# INTRODUCTION

I am a big fan of all things Disney. I love the movies, the characters, and visiting Disney parks whenever I can. I love animation so much that I became an animator after graduating from college—while designing crochet patterns in my spare time, of course.

Now you can create a little Disney magic of your own with just a crochet hook, a few skeins of yarn, and this book. Inside you'll find a dozen classic Disney character projects complete with carefully crafted details like Minnie Mouse's pillbox hat, Jiminy Cricket's handy umbrella, and Donald Duck's darling bowtie.

I hope you'll have as much fun making these timeless characters as I had designing them.

Happy crocheting!

—Megan Kreiner of MK Crochet

# WHAT'S INCLUDED

This kit contains the materials you will need to make one Mickey Mouse and one Donald Duck. Included are the following: a size G/6 (4 mm) crochet hook; a metal tapestry needle; yarn in colors white, black, blue, yellow, and red; felt in black, light blue, and white; thread in black and white; and fiberfill.

# TERMINOLOGY AND TECHNIQUES

## SLIP KNOT

This is the basic knot used at the beginning of a chain and as a base for the adjustable ring.

1. Make a loop with a 6" tail. Overlap the loop on top of the yarn coming out of the skein. (Fig. A)

2. Slip your hook into the loop and under the working yarn. Pull to tighten the yarn around the hook. (Fig. B)

## CHAIN (CH) AND YARN OVER (YO)

1. Begin by making a slip knot on your hook.

2. Yarn over (YO) by wrapping your yarn over the hook from back to front. Draw the yarn through the loop on your hook. You should now have 1 loop on your hook and the slip knot below it. (Fig. C)

3. Repeat step 2 until you've reached the specified number of chain stitches. When checking your work, only the chains below the loop on the hook should be counted. (Fig. D)

## SLIP STITCH (SL ST)

Working as loosely as possible, insert your hook into the next chain or stitch. YO and draw the yarn through the loops on your hook. (Fig. E–page 6)

## SINGLE CROCHET (SC)

1. Insert your hook into the next chain or stitch and YO. Draw the yarn through the chain or stitch. You will have 2 loops on your hook. (Fig. F–page 6)

E

2. YO and draw yarn through both loops on your hook to finish the stitch. (Fig. G)

### **HALF DOUBLE CROCHET (HDC)**

1. YO the hook and insert your hook into the next chain or stitch. YO a second time and draw the yarn through the chain or stitch. You will have 3 loops on your hook. (Fig. H)

2. YO and draw yarn through all 3 loops on your hook to finish the stitch. (Fig. I—page 7)

F

### **DOUBLE CROCHET (DC)**

1. YO the hook and insert your hook into the next chain or stitch. YO a second time and draw the yarn through the chain or stitch. You will have 3 loops on your hook. (Fig. J)

2. YO and draw yarn through the first 2 loops on your hook. You will have 2 loops remaining on your hook. (Fig. K)

3. YO and draw yarn through the remaining 2 loops on your hook to finish the stitch. (Fig. L)

G

### **TRIPLE CROCHET (TR)**

1. YO the hook 2 times and insert your hook into the next chain or stitch. YO a third time and draw the yarn through the chain or stitch. You will have 4 loops on your hook.

2. YO and draw yarn through the first 2 loops on your hook. You will have 3 loops remaining on your hook. (Fig. M—page 8)

3. YO and draw yarn through the next 2 loops on your hook. You will have 2 loops remaining on your hook. (Fig. N—page 8)

4. YO and draw yarn through the remaining 2 loops on your hook to finish the stitch. (Fig. O—page 8)

H

## INCREASES (SC 2 IN NEXT ST)

The most common increase in this book, simply work 2 or more stitches into the same stitch. (Fig. P-page 8)

## DECREASES

You will find two kinds of decreases within this book: single crochet decreases and skipped stitches.

### SINGLE CROCHET 2 TOGETHER (SC2TOG)

**1.** Insert your hook into the next stitch. YO and draw the yarn through the stitch. You will have 2 loops on your hook.

**2.** Repeat step 1 in the following stitch. You will have 3 loops on your hook.

**3.** YO and draw yarn through all 3 loops on your hook to finish the decrease. (Fig. Q-page 9)

### SKIP (SK)

Per the pattern instructions, count and skip the number of stitches indicated before proceeding with the next stitch.

### PLACE MARKER (PM)

Markers can be used to help you locate a specific spot on your piece, such as the start and end of a round, the corners of a square shape, or a point for an assembly step. A marker can be as simple as a tied-on piece of scrap yarn or a safety pin. Split or locking rings also work well.

