A Shore Thing

Knitting friends from opposite coasts come together for a nature-themed book.

BY LEEANNE JONES

Hannah Fetting and Alana Dakos in a rare get-together.

California and Maine are 3,000 miles apart. But for two knitwear designers who call these states home, the distance did not impede their friendship—and in fact, it helped inspire a successful collaboration.

In their self-published *Coastal Knits*, Alana Dakos and Hannah Fetting showcase 10 patterns that evoke the distinctive landscapes of their opposite shores. Among the instructions are essays and photos of their favorite beaches, forests, and neighborhoods.

The ancient, contorted trees in California's Los Osos Oaks State Natural Reserve, which 29-year-old Alana often visited as a child, inspired her Gnarled Oak Cardigan. Embossed leaves circle the yoke and the buttons are made from oak branches. "I'm really attached to that specific location," she says, "and I love the way the design turned out. It's

exactly what I envisioned." Similarly woodsy is her Rustling Leaves Beret, evoking the eucalyptus trees in Montaña de Oro State Park.

Hannah's Rocky Coast Cardigan is a classic cable knit with a wide collar—a cozy shield against the cool Atlantic breeze off a rocky shelf at Two Lights State Park, near the 34-year-old's New England home. "It especially reads 'Maine,'" she says, "and it reminds me of my grandma's era in a modern way."

Her grandmother first taught Hannah how to knit when she was young. While working at a yarn shop a few years ago, Hannah took some of her designs to a trade show and scored a book deal. It was while promoting that book, *Closely Knit* (North Light Books, 2008), that she met Alana, a self-taught knitter from a creative and entrepreneurial family. Alana, too, was working at a yarn shop, and she contacted Hannah to interview her for a podcast. When Hannah scheduled a California stop on a book tour, Alana hosted her at her home.

