Welcome...

to *Classic Characters to Make*.

Within these glossy pages you will find irresistible pals to **knit**, **crochet** and **sew** for the little, and not-so-little ones in your life. We have loved working on this beautiful book, and have taken many trips down memory lane when

picking our favourite projects, from the gorgeous flower fairy (page 38), to a mystical unicorn toy (page 62). Plus, we have included a section dedicated to seasonal makes, where we hope that you will love our adorable Easter, Halloween and Christmas ideas as much as we do.

We've compiled more than **40 lovely keepsakes**, with easy-to-follow instructions. You'll find charming makes for boys and girls of every age, from a traditional teddy bear to a cute bunny rabbit and a cheery giraffe. Even more exciting, we have plenty of **inspiration** for what you can make with your kit – and, of course, these projects arrive with clear **step-by-steps** so you can get crafting straight away.

There are lots of exciting skills for you to practise too, so whether you are a seasoned crafter or just starting out, be sure to take a look at our **handy guides** from page 98. Jam-packed with illustrated instructions, they will highlight the essentials, and top up your knowledge to complete these companions, as well as enabling you to build on your existing craft skills for a **professional-looking finish**.

So, whether you plan to make these projects for your little ones, or as **bespoke gifts** (that's if you can bear to part with them), this collection is full of **wonderful makes** that are sure to be treasured for years to come.

Happy crafting,

Sarah

❑ Rnd 7-10: dc in each st to the end. 36 sts

Cut the yarn leaving a long tail and pull through loop to secure

Sew in place on the head then weave in and cut off any loose ends

To make the hair, cut lengths of yellow yarn 40cm long. Lay over the hair cap and sew down the centre parting securing the hair in place as you go.

Divide into two sections on either side of the head and plait each section.

Secure by tying pink yarn around the base of the plait and finish with a bow

TO FINISH

Use the beige yarn from your project kit to embroider the nose, working four to five long stitches in the same place between the eyes.

Use pink thread to sew a V in a long stitch to form the mouth. Weave in any loose ends at the back of your work and cut off.

Wrap some of the pink yarn around the waist of the dress and finish with a bow.

TO MAKE UP

Cut a piece of corrugated card to same size as two crocheted squares when placed side by side. Fold it in half. Glue

HOW TO
KNIT WISE

Both mice follow the same process to create. The only difference between the two is how you embroider the faces and where you position the head, arms and legs. Use the pictures as your reference and attach with a simple tack stitch so you can position them just where you want.

fabric to back of card. Sew crocheted squares together along one side and attach to front of covered card by sewing or glueing them down. Sew mice to crocheted backs, making sure position enables the card to stand with a 90° angle. Use yarns to embroider eyes and noses as shown.

"If you have enough yarn left over you could cover both sides of the bookend with crocheted squares."

HOW TO KNIT WISE

To create a magic ring, make a loop of yarn with the tail pointing downwards and going behind the working yarn. Insert the hook through the front of the loop, yoh and pull back through the middle of the round, make one ch. You are now ready to work the number of double crochets into the ring. When inserting the hook into the loop, make sure you work over both the edge of the ring and the tail. Pull the tail to close the ring

EYE CENTRE (MAKE TWO)

- ❑ Using 4mm needles and black DK, work as for Outer eye but only inc to five sts

TO MAKE UP

BODY AND HEAD

Sew Body and Head seam leaving base open to stuff. Stuff quite firmly. Do not close seam. Thread tapestry needle with yarn B and beginning at back seam, weave yarn in and out of every stitch at colour change. Draw up tightly to form head. Close remaining seam. Sew Top Knot to head, padding slightly with stuffing. Join Lower Beak to Upper Beak with Upper Beak overlapping at the front. Ease pieces to fit. Pin Upper Beak in a semi-circle on to face. Add stuffing and shape beak, pulling top section downwards to give a little point. Pin bottom section in place. Once you are happy with positioning, sew both beak pieces in place. Using black DK embroider two straight stitches on either side of beak, as shown on p49. Sew Eye Centre to Outer Eye and attach to either side of head. Using yarn D, embroider a line around black Eye Centre. Using white DK, sew two small lines on to Eye