When a pattern calls for a place marker, place the marker in the last stitch you made and leave it in place as you continue to crochet unless you are instructed to move the marker to the next round. Stitch markers used to mark the beginnings or ends of rounds are automatically moved up.

## WORKING IN BACK LOOPS (BLO), FRONT LOOPS (FLO), AND BOTH LOOPS (TBL)

Unless otherwise indicated, work in both loops of a stitch except when the pattern instructs that a stitch should be worked in the back loop or front loop. The back loop will be the loop farthest from you, and the front loop is the loop closest to you.

If a pattern says, *In flo; sc 3, tbl; sc 5, in blo; sc 2. (10 sts)*, you would single crochet 3 in the front loops, single crochet 5 in both loops, and single crochet 2 in the back loops for 10 stitches total. (Fig. R)

## RIGHT SIDE (RS) VS. WRONG SIDE (WS)

When working in the round, you will want to keep track of which side of the pattern is the right side. It will affect which part of the stitch you'll perceive as the back loop versus the front loop. Generally, the 6" tail left over from forming the adjustable ring will lie on the wrong side of the piece. The same can be said for patterns started by working around a chain when the tail is kept at the back of your work during the first round.

## ADJUSTABLE RING

Use the adjustable ring technique to hide the hole that commonly appears in the middle of the starting round.

1. Form a ring with your yarn, leaving a 6" tail. Insert the hook into the loop as if you were making a slip knot. (Fig. S)
2. YO the hook and pull through the loop to make a slip stitch. (Fig. T)
3. Chain 1 and then single crochet over both strands of yarn that make up the edge of the adjustable ring until you

reach the number of stitches indicated in the pattern. To close the center of the ring, pull firmly on the yarn tail. (Fig. U—page 10)

To start the next round, work your next stitch in the first single crochet of the completed adjustable ring. If the pattern calls for a semicircle shape, you'll be instructed to chain 1 and turn the work so that the back of the piece faces you before you continue working the next row in your pattern.

### WORKING IN THE ROUND

Patterns in this book are worked in a continuous spiral in which you simply keep crocheting from one round to the next. To help you keep track of where your row begins and ends, use a split or locking ring to mark either the first or last stitch of your round.

### WORKING AROUND A CHAIN

A few patterns in this book begin by working around a chain of stitches. After creating your chain, you'll first work in the back ridge loops of the chain and then in the front loops of the chain. (Fig. V—page 10)

**1.** Make a chain per the pattern instructions. Starting in the second chain from the hook, work your first stitch in the back ridge loops of the chain and mark it with a split or locking ring. Continue working down the chain into the back ridge loops until you reach the last chain next to the slip knot. Work the indicated number of stitches into the back ridge loop of this last chain. (Fig. W—page 10)

**2.** When you're ready to begin the other side of the chain, rotate your work so the front loops of the chain are facing up. Starting in the second chain

from the slip knot, insert your hook under the 2 front loops of the chain to work your next stitch. (Fig. X)

**3.** Once you have finished working the rest of the stitches into the front loops of round 1, continue on to round 2 and work your next stitch into the marked first stitch of round 1. (Fig. Y)

## WORKING IN ROWS

For pattern pieces that are worked in rows, there will be a “turning” chain at the end of the finished row, which will be skipped over when you are ready to begin the next row.

## WORKING IN A CHAIN SPACE (CH SP)

Proceed with making your next stitch as you normally would, but in this instance, work your stitches into the space below the chain.

## CHANGING COLORS

Work the stitch prior to the color change up to the last step in which you would draw the yarn through the loop(s) on your hook to complete the stitch. To change colors, YO the hook with your new color and draw the new color through the remaining loop(s) on your hook to complete the stitch. You can then continue on to the next stitch in the new color.

For color changes at the beginning of a new row, complete the stitch in your previous row, and then introduce the new color as you chain 1 and turn. Continue to work with your new color for the next row. (Fig. Z)

For color changes that take place in a slip stitch, simply insert the hook into the old color stitch, YO with the new color, and draw the new color through the loop on your hook to complete your slip stitch and the color change.