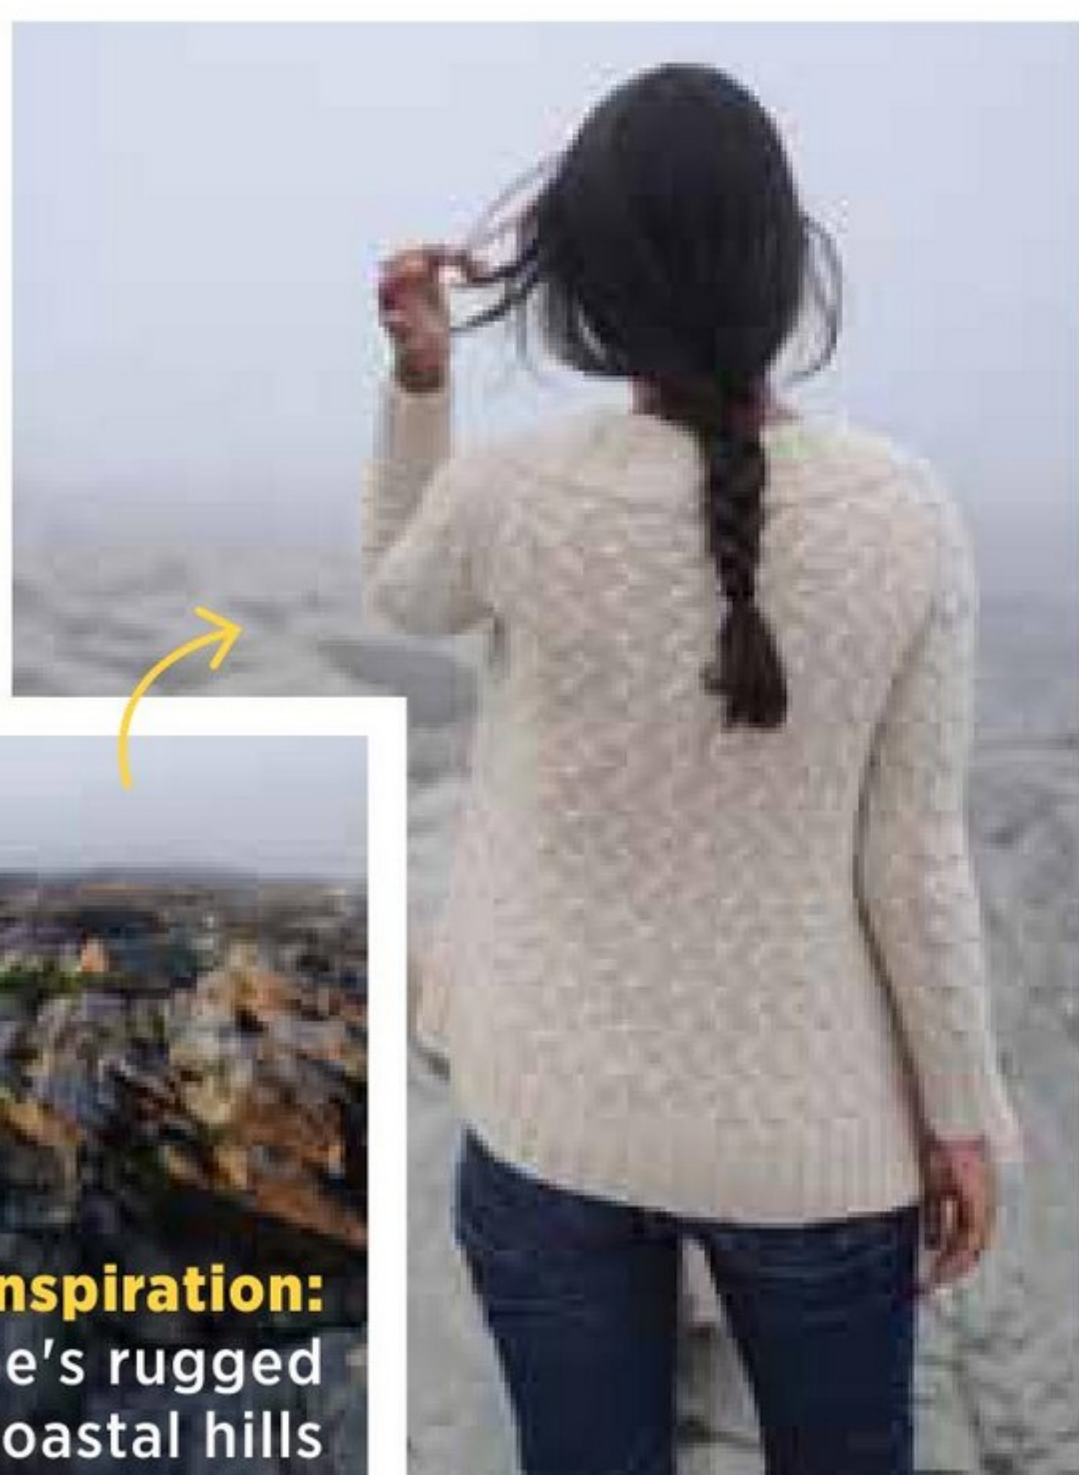

They became fast friends and continued to keep in touch online, even helping each other with their pattern businesses, Hannah's Knitbot and Alana's Never Not Knitting. In early 2011, they decided to collaborate on a self-published book. Despite the time difference and their differing styles—Alana's intricate and feminine details; Hannah's simple, classic aesthetic—the project came together quickly and

smoothly. They took on every aspect, from photography to marketing. And with some design and technical assistance—along with their kids' babysitters posing as models—*Coastal Knits* was released at the end of October.