Centre. Allow Twist to curl into a tube. Secure with a few stitches then fold Twist into a bow-shape and attach to back of Top Knot

WINGS

Pin Feathers to base wing, overlapping them as shown. When you are happy with the look, stitch each Feather at top point only, then catch each Feather together as you overlap them. Sew Wings to either side of body

FEET AND LEGS

Fold Foot in half and stitch side seams. Stuff lightly to give shape, then close base. Sew through from back of Foot to two points equally spaced on top of Foot. Pull firmly to create an indent for claws. Sew side seam of Leg, creating a little cup-shape. Stuff and attach to base of body. Stitch a Foot on to each Leg. Angle Feet outwards so parrot will stand upright

TAIL

Take Large tail feather and fold in half along eyelet row, sew side seam. Stuff lightly to give shape. Sew base together. Repeat with Small tail feather. Place small piece on top of large piece and join together at base. Attach completed tail to back of parrot

HOW TO — KNIT WISE —

TOP TOY TIPS: Remember these good pointers when knitting your toy:

- Keep your tension consistent – although exact tension isn't that important, you need your wing pieces to be the same size, or your parrot will be out of proportion
- Stuff evenly – tease the stuffing apart rather than using large clumps as this will give a smoother finish
- Don't overstuff – too much stuffing causes stitches to stretch and the filling will show through the fabric
- Pin before you sew – use long pins to try out the positioning of the feet, beak and wings before you start stitching. When you're happy, you can begin to sew, just remember to remove all the pins before giving your toy to a child

HOT TIP

Most parts are knitted individually and stitched together at the end - label them as you go

HOW TO KNIT WISE

The positioning of the eyes, and the shape of the mouth help to give a character personality – and decide whether it looks realistic or not. Eyes are usually positioned half way between the top of the forehead, and the bottom of the chin (depending on your character) – but the key is to make sure everything is level, and evenly stuffed.

HOT TIP

Be sure to stuff each part of the toy quite firmly and smooth out any lumps in the stuffing

❑ Beg with a k row, work ten rows in st st

Cast off

Roll tail lengthways into a cylinder shape and sew in place down seam. Take a few strands of yarn C and make into a fringe, sew to one end of tail

TO MAKE UP

Stuff body quite firmly getting a nice shape, and sew seam noting that it will run down back of toy. Take Head and sew seam which runs underneath. Push plenty of stuffing well into nose area to give a full rounded shape. Close seam at back of Head. Take a needle threaded with yarn B, run through every stitch on marked nose line, starting and ending at seam. Pull up quite firmly to give more shape to nose, fasten off. Embroider eyes, mouth and nostrils using picture as a guide. Sew Ears together in pairs. Pin in position and sew to Head on either side. Sew side seam of Horns. Stuff firmly, run

a thread around top part of horn just below increase row, draw up gently to form ball on top of Horn, secure. Sew horns to top of head. Sew head firmly to Body. Sew seam of leg, leave base open to stuff and sew foot base in place. Stuff Leg, shaping as you go, padding out knees with extra stuffing. Thread a needle with yarn A, run yarn through each stitch above and below increase and decrease rows on Legs to shape knee. Draw each piece of yarn up gently to shape knees, fasten off. Sew Foot base in place, adding a bit more stuffing if needed to give hoof a nice shape. Repeat with other three legs. Once completed, sew Legs on to Body at shoulders and each side of base of Body. Sew tail to back of Body. Sew Patches on in random places all over Body and Legs, then sew tail to base of Body. Thread a needle with yarn C and make mane on head as follows: starting between Horns on top of Head, sew into head to secure yarn, coil yarn two or three times around your finger, place coils onto Head and sew in place, continue to do this on Head and on back of neck - threading more yarn as needed.

