Introduction

I remember the day in September 2009 when I was contacted by two photographers who wanted me to design hats with flowers on them for their photo shoots. As I was sewing the flowers onto the hats, it hit me! Why was I making the hat so final when I could just add a button to it? Then the wearer could interchange the flowers to create a true masterpiece perfect for any occasion. At that moment, Bouquet Beanies was born!

I love to create new styles and designs. I feel a sense of accomplishment when I complete a new pattern. They are like my children—unique and beautiful in their own way, and I'm so excited to share them all with you!

Enjoy, have fun and let your creativity shine!

About Buttons

We all know that young children like to put things in their mouths. They must be watched at all times while wearing items with buttons due to choking hazards. If you're concerned that your child might try to eat the buttons on the projects in this book, try one of these button alternatives. I have written two crocheted button patterns: a small one for the hats and a large one for the Twisted Headband.

Small Crochet Button Alternative

Using light sport weight yarn and leaving a 7" (17.8cm) tail, ch 2.

Rnd 1: Work 8 hdc in 2nd ch from hook; join with sl st in beg hdc. (8 hdc)

Rnd 2: Ch 1, (insert hook in 1st hdc, draw up loop, insert hook in next hdc, draw up loop, yoh, draw through all 3 loops on hook) 4 times, join with a sl st to beg hdc. (4 dec made)

Fasten off.

Insert the 7" (17.8cm) yarn tail into the bottom of the button to create a filling. Using a tapestry needle, thread the other end of the yarn, gather the opening of the button, draw tight and tie.

Large Crochet Button Alternative

Using light sport weight yarn and leaving a 14" (35.6cm) tail, ch 2.

Rnd 1: Work 5 hdc in 2nd ch from hook; join with sl st in beg hdc. (5 hdc)

Rnd 2: Ch 2, hdc in same st as joining, * 2 hdc in next hdc, rep from * around; join with sl st in 2nd ch of beg ch-2. (10 hdc)

Rnd 3: Ch 1, sc in same st as joining and in each st around; join with sl st in beg sc. (10 sc)

Rnd 4: Ch 1, (insert hook in 1st sc, draw up loop, insert hook in next sc, draw up loop, yoh, draw through all 3 loops on hook) 5 times; join with sl st to beg sc. (5 dec made)

Fasten off.

Insert the 14" (35.6cm) yarn tail into the bottom of the button to create a filling. Using a tapestry needle, thread the other end of the yarn, gather the opening of the button, draw tight and tie.

About Skill Levels

At the beginning of each project, you'll notice a flower symbol that denotes the skill level necessary to successfully complete the project. Here is a guide for the difficulty of those levels.

Beginner. These projects are excellent for first-time crocheters. They use basic stitches and have minimal shaping.

Easy/Intermediate. These projects use basic stitches, repetitive stitch patterns, simple color changes and simple shaping and finishing.

Chapter 1

Hats & Hair Treasures

I've designed several hats over the years, and I have to admit, they're all my favorites. I like instant gratification when I crochet, therefore I design my patterns with quick turnaround in mind.

Nothing makes me sadder than wanting to make a pattern only to find out it's available in just one or two sizes, so my patterns include all sizes, from newborn to adult. I get so much pleasure crocheting my designs for customers, whether it's for a newborn photo shoot, family photos or everyday wear.

There are many ways to make these hats unique. Take the classic beanie. You can add a Newsboy Brim for fun, a Sunhat Brim for summer or Earflaps for the cooler months. Who wouldn't love to create her own hat to match any piece of clothing in her wardrobe? Just choose the hat design and then move on to [Chapter 2](#) to pick a flower or motif. They interchange on the hat by simply fastening them onto the button!

Experiment using worsted weight yarn and a smaller hook to make the designs that call for sport weight yarn. This will make them thicker and warmer. You can also use two strands of sport weight yarn and a smaller hook to make the Comfy Cloche. These are just a few ways to make the designs your very own.

Scalloped Beanie

Okay, I take it back. I do have a favorite hat. It's this one. This hat is where my foray into creating interchangeable designs started. What I love about this design is that you can make it as simple or as complex as you like. Want to use a funky fiber? Do it! Have a fun, old button that needs a home? Use it!

Twisted Beanie

The puff stitches in this hat make it truly unique, and although this pattern is for the more experienced crocheter, with the illustrations and some patience, you will be working it up in no time. Wear this hat all year long—while dressed up, in your favorite pair of jeans or to your first day of school. Add a Newsboy Brim for a subtle look, Earflaps for the cooler fall and winter days or wear it as a simple, stylish beanie. Picture your little troopers playing in their treehouse, wearing a snugly hat with earflaps. Match it to their favorite jacket or scarf, and you won't have to persuade them to bundle up again.