The response has been overwhelming: The first print run sold out within two weeks, so the quantity was doubled for the second. A 2,100-member fan group on Ravelry enthusiastically shares photos of projects from the book. And four child-sized patterns, called *Coastal Kids*, were released digitally at the end of April 2012. "People have resonated with the stories and even have personal connections to some of the locations," says Hannah. "It has exceeded our expectations." 🌿

How to Knit a Left-Twist Cable (LC)

1 Insert the right-hand needle from back to front between the first and second stitches on your left-hand needle.

2 Knit the second stitch through the front loop without slipping it from needle.

3 Pull the new stitch through to the back of your work.

4 Then knit the first stitch through the front loop and slip both stitches off the needle.

5 Here, you can see how the LC stitches twist to the left.

Lorna's Lesson

Our savvy expert answers your questions about zippers and weaving in ends.

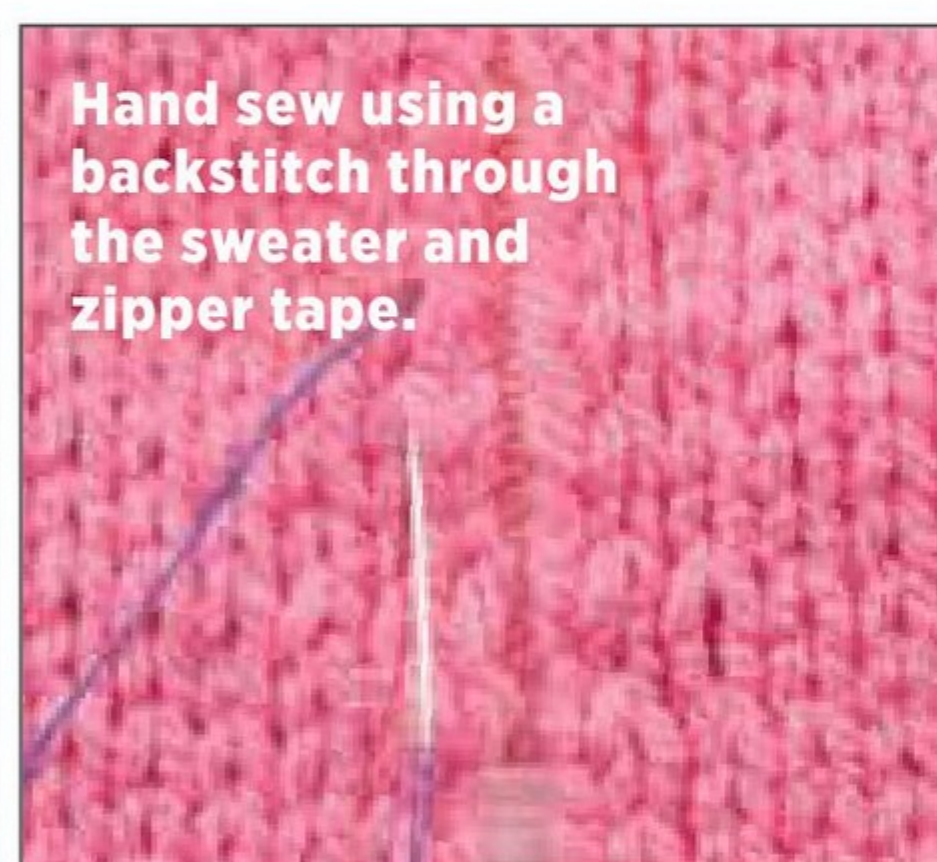

Q I've never sewn in a zipper before, help!

A When sewing zippers into knit sweaters, remember that some of the most important things happen *before* you start sewing. Here are some tips:

