Gauge is not crucial with this pattern, however it will impact the size of the eyes you choose. I find that worsted weight yarn (4 colors, approx 75-100 yds each, plus some additional optional colors approx. 3-5 yds each), and a size F hook, gives consistent results for a 12 inch doll that pairs well with 12mm glass or safety eyes. HINT: This doll is assembled from the top down in a continuous spiral, however I like to start with the arms... that way they're ready to attach when the head is done.

Make Bobble= *YO, insert hook into stitch YO and pull up loop* repeat* 4 more times, YO pull loop through all stitches on hook.

Picot= Slip stitch in next 2 stitches, ch 3, slip stitch in same stitch.

Shell stitch= [5HDC] in next stitch, slip next stitch

Lace Shell= [SC, HDC, DC, ch3, DC, HDC, SC] in next stitch, skip next stitch, slip next stitch, skip next stitch.

You are now ready to attach the capelet. Place marker at the center front of the body, SC to one stitch past marker. Begin attaching capelet with the next stitch. With the wrong side of the capelet facing out and the opening in the front, line up each stitch on the capelet with the next 15 stitches of the body and crochet through both layers. After the last stitch of the capelet is attached, switch to color B. SC to center back of body. Start next row from this point.

After Row 16 there should be 36 stitches.

Row 17-20: SC across.

It's time to stuff the head and place the eyes. Eye size and placement is personal and can dramatically effect the look of your doll. For the felt eye detail, trace figure C onto your felt and cut out carefully. I prefer very small spring loaded snips for this job. If using safety eyes with posts (or glass eyes with loops), make a small slit in your eye details just large enough to fit the eye backing through. Now you can begin positioning your eyes. Once you have chosen the best position, attach firmly.

Additional details:

KNEE: Knees can be indicated with a small stitch (color A) through the leg from left to right about . Remember to pull any knots to the inside with your crochet hook.

SHOE STRAPS: Shoe straps are made by embroidering with a chain stitch from the inside of the shoe to the outside. Start with a piece of yarn (color C) 1 yd. and attach it to the top inside edge of the shoe. Embroider using chain stitch to the opposite edge. Remove the needle from your yarn and pick up your crochet hook. Draw up a loop with the remaining yarn and chain 6, bind off. Take the ch6 just made and tie in a knot as close to the shoe as possible, this is the shoe button. Weave in ends.

FEATURES: Facial features really make the personality of your doll. With a contrasting color yarn, embroider the “T” shape as indicated (figure D), entering through the chin, and exiting in the same spot. Freckles can be added with french knots in the same contrasting color.

ATTATCHING EARS: Attatch ears using whip stitch or ladder stitch and a single strand of yarn (color A).

The optional underskirt is made of 2 pieces of fabric, one 7" square and one 16" x 2" strip. Start by folding the 7" square in half with right sides together. If your fabric print has a directional design, keep in mind the fold will be the bottom of the dress. Press the fold and sew the left and right sides with a .25" seam. Turn right side out and press. Mark the center of the top of the dress (unsewn edge). You will be adding a pleat here by folding 1" in from both the right and the left to the center mark, pressing and basting these in place.

To the 16" x 2" strip, fold on the long edge with right sides together. Press and sew (.25" seam) along the sides and opposite long edge leaving a 4" opening in the center. Clip the corners and press the long edge seam back. Turn right side out, and insert the skirt piece into the opening in the strip. This seam can now be closed by top stitching on the machine, or using a decorative embroidery stitch. Either way, the stitching should secure the two pieces together by going through all layers. This dress wraps around doll just under the arms and ties in a bow in the back, or wrap straps all the way around and tie in the front. The front of this skirt can be embellished with ribbon, buttons, almost any notions you have left over from another project. Better yet, treat yourself to that special item you've always wanted to try!