HOW TO

— KNIT WISE —

TWIST AND PULL

Creating a twisted cord is very simple, but there are two things to remember:

- ❑ When finished, the thickness of the cord will be double the thickness of strands used
- ❑ The strands of yarn need to be approximately three times the desired length of the finished cord

To create a twisted cord, knot the strands together at each end. Secure one end (for example, around a door handle) and insert a knitting needle into the other end (in front of the knot), turn needle so it twists the strands until it's so tight it begins to kink. Remove needle, and holding ends firmly, bring both knotted ends together and allow cord to twist around itself. Smooth out any kinks by pulling on both ends, and secure by tying knotted ends together

TO MAKE UP BUMBLE BEE

Weave in ends. Place Back onto Front, positioning Wings on each side of the body. Piece and sew the base and side seams together. Sew facial features on to Flap using image as a guide. Sew the two Flap pieces together, adding a little stuffing for padding. Pin the flap centrally in place along top of Back piece. Sew neatly to secure. Roll ends of Antennae to form little balls, sew in place on either side of top flap. Make a twisted cord using yarn B (see Knitwise) and thread through eyelet holes at top, draw up and tie in a bow. Take straps and fold them in half lengthways. Sew together. Pin straps to top and bottom of main pieces on either side. Sew in place

LADYBIRD

Make up as for Benson, omitting Wings and facial features. Sew spots onto Front in random places. Sew on googly eyes and embroider mouth using photo as a guide

TO MAKE UP

Sew Beak seam closed using mattress st. Starting from Head of bird, gather cast-on sts then sew back seam down to tail end using matching yarns. Turn Beak on its side so seam is at bottom, then sew to centre front face. Affix safety eyes on either side of beak along blue stripe, leaving five sts between them. Firmly stuff Head and upper Body. Cont to sew underside of Tail and Lower Body, stuffing firmly as you sew. When you reach antique gold sts, fasten off turquoise and push more stuffing into gap if necessary. Gather cast-off sts to close seams. With straight side of each Wing lined up against back seam of main body, sew each Wing to back seam of body and around curved top edge. Mark sts where Legs will be inserted with two pins. Insert one black pipe cleaner through one marked st then

out through second marked st. Ensuring each Leg is 3cm in length, fold each pipe cleaner forward into an 'L' shape. * Take a separate pipe cleaner and wrap it around this 'L' shape to create three more claws (four claws in total). Twist one claw to back of foot. Wrap black yarn tightly around the leg and foot. Glue ends in place. Rep from * for second foot. Spray feet carefully with hairspray to keep yarn in place

"This chirpy little make is a great way to spend an afternoon and will also make

a fabulous present not only for bird watchers but anyone who is a fan of our feathered friends"

HOW TO

— KNIT WISE —

MAKING UP

When stuffing the doll, make sure you use just enough to keep her nice and squashy. Too much and she may become hard or lumpy, not enough and she could be too floppy. Try inserting the stuffing gradually, making sure it is distributed evenly. Remember, you can always add or remove a little more until you're satisfied.

TO MAKE UP

Sew seam down back of doll, leaving base open to stuff. Stuff Head, then semi-stuff Body. Beginning at back seam on marked neck row, weave yarn in and out of stitches from neck row, pull up tight to form head. Continue to stuff Body but do not close base. Take Arms and sew seam, stuff firmly and shape hand as you go, leaving enough fabric at top of arm to sew to body. Sew through one side of hand to form thumb. Sew Arms to body. Embroider facial features. Take Legs and in matching colours, sew sole and back seam. Stuff foot section, then rest of Leg. Sew body and legs together. Sew shoe straps in place around ankles, stitching ribbon rose on to front of each strap. To make hair, wind lengths of yarn around piece of card approx 30cm long. Lay bunches of yarn across head, sewing along centre line. Continue to lay bunches and sew in place until the Head is covered. Divide hair into 11 sections and plait, tying ends. Trim for even appearance. Sew top section of each plait to head, with no pink showing through. Slip bodice on to doll, stitch top of frilled pieces to shoulders. Place underskirt beneath overskirt, turn so that points alternate. Sew underskirt in place, slip on to doll. Stitch base of bodice to waist of skirt, thread ribbon around waist and tie in to bow. Place Wings on to back of doll, sew in place in centre of wings. Place Hat on to head, sew in place. Tie ribbon bow around base of alternate plaits. Place Choker around neck and sew at centre back, attach ribbon rose to centre front