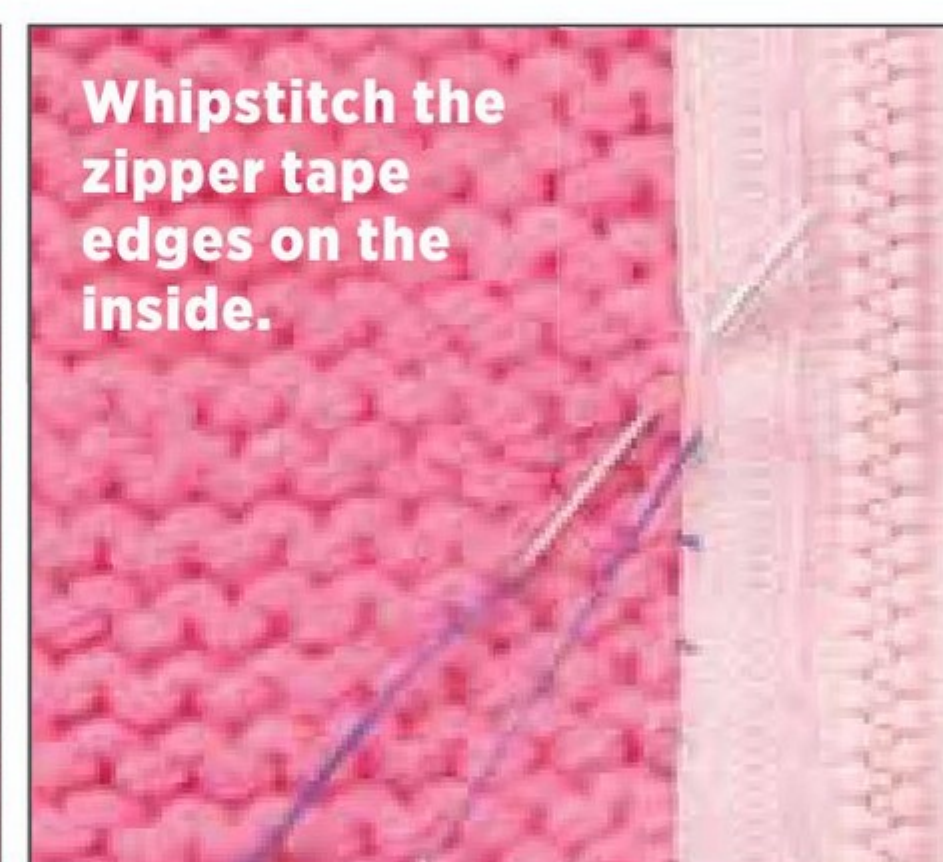

- ♦ Purchase the correct zipper for your garment. Some zippers are very thick, stiff, and bulky, intended for coats and jackets, not for soft knit garments. You need a light- or medium-weight zipper that can bend and move with your sweater and is less likely to pucker and ripple unat-

Hold the zipper in place with masking tape.

Hand sew using a backstitch through the sweater and zipper tape.

Whipstitch the zipper tape edges on the inside.

tractively. For a cardigan, make sure to choose a separating zipper that opens into two pieces.

- ♦ A zipper should be slightly shorter than the garment front by as much as an inch to an inch and a half.
- ♦ Make sure the garment is well blocked. Don't stretch it, just allow it to lay completely flat and

relaxed on your table.

- ♦ Position the zipper next to one of the front edges. Decide whether the zipper teeth will show or be hidden, and center the zipper between top and bottom.
- ♦ Baste the zipper in place—well, that's what the instructions always say. But since knit fabric shifts so much, basting

doesn't guarantee that the zipper won't pucker or move, so I prefer to use tape. There are several dissolving, washable, or even fusible tapes available. Much handier is plain old masking tape, the kind used for painting. Tear a piece as long as your zipper and place it in a straight line down the center of the zipper tape, holding the sweater and zipper together on the wrong side. Sew close to the zipper teeth so the thread's not likely to catch in the tape, but even if it does, tape is easy to remove.

- ♦ From the right side, machine sew through the sweater and zipper tape straight down a column of stitches. If you don't have a machine, use a backstitch to hand sew the same way. Keep the stitches fairly small and snug, fairly close to the zipper teeth.
- ♦ Finally, gently remove the tape and invisibly whipstitch the zipper tape's edge to the inside of the sweater. ✨

Diagonally weave in ends on the wrong side.

