, sc in next 7 st along the remaining edge of the left ear flap, sc in next 2 st along the base of the left ear flap [64] Slst in next st. Fasten off and weave in the yarn ends.

Braids (in dark pink yarn)

Cut a total of 12 strands of dark pink yarn, 12" / 30 cm in length. Pull 6 strands halfway through a stitch that is at the base of one ear flap ⑥. Using 4 strands for each 'arm', create a braid as long as you wish. The pictured example is a braid of 1.2" / 3 cm. Tie off the base of the braid and cut the ends to the desired length. The example leaves a tail of 0.4" / 1 cm. Repeat this for the other ear flap.

Make two 25 mm pom poms in dark pink yarn and attach them to the ends of the braids.

GOGGLE STRAP (in dark brown yarn)

Ch 46. Crochet in rows.

Row 1: skip first ch on the hook, sc in next 45 ch [45]
Fasten off, leaving a long tail for sewing. Mark the 12th and 13th stitches of each eye piece 9. Sew the ends of the goggle strap to these marked stitches. Weave in the yarn ends.

ASSEMBLY

- Sew the outer head to the inner head. Position the triangle of the outer head between the eyes. The tip of the triangle should fall between rounds 8 and 9 of the inner head.
- Sew the body to the head. Position the head onto the body and if it helps, pin the pieces into place first 10. In the pictured example, the opening of the body falls over rounds 12 to 17 of the base of the outer head.
- Sew the legs to the body. The widest part of the thigh should sit over rounds 7 to 10 of the body 11. The back of the leg should sit just past the midline of the body 12.

Attach each leg to the body by sewing around the inside of the thigh as indicated by the dotted line in picture 11. Only sew on the inside of the leg, so that these stitches are not seen on the outside.

— Sew the arms between rounds 22 and 23 of the body. They should be 8 stitches apart in the front. The decreases made on rounds 4 and 5 of the arms should face the body.

— Sew some sequins onto the top side of the wings 13. Then sew the wings to the body where you joined the body to the head. The straight edges of each wing should be facing each other. The marked stitches on rounds 5 and 14 indicate the outer edges.

— Sew the feelers to the outer head. The base of each feeler should sit over round 17. The feelers should be 12 stitches apart 14.

— Put the hat over the feelers and the outer head and pull the goggles over her head.

— Using gray yarn, sew four lines across the tummy 15. Each line should be 3 rounds apart.

Jimmy the meerkat

Jimmy the meerkat is a bit of a maverick, but he has the biggest heart of all. He is always there if you need a helping hand, except if you need help reaching for an item from a top shelf in the supermarket. In that case, a stepladder may be required. If you haven't already figured it out, he loves foxes and even his bedspreads have foxes printed all over them.

Daisy-Mae the pig

Dear Daisy-Mae the pig goes to the same ballet school as Lily the bunny. However, being a ballerina is not really her dream, she much prefers to roll around in the dirt and be one with nature. She goes only because Lily the bunny is her best friend and because her mum makes her. She is often seen helping Rosie the fawn out in the garden after ballet class.

Charlie the platypus

Not quite like most other mammals in the world, Charlie was hatched from an egg. Strong and athletic in built, he one day hopes to make it to the Olympics and compete in the triathlon. He does struggle with the running phase of the triathlon, but he is working on it. In addition to his sporty side, he is also a distinguished scholar and comes from a long line of prominent ancestors, including Henry Platypus the III (who is so famous he is honored by an Australian coin).

ASSEMBLY

– Sew the stripe to the head. The wider end of the stripe is the top end and should fall between rounds 1 and 2 at the back of the head ¹². The narrower end of the stripe should be centered between the eyes. There should be approximately 3 stitches between the white stripe and the inside edge of each eye ¹³.

– Sew the muzzle to the head. The yarn tail has been brought out between rounds 10 and 11 at the back of the muzzle ¹⁴.

The top of the muzzle should fall between rounds 14 and 15 of the head, centered between the eyes and over the stripe ¹⁵.

– Sew the flat edge of the ears between rounds 9 and 10 of the head. The front corners of the ears should be at approximately 5 stitches from the stripe ¹⁶.