HOW TO
— KNIT WISE

To work a cable cast on, make a slip knot 15cm from the end of the yarn. Holding the needle with the slip knot in your left hand and the other needle in your right, put the tip of the RH needle into the stitch on the LH needle. * Bring the yarn under and around the point of the RH needle and pull tight so it's wrapped around the tip. Bring the yarn on the tip of the RH needle through the stitch and towards you. Carefully pull until the loop is large enough to slip over the tip of the LH needle. Take the RH needle out of the loop and pull the end of yarn so the loop fits around the LH needle. To cast on other stitches, put the tip of the RH needle between the last two stitches. Repeat from * until you have enough stitches

HOW TO KNIT WISE

High tension: When working on a small scale, tension is not as important as it is when knitting a garment. However, it is important to create a firm fabric, especially if the item is to be filled with stuffing. If necessary – and especially if you often knit to a loose tension – you may need to use a smaller needle than the one stated in the pattern.

TO MAKE UP

Stuff Body and Head, sew a running stitch around neck and pull up slightly to tighten. Stitch side seam on muzzle using backstitch, turn right side out and stitch to front of head, adding a little stuffing before making last few stitches. Fold each ear in half, with right sides together and stitch side seams in backstitch, turn right sides out and stitch to head. Fold each arm and leg in half lengthways, with right sides facing, and stitch side seams; leave top open. Turn right sides out and stuff, then stitch openings closed. Stitch top of one Arm to shoulder on one side, taking the needle right through to the other side of the Body and through the top of the second arm. Do this, backwards and forwards, several times, then sew a button in place (if using) at the top of each arm. Do the same with the two legs. Embroider features using black yarn.

- ❑ Cut yarn and thread through all sts

HOW TO STITCH SCHOOL

- 1 Slip one stitch knitwise on to the right hand needle, then knit the next two stitches together.

- 2 With the tip of the left hand needle, pick up the stitch just slipped and bring it over the knitted stitch and off the needle.

TO MAKE UP

Place two body pieces of Crocodile together, with right sides facing, and stitch side seams, leaving head end open. Turn right sides out and stitch mouth piece to sides of head. Oversew edges of Mouth with white yarn, to represent teeth. Stitch Leg seams and stitch tops of Legs to crocodile's body. Pull up yarn tail on each eye and encourage each one into a ball shape, then stitch to head. Embroider features, using image as a guide.

TO MAKE UP ASSEMBLE FLOWER

Work in ends on base. Take the flower rings and arrange them over the yellow base. Put the three larger ones on the bottom and sides and the smaller ring at the top of the yellow base. Pin in place first and then stitch neatly to the base. Sew the Leaves in random places in between the petal rings. Embroider or make a face on the top of the base.

ASSEMBLE TORTOISE

Work in ends on base. Lightly stuff the Head, sew to the front of the base. Embroider eyes and a mouth onto the Head. Take a leg and add a tiny piece of stuffing to pad slightly. Using green yarn and a blunt ended needle, run the yarn around the top of the leg, draw up into a ball. Secure with a few stitches, then sew to base below the edging row. Do this three times more with the remaining legs. Sew the spots in random places onto the Base. Place the inside of the Tortoise into the inside of the Flower. You should be able to tuck the flower up inside the base of the tortoise to form its 'stuffing' and vice versa. Try this out before actually sewing the two pieces together. When you are confident it works alright, sew the last row of each base neatly together.

YOUR KIT!

OWLS ARE EVERYWHERE – ON JUMPERS, ON CARDS AND NOW, WITH THIS PROJECT ON YOUR SOFA. THIS KNITTED CUSHION WILL MAKE YOU THE ENVY OF ALL YOUR FRIENDS AND CAN BE MADE USING ONLY THE CONTENTS OF THE KIT, A TINY SCRAP OF BLACK YARN AND SOME TOY FILLING.

HOW TO KNIT WISE

The colour-changing technique involved for the front of the owl is intarsia. Unlike Fair Isle, this method does not involve carrying the yarn not in use. Therefore, a single thickness fabric is created

MAKE MRS FOX

1 Find the template on page 104. From an old grey jumper, cut out two body pieces, four leg pieces, four ear pieces and two tail pieces. From white wool fabric, cut two tail tips, two ear middles, two nose sections and one chest piece.

2 Pin the leg pieces together in pairs, machine stitch, turn out and stuff well with toy stuffing. Pin a white ear middle to an ear section and sew into place. With right sides facing, pin two ear sections together and machine stitch, turn the right way. Stuff lightly and repeat for the other ear.