Leave long ends and weave each color into the same color stitches.

Separate the plies and weave them in opposite directions.

Q What's the best way to weave in ends so they don't pop out later?

A Use a blunt tip tapestry or darning needle. Large needles are good for worsted or heavier yarns, but choose a smaller needle for thin yarn.

- ♦ Leave a long enough tail to work with—a six-inch length is much easier to handle than a two-inch piece.
- ♦ For most yarns, weave the ends through the stitch loops on the wrong side of the garment, either diagonally or loosely across a row. Weaving for an inch to an inch and a half is sufficient.
- ♦ If the yarn is very bulky, separate the plies and weave

- each ply in a different direction to avoid excess bulk.
- ♦ For multicolor projects, weave each color into the back of itself, to prevent it from showing through on the right side.
- ♦ If the yarn ends like to pop out, weave in one direction for an inch, then reverse and weave in the opposite direction for an inch.

What's in Your Bag?

Stitch markers and all the usual gadgets, plus a calculator and row counter (for the days when I can't count to 4).

Beginner Basics

Whether you're new to knitting or just want to rekindle your love for it, you can get started here.

STEP 1: How to Tie a Slipknot

1 Make a loop of yarn with the yarn ball end in your left hand and the free end in your right hand.

2 Holding the spot where the two yarns cross together in your right hand, make another loop and feed it through the first loop from the back.

3 Pull the second loop through the first loop until the first loop is tight.

4 Insert your needle into the bigger loop and pull the yarn ball end until the loop comfortably holds the needle. Now you're ready to cast on.

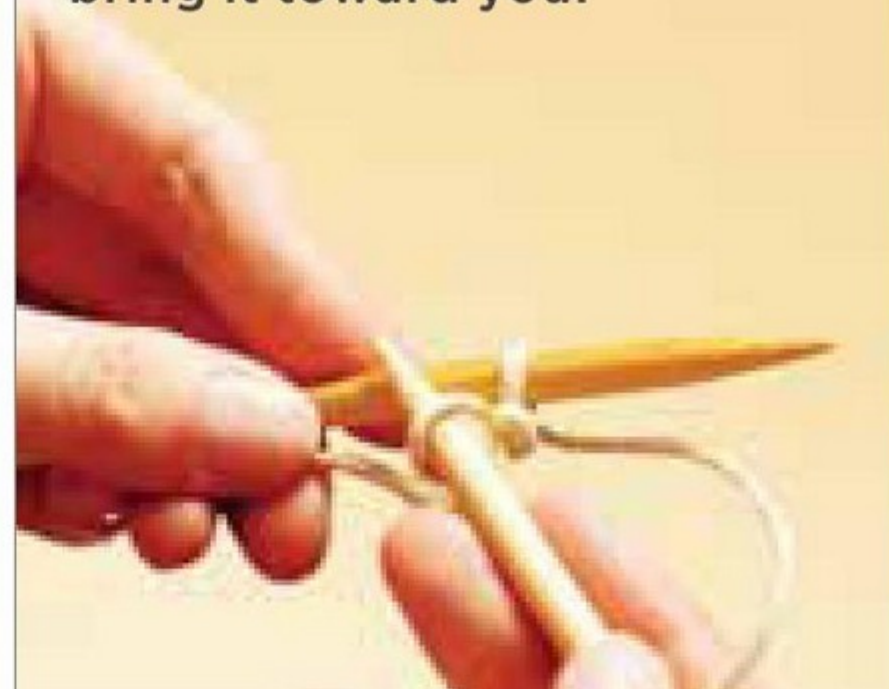

STEP 2: Cast On (Cable Method)

1 Insert the right needle behind the slipknot. Wind the yarn around the tip of the needle counterclockwise.

2 Pull the right needle back under the left needle, keeping the yarn loop on the tip as you bring it toward you.

3 Using the right needle, pull the loop out and slip it over the tip of the left needle.

4 Insert the right needle between the stitches on the left needle, wind the yarn around its tip, then repeat steps 2 and 3 to add stitches.