– Pin the head to the body, giving the head a slight tilt if you wish. Sew the opening of the body over rounds 1 to 4 of the base of the head.

– Sew the patches to the body, you can position them as you wish. In the pictured example, Patch 1 was sewn over rounds 6 to 11 on the left front side ¹⁷, Patch 2 over rounds 4 to 13 on the right side ¹⁸ and Patch 3 over rounds 7 to 14 of the left center back ¹⁹.

– Sew the tail over rounds 4 to 6 of the body, between the hind legs ¹⁹.

– Put the neck band around the neck and sew the short edges together. Pass a few stitches through the body, so that the neck band does not swivel around.

– Sew the bow to the neck band.

gradually less fiberfill towards the top of the leg. Flatten the top of the leg and sc in next 7 st through both layers to close the opening. Fasten off, leaving a long tail for sewing.

WOOL ON BODY (in off-white yarn)

Hold the body upside down. Pull up a loop of off-white yarn in the last front loop left on round 29 of the body ⁹. Start in the same front loop in which you joined the yarn, repeat this pattern in every front loop of the body: (ch 10, slst in next front loop). When you finish a round, simply slst in nearest front loop of the next round and continue doing so until you reach the base of the body. Fasten off and weave in the yarn ends.

WOOL ON HEAD (in off-white yarn)

— Mark the bottom of the head where the body will be sewn, we will not crochet any wool on this part to make assembly easier.

— First pin the body to the head as you wish. In the pictu-

red example, the front edge of the body opening is attached between rounds 21 and 22 of the underside of the head and the back edge is attached between rounds 29 and 30 of the underside of the head.

— Next use pins to mark the outline of where the opening of the body meets the underside of the head, leaving a little bit of a space between the body opening and the position of the pins ¹⁰.

— Outside of this circle, use every front loop left on the head to crochet the wool. With the nose pointing away from you, pull up a loop of off-white yarn in the first front loop on the left side of the circle of pins on round 24 of the head ¹⁰. Start in this front loop and repeat this pattern in every front loop of the head: (ch 10, slst in next front loop). Crochet the wool in rows first. For example, once you reach the other end of the circle of pins on round 24 of the head ¹¹, all you need to do is turn the head so that the nose is now pointing towards you. Slst in the front loop in the next round (round 26) of the head (once again on the outside of the circle of pins ¹²). Keep working in rows until you reach round 30 of the head and continue working in rounds

from here. Once you're finished, you should have a bare spot on the underside of the head (13). Fasten off and weave in the yarn ends.

ASSEMBLY

– Sew the flat edges of the ears over rounds 27 to 29 of the head (14). On round 27, there should be 14 stitches between the front corners of the ears (15).

– Pin and sew the body to the head where no wool has been crocheted.

– Sew the arms between rounds 27 and 28 of the body. The

arms should be 8 stitches apart in the front.

– Sew the legs to the body. First mark the area where the legs will be sewn. I used the start magic ring as a guide (red pin in 16). The inside corners of each leg should be between rounds 4 and 5 of the body, 3 stitches apart (pink pins in 16). The outside corners of the legs should be sewn between rounds 8 and 9 of the body (green pins in 16).

– Cut a triangle piece of gingham/cotton fabric using a pair of pinking shears. The base should be 14.25" / 36 cm wide and the triangle should be 2.5" / 6 cm high. Tie the scarf around the neck.

ASSEMBLY

– Sew the ears to the head. The front corners of the ears should lie between rounds 17 and 18 of the head (8), with the corners of each ear 4 stitches apart (8). The back of each ear should fall between rounds 20 and 21 of the head. The inside corners of both ears should be 15 stitches apart (9).

– Pin the head to the squirrel's body and sew it on. Tilt the head slightly to give the squirrel a more adorable look. In the pictured example, the opening of the body is sewn over rounds 14 to 20 of the bottom of the head.

– Sew the arms between rounds 21 and 22 of the body. The arms should be 6 stitches apart in the front (10).

– Sew the tummy patch over rounds 5 to 20 of the front of the body.

– Sew the tail to the back of the body. The base of the tail should be sewn between rounds 4 and 5 of the back of the body, in the middle between the legs. Sew the inner side of the tail to the body by making stitches around it as indicated by the dotted line in (11). Only sew on the inside of the tail, so that these stitches are not seen on the outside.