# FINISHING TOUCHES

## LONG STITCH

Use this stitch to help shape the surface of your character. With your yarn and a metal tapestry needle, draw the yarn up through the surface of your piece and then reinsert the needle in a different location. Repeat if desired to double or triple up the yarn. To cinch the surface of your piece, pull the yarn firmly as you work. (Fig. Aa)

## RUNNING STITCH

Use this stitch to attach felt pieces or flattened crochet pieces to your work. With thread and a sewing needle, draw your thread in and out of the surface of your piece in a dashed line pattern. (Fig. Bb)

## BACK STITCH

Use this stitch to create line details on the surface of your piece. Begin by drawing the yarn up through the surface of your piece and then reinsert the needle at a second point. Next, draw your yarn up at a third point and then reinsert the needle at the second point. Continue to work in this manner to make a solid line of stitches. (Fig. Cc-page 12)

## OVERCAST STITCH

Use this stitch to create long curved stitches on the face for eyebrows and mouth shapes. Begin by drawing the yarn up through the surface of your piece and then reinsert the needle at a second point, leaving the yarn loose to achieve the desired level of curve. Choose a point along the curved long stitch and draw up the yarn at a third point. Reinsert at a fourth point to hold the shape of the long stitch in

Cc

place. Feel free to repeat if desired at other points along the long stitch if needed. (Fig. Dd)

### WHIP STITCH

Employ this stitch to close seams and attach open edges on your work. Using a tapestry needle and yarn, draw the needle and yarn through your work and catch the edge(s) of the second piece you wish to sew in place. Pull the yarn through the edge(s) before drawing the yarn through your work again in a spiral-like motion. Continue until the seam is closed or the piece is attached. (Fig. Ee)

Dd

### ADDING HAIR

Insert your hook through a surface stitch on your work and fold a 4" piece of yarn over the hook. Draw the yarn halfway through the surface stitch to create a small loop. Pull the loose ends of the yarn through this loop and pull tightly to secure it. For an even fuzzier look, use a steel tapestry needle to separate the yarn plys and trim as needed. (Fig. Ff)

Ee

### TWISTED CORD

Use this technique to make a tail. Cut a length of yarn at least 4 to 6 times longer than your finished cord will be. Holding the cut ends in one hand, take the folded end in your other hand and hook your finger into the loop. Spin and rotate your finger to twist the yarn. Continue to twist until the yarn doubles over on itself. Measure out the final length of cord needed and tie the folded and cut ends together in a square knot to secure the twist. Sew the knotted end to the back of the body and work in the yarn ends. (Fig. Gg and Hh)

## FELT PATCHES

The templates for the various patches used in this kit can be found on pages 86 and 87. You can use the templates with tracing paper, a photocopier, or a scanner.

If you prefer to glue your patches to your work instead of sewing with a needle and thread, consider picking up washable fabric glue.

# ASSEMBLY

1. To construct the umbrella, thread both yarn tails on the umbrella handle onto a tapestry needle and draw them up through the umbrella from the rnd 7 to rnd 1 so that the base of the handle is flush against rnd 7 of the umbrella. Tie a double square knot with the two yarn tails at the top of

D

the umbrella to make a point. Fasten off the yarn and work the tails in. (Fig. A–page 83)

**2.** Pin and sew the top and sides of the jacket to the back half of the body, taking care to keep the white collar free. (Fig. B–page 83)

**3.** Cut out 2 eyes from white felt and 2 pupils from black felt using templates. Assemble and glue or sew the eyes together before gluing or sewing the eyes to the front of the face (indicated by place marker). Stuff and sew the opening of the hat to the top of the head (taking care to leave the hat brim free). Cut a  $\frac{1}{4}$ "-wide strip of orange felt long enough to wrap around the hat and sew or glue in place. Using black yarn and a tapestry needle, apply short and long stitches to the face for the nose, mouth, and eyebrows. (Fig. C–page 83)

E

**4.** Sew the open ends of the fingers to the ends of the hands. Using the leftover black yarn tail, sew 3 short stitches on the back of the hands before fastening off the yarn and weaving in the ends.

**5.** Sew the open the end of the head to the open end of the body. Cut out 1 button from light pink felt using template and glue or sew to the front of the vest. Sew the arms to the body at the shoulders. Sew the umbrella to the inside of the fingers on Jiminy's left hand. (Fig. D)

F

**6.** With the larger end of the foot facing forward, sew the first rnd of the leg to the top of the foot at the ankle. Slip the yellow piece over the top of the leg and draw the ch-8 yellow strap under the foot to the other side of the yellow piece and sew in place. Weave in the yarn tail at the top of the yellow piece. (Fig. E)

**7.** Stuff the leg and sew the open end to the bottom of the body. (Fig. F)

## DEDICATION

---

*For Mitchell, whose memory inspires me to cherish the magical moments of life with my family everyday.*

## ACKNOWLEDGMENTS

---

A big thank you to Nicole and the folks over at becker&mayer! Book Producers for allowing me the opportunity to be a part of a brand that I have treasured since I was very little.

Thank you also to my yarn donors over at Knit Picks, Berroco, and Cascade for being so speedy and generous with their material donations for this book.

And thank you to my husband who puts up with the seemingly endless amount of yarn in our home and my children who have been kind enough to not hide, eat, trash, flush, sully, or unravel the various projects I happen to leave lying about.