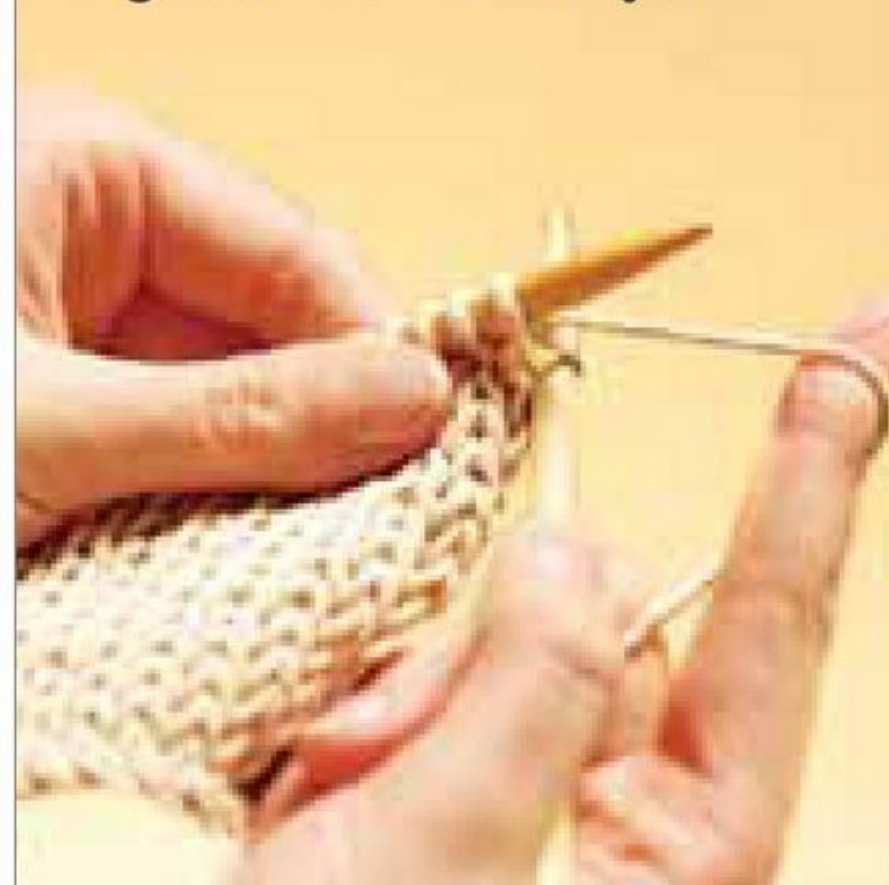

STEP 3: How to Knit

1 Hold the needle with stitches in your left hand. With the yarn in *back*, insert the right-hand needle *up* into the first stitch's front loop, *behind* the left needle.