– Put the beanie on the head.

Kenneth the sloth

Kenneth, otherwise known as Kenny to his friends, is well ... sloth-like. He does not really do much during the day. His day starts with reading the newspaper, but by the time he gets to the end of it, the next edition is already out. However, all of us can take a leaf out of Kenny's book and learn to just relax and slow down a little in this fast-paced world. Ming the kitten likes going to parties with Kenny as she never feels rushed.

ASSEMBLY

- Sew the nose over rounds 17 and 18 of the head, in the middle of the eye patches 9.
- Sew the outer head to the inner head. The outer edges of each eye patch go under the outer head. Make sure that the inner head is positioned so that the eye patches show evenly.
- Using pink thread, embroider rosy cheeks on either side of

the eyes.

– Pin and sew the body to the back of the head. Have fun with the positioning of the head. In the pictured example, the head tilts upwards looking to the left ⑩, with the opening of the body sewn over rounds 4 to 10 on the left side of the head ⑪. Note that the marked stitches on round 14 indicate the sides of the body.

– Sew rounds 25 to 30 of the arms to the body, along the dotted line in ⑫. Only sew on the inside of the arm, so that these stitches are not seen on the outside. The widest part of the arm should fall over rounds 22 to 26 of the body. The tops of the arms should be approximately 11 stitches apart in

the back ⑬.

– Sew rounds 26 to 31 of the legs to the body, along the dotted line in ⑭. Only sew on the inside of the leg, so that these stitches are not seen on the outside. The widest part of the leg should fall over rounds 6 to 11 of the body. The tops of the legs should be approximately 21 stitches apart in the back ⑮.

– Sew the body patch on rounds 7 to 15 of the body, in the middle between both legs. Sew the yellow buttons onto the patch, approximately 3 stitches apart ⑯.

– Put the nightcap on the sloth's head and sew on the pom pom. Use the yarn tails to sew the tip of the nightcap close to the base, to create a floppy look.

Victoria the swan

Victoria is the most regal of all the birds on the lake and is endeared by all owing to her sweet and motherly nature. She is the ballet teacher of Lily and Daisy-Mae and has graced the famous opera houses of the world in the role of Odette/Odile in "Swan Lake". It is safe to say that her preferred role is Odette.

— Position the beak over the black part and sew it on. The increases in rounds 9 and 10 of the beak should be on top,

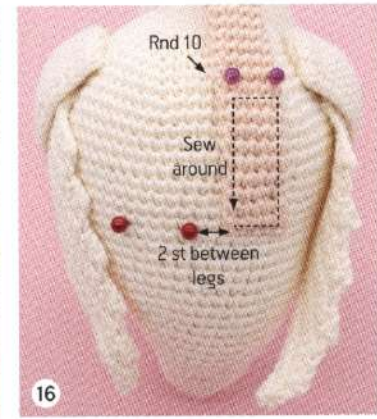

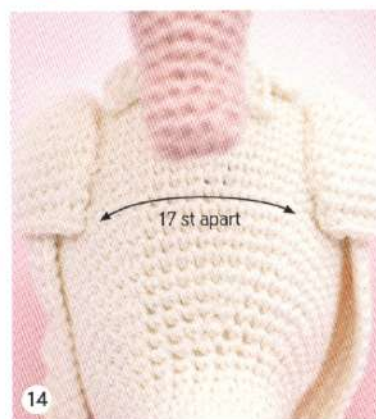

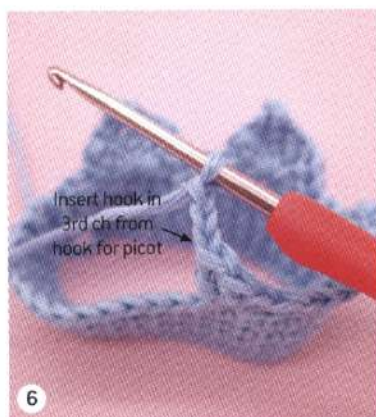

so that the beak curves upwards.