Newsboy Band Hat

Beep, beep, beep ... the alarm clock sounds. Campbell and Tait jump out of bed, ecstatic because it's Sunday morning and they get to go fishing with their dad! Just as they are about to leave the house, they change the bands on the Newsboy Hats that I made for them. They never leave home without them because good things always happen, including catching “the big one,” while they have their lucky hats on!

Button Placement

Once the Newsboy Brim has been added to the hat, sew one button onto the 2nd dc rnd up from each corner of the Newsboy Brim.

Button the interchangeable band onto the buttons using the 3 hdc holes on each side of band.

Note: If the band is for the 0–3 month hat size, you may have to button the band through one of the end dc to make the band fit snugly.

Sew a big, chunky wooden button on this hat or add an interchangeable motif to change the look for a boy or a girl. Add some color with stripes or make the hat without the brim for a simple, stylish beanie. (see [the Stitches & Techniques section](#) for information about color changes.)

Multifunctional Hair Ties

A sweet little flower is all your little flower needs to think of you during the day. When I was little, I loved colorful, fun hair ties (and still do). Now you can create your own hair treasures. Try wearing it across your forehead for a chic “boho” look, or even as a choker necklace with a Pinwheel Posy made using that yarn you’ve been saving for something special. Make the ties longer for a trendy belt, or tie them onto your bag or backpack so you can tell it apart from the others. Change them into friendship bracelets or anklets by making them shorter. What a great little project to do on a rainy day. They’re great stash-busters too! Play around with different yarns, from self-striping to funky fibers, to give each one its own look.

Serena Beanie

I used basic stitches and a simple pattern to create this elegant hat. Top it off with a big, chunky wooden button or crochet a motif in a luxurious yarn. You can also add more rows to the body to make a fabulous slouch hat. This is the perfect addition to a dress-up or a dress-down kind of day.

Chapter 2

Interchangeable Flowers & Motifs

Let your creativity shine while making these fun flowers and motifs! Each one uses only a small amount of yarn, so they make great stash busters. Feel free to break the rules and pull out those wild and funky fibers, scrap pieces and embellishments to create these motifs. After you've finished one, you'll want to make them all!

Want to use a different size button than the pattern calls for? Simply adjust the center ring of the motif by increasing or decreasing the amount of chains to form the beginning loop. This simple alteration will make it fit over the button.

Not only can you change the look of any of the projects in this book by adding these embellishments in different colors, textures or fibers, but you can create with them in many other ways, too!

P.S. Little girls love these accents! They get to pick whichever flower or motif their little hearts desire. Better yet, they get to put it on themselves!

Triple-Tier Clusters

These flowers make the perfect finishing touch for a handbag, sweater or accessory. For instance, add a pin to the back and make a beautiful brooch! Once you've learned the pattern, try using a highly textured yarn to give them extra dimension and pop.

Coral Reef Blooms

These multi-petal blooms look as if they can be found in the coral reefs fifty leagues under the sea. Transform your little one into your own little mermaid by putting one on her hat or hair treasure! These flowers can be made smaller or larger by increasing or decreasing the number of chains for the petals. Make it a single-tiered bloom or try making each tier a different color.

Carnation Puffs

These big Carnation Puffs remind me of fluffy clouds or cotton balls. Don't be afraid to experiment by using textured yarns to make them. Each one will have a different look than the next. Use them in place of bows on gifts, or use cotton yarn to create soft, luxurious bath puffs or eco-friendly dish scrubbies—perfect for those nonstick pots and pans that need extra-special care.

Cherry Blossoms

There are so many possibilities for these blossoms. I see them draped from corner to corner, hanging on a crocheted chain to make an adorable garland or dangling off a ribbon on a one-of-a-kind baby mobile. I even see them draped on a curtain rod in the kitchen, each one made in a bright color. How cute would these be made out of a finer yarn and added to the end of a few bobby pins? Sew a button onto a hair elastic and interchange them to match your wardrobe. Your friends will adore your embellished necklace or bracelet featuring these cherry blossoms. You control how small or how big you make them by using different thicknesses of yarns and sizes of hooks.

What a Great Idea

Blossom Bobby Pins

These simple and elegant bobby pins make a great addition to your hair accessories collection. I used a thinner cotton yarn and a smaller hook to create the flowers, then tied them onto a bobby pin. Attach these flowers to any kind of hair clip or fabric headband to create a great hair accessory, and don't be afraid to experiment with textured yarns.

