Giselle

Gauge is not crucial with this pattern, however it will impact the size of the eyes you choose. I find that a sport weight yarn, and a size F hook, gives consistent results for a 12 inch doll that pairs well with 12mm glass or safety eyes. HINT: This doll is assembled from the top down in a continuous spiral, however I like to start with the arms... that way they're ready to attach when the head is done.

Make Bobble= *YO, insert hook into stitch YO and pull loop through* repeat* 4 more times, YO pull loop through all stitches on hook.

Picot= Slip stitch in next 2 stitches, chain 3, slip stitch in same stitch.

Shell stitch= Slip stitch in next stitch, 5 HDC in next stitch

After Row 16 there should be 36 stitches.

It's time to stuff the head and place the eyes. Eye size and placement is personal and can dramatically effect the look of your doll. For the felt eye detail, trace figure C onto your felt and cut out carefully. I prefer very small spring loaded snips for this job. If using safety eyes with posts (or glass eyes with loops), make a small slit in your eye details just large enough to fit the eye backing through. Now you can begin positioning your eyes. Once you have chosen the best position, attach firmly.

Additional details:

FLOWER: The flower starts with a magic circle into which 6 SC are made. Pull tail to tighten.

Row 1: 2 SC in each stitch across. (12 stitches)

Row 2: Working in front loops only, Shell stitch across.

Row 3: Working in back loops skipped in previous row, Shell stitch across.

Bind off.

The center of the flower is made by a ch 8 and binding off leaving a long tail (at least 4 in.) on either end of the chain. Tie the chain in a knot in the center, then insert both tails ends into the center of the flower from front to back. The knot in the chain should prevent the piece from passing through the center of the flower. Use the tails of the chain on the back of the flower to attach to doll.

KNEE: Knees can be indicated with a small stitch (color A) through the leg from left to right about . Remember to pull any knots to the inside with your crochet hook.

TAIL: A little tail is optional, made by attaching color A to the center of the bum and (using a technique called surface crochet) *chain 6, SC into the surface of the body*. Working tightly around the center of the tail in a clockwise motion, repeat * about 6 more times before binding off.

FEATURES: Facial features really make the personality of your doll. With a contrasting color yarn, embroider the “Y” shape as indicated (figure D), entering through the chin, and exiting in the same spot. Freckles can be added with french knots in the same contrasting color.

The optional underskirt is made of 2 pieces of fabric, one 7" square and one 16" x 2" strip. Start by folding the 7" square in half with right sides together. If your fabric print has a directional design, keep in mind the fold will be the bottom of the dress. Press the fold and sew the left and right sides with a .25" seam. Turn right side out and press. Mark the center of the top of the dress (unsewn edge). You will be adding a pleat here by folding 1" in from both the right and the left to the center mark, pressing and basting these in place.

To the 16" x 2" strip, fold on the long edge with right sides together. Press and sew (.25" seam) along the sides and opposite long edge leaving a 4" opening in the center. Clip the corners and press the long edge seam back. Turn right side out, and insert the skirt piece into the opening in the strip. This seam can now be closed by top stitching on the machine, or using a decorative embroidery stitch. Either way, the stitching should secure the two pieces together by going through all layers. This dress wraps around doll just under the crochet dress and ties in a bow in the back.