3 Pin the chest piece to the front of the grey body and machine stitch around the shape. Using a chalk pencil, mark the ear positions onto the head as indicated on the pattern and pin the ears to the inside of the head with raw edges aligned. Pin the body pieces right sides together and machine stitch around the shape, leaving a gap at the base of the body. Turn out, then stuff until nicely rounded.

4 Pin the white tail tips to the grey tail sections and sew into place. With right sides facing, pin the tail section together, machine stitch and stuff. Make a 1cm hole in the back of the fox body as indicated on the pattern, insert the tail from the right side in, and sew it securely into place.

5 Insert the legs into the body, pin into place and hand sew using neat ladder stitches. With wrong sides facing, place the nose sections together and sew around the shape using ladder stitches, leaving a small gap. Stuff lightly and close. Sew the nose to the face and add black buttons for the nose and eyes. Embroider a mouth using black embroidery thread. If desired, rub pink blush onto the cheeks and ears.

running stitches across the longest edge. Pull the thread to create gathers, and press. With right sides and the gathers facing, pin the fabrics together and machine stitch.

2 Pin the gathered fabric to the template of the dress, keeping the pleats central to the pattern and match up the waistline of the dress as indicated on the pattern. Accurately cut out the dress shape and press the seams open. This will be the dress front.

3 To make the back of the dress, cut out 20cm x 32cm of floral fabric for the bodice and a further 19cm x 32cm for the skirt. Make gathers in the skirt as described in step 1. Pin the two longest edges together, machine stitch and press the seams open. Cut down the centre of the fabric vertically. Press down and machine stitch a 1cm hem on either side of the cut edge. With right sides facing, pin the two halves together and machine stitch 5cm down from the waistline of the dress, this will leave an opening at the back of the dress for the fox's tail to poke through.

HOT TIP

If Mrs Fox is for a small child, embroider features instead of using buttons and make sure all stitching is strong and secure

SEW A DRESS

1 Cut out 20cm x 32cm of floral cotton. Across the longest edge, fold over two 1cm pleats roughly in the centre of the fabric, press and pin to secure. Cut two strips of ric rac and machine stitch down the centre of the pleats. Cut a further 19cm x 32cm of printed fabric and sew

4 Pin the fabric to the template of the dress, matching up the waistline as indicated on the pattern, and cut out. With right sides facing, pin the dress sections together and machine stitch. Press the side seams open. Cut two thin strips of hook and loop tape and sew to the opening at the top of the dress. At the base of the dress, fold over 1cm at both edges and machine stitch into place.

5 Fold over the raw edges at the armholes and neckline and secure with running stitches. Cut out four collar sections (two reversed) and sew them together in pairs with right sides facing, leaving a gap for turning. Turn the right way, press and sew up the gap. Pin the collar pieces to the neckline and hand sew into place.

6 Mark out the positions for the buttons on the front of the dress bodice and sew on with coordinating thread. Turn up a double hem at the base of the dress, press and sew with neat whip-stitches. Add ric rac to the bottom of the hem.

CREATE A JACKET

1 Cut off the sleeves from an old orange jumper and open them up. Pin the templates for the jacket to the knitted fabric and cut out one back and two front pieces. Cut two 6.5cm x 12cm pieces for the jacket sleeves. With right sides facing, pin the sleeves in half lengthways and machine stitch down the long edge.

2 Embroider a decorative pattern using either a sewing machine or by hand, across the front and back jacket pieces, making sure they line up. With right sides facing, pin the jacket fronts to the jacket back and machine stitch.

3 Pin the sleeves into the armholes and machine stitch into place. Fold over and sew down a 5mm hem at each raw edge on the front of the jacket. Cut a 2cm wide strip from the cuffs of the jumper sleeves and hand sew around the neckline and cuffs of the jacket. Using pinking shears, cut a 1cm wide strip of pink felt and sew to the bottom of the jacket. Add a snap fastener to the neck and cover with a vintage button.

HOT TIP

Use scrap fabrics for this project or look for old jumpers in charity shops and car boot sales to give your toy a vintage vibe

SEW A PLUSH

1 Using the template from page 104, cut two green body gusset pieces, then sew together on the long edge, from the neck to the crotch. Cut two pink body pieces and match up each side to the gusset at the toes, thighs and tummy. Pin and stitch.