Gorgeous Garland

This garland would look great draped over kitchen curtains, in a baby's room or made in Christmas colors to decorate a Christmas tree. All you need to do is chain away! To create this easy garland, chain the length you need and fasten off. Next, crochet the cherry blossoms in the colors of your choice. Cut one piece of yarn approximately 8" (20.3cm) long for each blossom you make. You will use these strands to attach the blossoms to the chain. Pull the yarn through the blossom petal and the chain, then back through the chain and blossom petal again and tie it in a bow. Make sure the flowers are evenly spaced on the chain. This is a quick and easy way to brighten any room.

Blossom Baby Mobile

How sweet would one of these mobiles be hanging in a baby's room? To make a mobile, you need a grapevine wreath, ribbon, a tapestry needle, yarn, buttons and some Cherry Blossoms. First, using two strands of yarn, crochet two long chains. (The length of the chain depends on how far down from the ceiling you want it to hang. These chains will attach from one side to the other side of the wreath, alternating sides.) Once you have chained the desired length, turn and hdc in the 2nd ch from the hook. Proceed to hdc in each remaining chain. Sew or tie the hdc chain ends to the wreath using the picture for placement. Gather the middles and tie into a knot. Next, cut the ribbon into the desired lengths and sew them onto the wreath, making sure they are evenly spaced. Sew buttons onto the tops and bottoms of the ribbon. Make the blossoms in the colors of your choice and place them onto the buttons. Now you have a one-of-a-kind baby mobile!

Swirl Flowers

I simply adore the curves of this flower; it has such a beautiful, unique look. Create your Swirl Flowers by using different textures and thicknesses of yarns. Each one will look like a little masterpiece!

Flopsy Hares

Here comes Peter Cottontail, hopping down the bunny trail.... These bunny rabbit motifs are perfect for decorating children's Easter baskets before they go looking for their eggs. Button one on her new headband, or add it to a hairclip to match her beautiful Easter dress. Perhaps you know of a little cherub who loves bath-time toys. Crochet a few of these in 100% cotton yarn and tub time will become an instant hit!

What a Great Idea

Custom Easter Baskets

Who wouldn't love waking up Easter morning to find a herd of these little bunnies gathered on his or her Easter basket? To create these custom baskets, sew several $\frac{7}{8}$ "–1" (2.2cm–2.5cm)

buttons on the basket where you would like the bunnies placed (leave the yarn ends facing outward. These will be the whiskers). Simply button the bunnies onto the buttons and unravel the yarn ends to create their whiskers! It's a quick and easy transformation for a plain basket.

Cotton Tub Toys

By making the motifs out of 100% cotton yarn, you can create adorable little toys for your kids to play with in the bathtub! These would also make great wipes for babies because they're soft on the skin.

Sweet Hearts

In just two rounds, you can create these adorable Sweet Hearts. They're easy to make and beautiful to look at. Add one to your handmade Valentine's Day card to give it a more personal touch, or sew two together (back to back) in different colors and hang them in the baby's room above the crib or over the chair. As you rock your baby, they can see and feel the love in the air.

What a Great Idea

Make your Sweet Hearts even sweeter by creating a slip stitch border in a different color yarn. After creating a Sweet Heart using the basic pattern, follow the steps below:

1. Using trim color (TC) of your choice, insert hook through any hdc st around the last rnd of the heart.
2. Draw yarn up through st (diag 1).
3. Insert hook into next hdc and sl st. Proceed to sl st in each st around outside of the entire heart to the last st (diag 2).
4. When you reach the last st, drop the loop off your hook and place hook under the heart. Insert hook from bottom up into center of first sl st made. Use fingers to place loop over hook and draw it down through center of 1st sl st.
5. Cut yarn and pull end through loop. Pull tight, tie both ends together and weave in ends.

All-Season Wreath

What an easy way to decorate your room or front door! All you need is a grapevine wreath, ribbon, buttons and some Sweet Hearts. This is a great way to display those vintage buttons you've been saving for a special project.

First, wrap the ribbon around the wreath. (If you use wired ribbon, you can twist it around a piece of the wreath to start it and end it, and it will stay in place.) Next, sew $\frac{7}{8}$ "–1" (2.2cm–2.5cm) buttons onto the wreath where you would like the Sweet Hearts to go (leaving the yarn ends facing outward will give the wreath a unique look). Lastly, make some Sweet Hearts in the colors of your choice. Button the hearts onto the wreath and voila! You have a great addition to your home.

These wreaths are perfect for celebrating any occasion. Just change the ribbons, colors and motifs to make a great piece for any season or holiday. White, pink and red hearts are perfect for Valentine's Day, while bunnies are great for Easter. White, red and green Carnation Puffs are lovely for Christmas. The possibilities are endless.

Bear Hugs

Bear Hugs are so simple to make and so much fun to play with! For a quick baby shower gift, make them using cotton yarn, and they magically turn into baby bath wipes. While you're at it, make some face scrubbies for yourself, and your children will love having a few as toys for the bathtub.