— Sew the head/neck to the body. The base of the neck should be sewn over rounds 9 to 15 of the body. The head of the swan should be in the middle of the marked stitches on round 23 of the body 10. Sew each tip of the collar to the body.

— Sew each wing to the sides of the body. The corner of each wing should sit between rounds 12 and 13 of the body and should have 10 stitches between them 11. The bottom corners of each wing should be approximately 27 stitches apart in the front 12. Make sure that the neck is in the middle between the wings.

22 and 23 ¹³ and the bottom corner should be attached between rounds 9 and 10 ¹³. The top corners of each wing cap should be 17 stitches apart on the back ¹⁴ and the bottom corners should be 18 stitches apart on the bottom ¹⁵. Sew around the curve of the wing cap, there's no need to sew across the flat edge ¹³.

– Sew the legs to the bottom of the body. Note that the side where the increases were made (on rounds 11 and 12 of each

leg) is the top side of the leg. The flat edge should be sewn between rounds 20 and 21 of the underside of the body. The inside corners of each leg should be 2 stitches apart. Attach the length of the top half of each leg snugly against the body by sewing each leg to the body up to rounds 10 and 11 of the body. Only sew on the inside of the leg, so that these stitches are not seen on the outside ¹⁶.

- To create the strap of the bag, pull up a loop of light brown yarn on edge 5. Ch 48. Fasten off. Sew the end of the strap to edge 6 ⑦. Make sure the strap of the bag is not twisted. Weave in the yarn ends.
- Sew a stud button to the middle of the bag flap to secure it on the bag.
- Sew a button on the outside of the bag flap.

ASSEMBLY

Attaching the parts

- Position the head onto the body, tilting it slightly if you wish. Use the marked stitches (indicating the sides of the head and the body) to align the two pieces ⑧. Pin the parts into place first ⑨. Once secure, sew the body to the head. In the example, the opening of the body was sewn over rounds 17 to 22 of the bottom of the head.
- Sew the arms between rounds 32 and 33 of the body, 6 stitches apart in the front. Use the marked stitches indicating the sides of the body to position the arms.
- Sew the tail to the body. Use the marked stitch in round 21 of the tail as the top center ⑩ and sew the opening of the tail over rounds 5 to 15 of the body.
- Position the legs on the body. The top of each leg should fall between rounds 14 and 15 of the body. Each leg should fall just below the marked stitches indicating the sides of the body. Make sure the legs are well balanced with the tail, so your dinosaur can stand on his own. Sew along inside of the leg as indicated by the dotted line in ⑪. Only sew on the inside of the leg, so that these stitches are not seen on the outside.

Sewing on the teeth and belly

- Position the teeth on the head, over the magic ring created at the start (blue pin in ⑫). The ends of the teeth should fall between rounds 7 and 8 of the head (pink pins in ⑫). The

teeth should be sewn so that they curve up slightly, giving your dinosaur a smile.