2 Pin the remaining raw edges together and sew, leaving a 5cm gap down the back. Clip all curves and corners, then turn out. Stuff firmly using a knitting needle to pack out the toes and nose.

3 When fully stuffed, fold in the raw edges of the gap and oversew with small stitches. Sculpt the body by stitching, from navel to lower back several times, using a long needle and pulling the thread fairly taut.

4 Cut two arms from pink and two from green, pin together and sew around them, leaving a 3cm gap above the elbows. Clip the curves, turn out and stuff. Oversew the gap closed. Pin the arms to either side of the body and secure with a button joint; pass thread right through buttons, arms and body, then back again several times. Secure the thread under one arm.

5 Cut two ears from green and two from pink. Pair them up and sew around the curved edges leaving the flat bottom unsewn. Trim the excess fabric and turn out, then press. Fold in the raw edges, then use a running stitch to gather them slightly and oversew to either side of the head.

6 Use embroidery thread to sew a button to each side of the face for eyes. Add whiskers and a satin stitched nose, then sew two 40cm lengths of embroidery thread through the base of the back and knot to leave four 20cm lengths. Twist together and knot to make a tail.

GET SMITTEN WITH THIS MYSTICAL UNICORN MADE FROM GREEN-HUED PRINTS. SIMPLE SHAPES HAVE BEEN STITCHED TOGETHER AND STUFFED TO CREATE A STURDY YET SOFT FINISHED RESULT. WITH FELT AND RIC RAC HOOVES PLUS A CUTE HORN IT'S THE PERFECT PLUSH FRIEND TO ADD A TOUCH OF MAGIC TO A CHILD'S ROOM.

UNICORN

1 Head to page 104 to find the template. Trace the shapes onto thin card and cut out. Draw around the main pieces onto the reverse of Familiar Roots Birch fabric and cut out, adding a 5mm seam allowance. The drawn lines will act as guidelines for sewing. Cut the unicorn's head gusset, body gusset and inner ears from Traces of Stillwater fabric.

2 Fold under 5mm at the end of each leg on the main body and gusset pieces, then tack. This will enable you to stitch the hooves in place easily later on. Stitch each unicorn head piece to the corresponding neck section of the main body, matching up points E and F. Tack in place and sew back stitch by hand for a smooth curve. Press the seam to the concave side and topstitch 2mm from the seam line to accentuate the curve of the unicorn's cheek.

3 Stitch the two body gusset pieces' right sides together from A to D. Open out and press before joining the tip of the head gusset to the tip of the body gusset at point A by sewing across them, 5mm from the point. This ensures a neat finish on the chest of the unicorn.

4 Sew each body piece to either side of the body gusset, right sides together, but do not stitch across the base of the feet. Pin, tack and stitch the

TEMPLATE

DESIGNER, CORINNE BRADD

head gusset up the chest and around the unicorn's face, finishing at point B. Pin, tack and stitch the back gusset to the rear of the body pieces, right sides together, matching up points C and D. Sew around the remaining area of the head and back, leaving an 8cm long gap along the neck for turning.

5 Clip the curved seams and corners before turning out. Stuff the legs first with a knitting needle or similar, pushing small pieces of filling up the leg through the holes at the hoof end. Stuff back down into the legs through the gap in the neck. Keep adding filling through both gaps to make it well-compressed. This will keep the legs straight and allow the unicorn to stand up.

6 Firmly stuff the rest of the unicorn's body, using small pieces of filling at a time to prevent lumps and bumps forming under the fabric and spoiling the lines of the unicorn. Once stuffed, fold in the raw edges of the gap and slip stitch closed.

7 Cut four 3cm long ovals and four 1.5cm x 10cm rectangles from felt for the hooves. Wrap a rectangle around the base of a leg, making sure the edge lines up with the folded edge of the fabric. Oversew the seam at the back of the leg with matching cotton. Place an oval felt piece on top and oversew the three layers of felt and folded fabric together. Wrap a 10cm length of ric rac around the top of the felt rectangle and stitch in place through all the layers. Repeat for the other legs.

