Materials:

1. Size F (3.75 mm) crochet hook (a)
2. Stitch markers (b)
3. Straight pins (c)
4. Yarn needle (d)
5. Worsted weight yarn
6. Embroidery thread
7. 15 mm plastic safety eyes
8. Polyester stuffing

10. Sewing needles
11. Pom-pom maker
12. Blush

Note:

All of my amigurumi are crocheted with tight tension. If you want your finished product to look like the example photo, I recommend that you crochet tightly, use the yarn suggested if possible and also stuff your amigurumi very generously! Most of my amigurumi actually border on being overstuffing; they don't have a lot of "squish" to them.

Penny measures in at 9.5" tall from her feet to the tip of her ears. Keep in mind that varying brands of yarn, even when they are the same weight, will alter the size and look of your finished product. For the sake of consistency, I highly recommend using the same brand of yarn for everything on an individual amigurumi, especially if the amigurumi is wearing clothes! Using different brands of yarn may lead to the clothes being too tight or too loose.

Penny was made with Loops & Threads

Stuff as you work upwards, putting more stuffing in the feet to give them their shape.

When you finish your first leg, fasten off and cut your yarn. You don't need to leave a long tail; just enough to tuck into the leg. When you finish your second leg, DO NOT fasten off or cut your yarn. Simply drop the loop from your hook, loosen it a bit and carefully follow the instructions on the next page in order to join the legs together and create the body.

To merge the legs:

Line up the legs as desired (pinning them together helps)

Hold them with the feet facing away from you as shown

Insert your hook from right to left, so your hook is in both legs

Grab the dropped loop from the second leg, pull it through both legs and complete the SC.

Continue single crocheting around the outside of the left leg, then proceed to the right: treat them like a single piece of crochet

This is what it should look like once you've single crocheted around both legs once. Since each leg was composed of 10 SCs, you should end up with 20 SCs.

SUPER IMPORTANT

You're all ready to start the body now, but before you continue you must mark where you'll start your rounds from now on. Place your marker as shown in step #6, in the middle-back of the body. **This placement is crucial!** If you place it anywhere else, the increases and decreases that shape the amigurumi's belly will end up in the wrong spot.

I've noticed that sometimes, after working on the body for a while, the marker sometimes migrates a little to the right or left. I just take the marker and put it right back in the middle, so everything remains centered.

Body (continued from legs):

Remember, as you work up the body, especially when you begin decreasing around Round 7, the stitch marker will shift off-center. When this happens, just move it back to the center. This works fine, it won't mess anything up and it will ensure that your amigurumi's body is shaped nicely and doesn't look slanted or wonky!

Round 1: SC 20 around.

Round 2: SC 7, inc in next 5 st, SC 8. (25) These 5 increases shape the amigurumi's belly in front.

Rounds 3-4: SC 25 around.

Round 5: SC 5, invdec 1, SC 2, invdec 1, SC 1, invdec 1, SC 1, invdec 1, SC 2, invdec 1, SC 4. (20)

Round 6: SC 20 around.

Round 7: (SC 8, invdec 1) twice around. (18)

Round 8: (SC 4, invdec 1) 3 times around. (15)

Round 9: SC 15 around.

Round 10: (SC 1, invdec 1) 5 times around. (10)

Round 11: SC 10 around.

Fasten off and leave a long tail for sewing.

Round 14: SC 9 around.

Fasten off, leave a tail for sewing and stuff (more stuffing at the bottom, less at the top).

Arms: Round 4

The cluster of 5 HDCs: remove your hook from the last loop

Reinsert your hook into the first HDC

Grab the loop you dropped

Pull the loop through and continue your round of 12 SCs

Assembling your amigurumi:

Use your thin knitting needle and skewer your amigurumi, lining up the head and body as desired and running the needle down through the top of the head and into the body. This keeps everything in place while you sew the head to the body, which is extra helpful with this particular pattern since the amigurumi's head is crocheted from front to back instead of top to bottom, which means it has no neck to line up with the body! Thread your yarn needle with the yarn tail left over from the body and stitch the head to the body.

When you're done, pin the arms and sew them on so you can begin making your amigurumi's clothes!

Tutu:

1. Chain 24 (plus a turning ch of 1, totaling 25 st)
2. Turn and SC across your foundation chain.
3. Turn and work across, decreasing 3 SCs as evenly spaced across the row as you can. (21)
4. Turn and work across, decreasing 3 more SCs as evenly as possible. (18)
5. Turn, SC 2, chain 5, SC 4, chain 5, SC 2.
6. Turn, SC across and SC into the chains you made in the previous row.
7. Instead of turning at the end of the last row, just SC down and around the edge of the piece until you reach the bottom. When you do, turn the work upside down and work along the bottom of your original foundation chain, making 5 HDCs in each stitch. This creates the ruffle of the tutu. When you reach the other end, fasten off and weave in your ends. Stick your bunny's arms through the buttonholes made in rows 5-6. It might take some pulling and shoving, since the hands are big! Stitch or SC the back of the tutu shut.

Create a pom-pom for the tail (either using a pom-pom maker or a piece of cardboard) and sew it on.

You're finished!