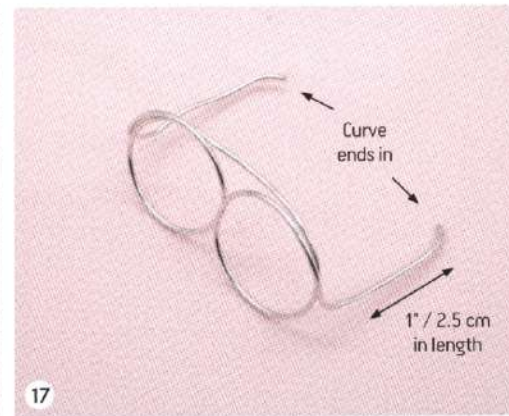

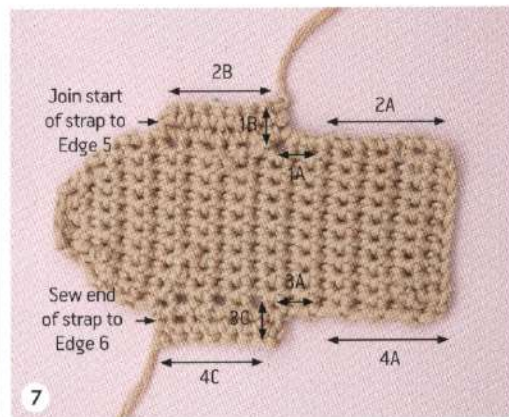

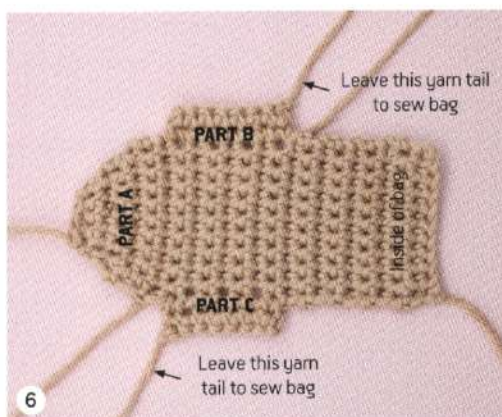

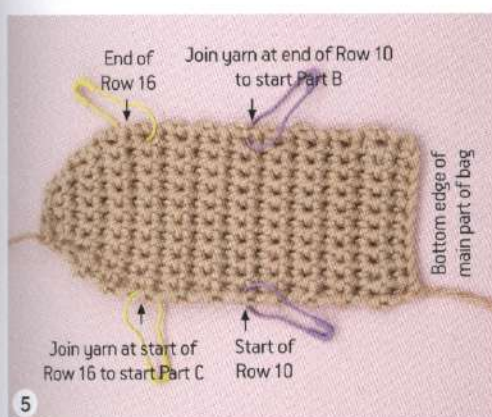

- Sew the tummy to the front of the body, in the middle between the legs. The tummy should fall over rounds 12 to 24 of the body ⑬.

Sewing on the spikes

- Sew the spikes along the middle of the back of the dinosaur ⑭.
 - Sew 3 spikes to the head. Start the first spike right where the body joins the head and sew the remaining two spikes upwards along the head.
 - Sew 2 spikes to the body. The top corner of the top spike on the body should be sewn between rounds 33 and 34 of the body. The lower spike on the body should be sewn just below the top spike and the bottom corner of this lower spike should fall where the tail joins the body.
 - Sew 2 spikes to the tail. The top corner of the top spike on the tail should be sewn where the tail joins the body. The top corner of the bottom spike on the tail should be sewn just below the top spike.

ACCESSORIES

- Cut a piece of silver wire of approximately 10" / 25 cm. Identify the middle of this wire.
- Wind the wire to the left of this midpoint around a cylindrical item of approximately 0.75" / 1.5 cm in diameter. Bend the wire straight back about halfway down the side of the frame of the glasses to create the right arm of the glasses ⑮.
- Place your cylindrical item against the right frame of the glasses and repeat the previous step. Bend the wire straight back about halfway down the side of the frame to create the left arm of the glasses ⑯.
- Cut the arms of the glasses so that they are approximately 1" / 2.5 cm in length. Curve the ends of the arms slightly inwards ⑰.
- Insert the arms of the glasses between rounds 19 and 20 of the dinosaur's head.
- Place his bag across his body.
- Wrap his scarf around his neck. The back of his scarf can be placed between the lowest spike on his head and the top spike on his body. Tie the ends of the scarf together.

meet Erinna Lee

Erinna was born and grew up in Singapore. From a young age, ballet was her passion. She received her qualification in classical ballet teaching from The Australian Ballet School in Melbourne, Australia, where she has resided since 1999.

Her father advised her to attend university to provide a fallback position for the future. No one would have guessed that this would be a defining point for her career. Intrigued by biology and its implications in disease, she finished her Bachelor of Science and PhD, and is now a cancer researcher driven to combat this devastating disease.

Crochet entered her life as an outlet for relaxation outside of the lab. Together with her mum, she opened the Etsy stores *Bubbles and Bongo* and *The Little Hook Crochet*. Erinna got her kick-start in pattern design when she entered the ever-popular amigurumi design contest run by *AmigurumiPatterns.net*. She has published her patterns in various crochet books and makes regular contributions to *Simply Crochet* magazine.

You will find Erinna's work primarily on Instagram where she is @littleaquagirl. Her account reflects her fondness of all things pink, fluffy and kawaii. *Amigurumi Treasures* is her very first book comprised entirely of her amigurumi designs.