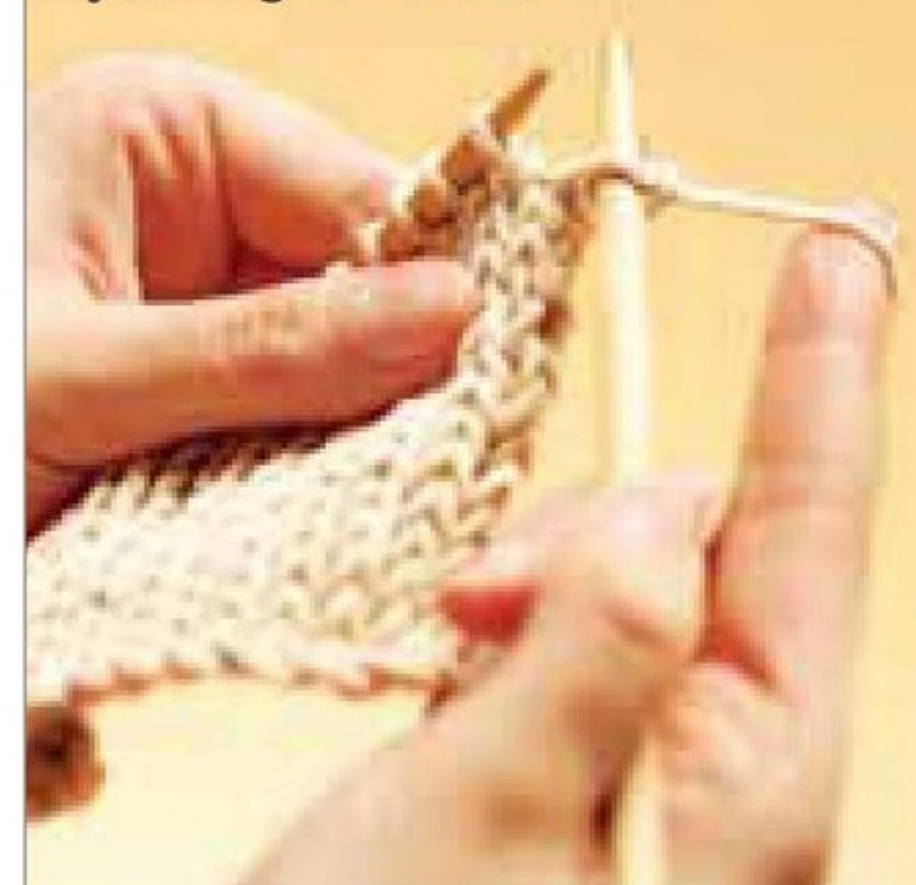

2 Wind the yarn counterclockwise around the right needle, keeping a slight tension on the yarn.

3 Bring the right needle through the loop to the front, pulling the yarn that's wound around it.

4 Slide the original stitch off the left needle, and keep the new stitch on your right needle.

STEP 4: How to Purl

1 Hold the needle with stitches in your left hand. With the yarn in *front*, insert the right-hand needle *down* into the first stitch's front loop, *in front of* the left needle.

2 Wind the yarn counter-clockwise around the right needle, keeping a slight tension on the yarn.

3 Bring the right needle back through the stitch, pulling the yarn that's wound around it.

4 Slide the original stitch off the left needle, keeping the new stitch on your right needle.

STEP 5: Basic Bind Off

1 Knit the first two stitches of the row as usual. There will be two stitches on your right needle after you do this.

2 Insert the left needle through the first stitch on the right needle. Lift it over the other stitch on the right-hand needle and drop it off the needle tip.

3 Knit another stitch so you have two on the right needle again. Repeat steps 2 and 3 to cast off another stitch.

4 At the end of the row, cut the yarn 6" (15cm) away from the knitting and pull up on the stitch until the yarn end comes through it.

Turkish Cast-On Worked on two circulars, this is a great start for toe-up socks.

**BONUS
Tip!**

1 Hold two circular needles in parallel, tips facing to the right. Make a slipknot and place it on the bottom (purple) needle. Wrap the yarn around both needles for half of the number of stitches you will eventually need.

2 Pull the bottom (purple) needle until the wrapped stitches slide onto its cable. Using the other tip of the top (blue) needle, knit each wrap on that needle.

3 Turn the work so the bottom (purple) needle is on top, and slide the wraps onto the needle tip, while sliding the stitches on the top (blue) needle onto its cable.

4 Drop the beginning slipknot off the right needle. Using the other tip of the top (purple) needle, knit the second set of wraps.

Recommended Yarn Substitutions

To use a yarn that is different than the one listed in a pattern, just check the yarn weight symbol for the recommended yarn and choose another with the same weight. Here are *Crochet Today's* suggestions for appropriate substitutes.

Note: When switching yarns, always do a gauge swatch with the new yarn and adjust your needle size if necessary.