8 Cut 16cm x 30cm from white cotton. Sew a straight line or small stitches on one long side, 1cm from the edge. Clip into the other edge with sharp scissors, making notches every 1cm. Tear from each notch down to the sewn line to make a long, raggy fringe. Take the uncut edge of the sheeting and coil it around a knitting needle to make a tassel. Secure with a few stitches before oversewing the top of the tassel to the rump of the unicorn.

9 Cut four 8cm x 20cm pieces of sheeting. Stack them together and sew down one long side, 5mm from the edge. Snip the opposite edge of the fabric pieces as before and tear down to the sewn line to make the mane. Flatten the seam allowance and oversew each side to the seam, starting midway between points B and E and finishing at the base of the neck.

10 Take the four ear pieces and sew into pairs, right sides together. Turn out and fold in 5mm along the raw edge, then tack. Pin the ears to the side of the head, in line with the cheek seam, adding a tuck to the inside of the ear to give it shape. Oversew in place with tiny stitches.

11 Sew a 2cm button to either side of the head, passing the thread right through the middle of the stuffed shape from one button to the other, using a long needle and keeping the thread taut so the eyes are slightly indented. Repeat this process at the nose of the unicorn without using buttons to create nostrils.

12 Cut a long triangle from felt, 10cm high x 6cm across the base. Fold in half and oversew down the long seam. Firmly stuff the resulting cone with filling. Take a length of ric rac and stitch it around the cone in a spiral, starting from the tip and working down evenly. Tuck the raw end of the ric rac inside the cone before oversewing to the unicorn's brow, just below the forelock.

HOT TIP

Consider making 'V' shaped wire armatures to fit into the legs to make them poseable, but ensure the unicorn is not intended for a small child if you do so.

GIRAFFE

1 Go to page 104 to find your template. Cut out eight legs and two bodies from striped fabric, and eight feet and two noses from calico. Pin each foot to a leg piece and machine stitch together with right sides facing. Pin a nose piece to the head section of each body and sew in place.

2 Pair up each leg piece and press the seams open. Pin and stitch each pair together with right sides facing, matching the seams and leaving the top open. Snip the curves, turn out and press. Stuff all four legs until firm. Slip stitch the opening together and sew a button on at the top of the leg.

3 Cut out a mane from orange felt. Snip down the edge of one side at regular intervals. Using the template as a guide, mark the position of the eyes on the head. Work a French knot for each in purple embroidery thread. Place the mane down the back of the giraffe's neck, facing inwards, using a little fabric glue to hold it in place if you wish.

4 Match the nose seams and pin the body right sides together. Stitch around the edge leaving a 10cm gap along the bottom for turning. Snip and trim the curves, then turn through and press. Using the template as a guide, sew the legs into position, stitching through the buttons. The legs need to be able to move, so three stitches should be enough. Stuff the body until firm, then sew up the opening.

5 Cut out two ear inners, one tail inner and four ossicones from orange felt, and two ears and one tail from pale green. Sew a French knot in green thread in the centre of two of the ossicones. Glue another ossicone to the back of each one. Work blanket stitch around the edges, also in green.

6 Glue the ear inners onto the ears and the tail inner onto the tail. Work blanket stitch around each inner piece in green thread. Sew the ears, ossicones and tail into place, making sure they're secure.

MAKE A CUSHION

1 Cut a 20cm square of cream linen and another of lightweight fusible interfacing. Iron the interfacing onto the back of the linen. Using the template provided, draw all the giraffe pieces onto fusible webbing and cut out. Iron the body and legs onto a piece of striped fabric and the nose and feet onto calico. Cut out.

2 Cut one mane out of orange felt and snip down one side. Position the nose and body on the linen square and place the mane under the neck so the fringing peeks out. Iron to adhere into place. Work narrow zig zag stitch all around the edge. Position the feet and legs, iron to adhere, then zig zag around the edges.

3 Cut out both ossicone shapes and one inner ear in orange felt, and one outer ear and one tail in pale green. Stick the inner ear on top of the outer, then work a French knot in the centre of each ossicone with green thread. Glue all the parts into place and over sew around the edges with coordinating thread. You could embroider these instead if preferred. Stitch a French knot in purple embroidery thread for the eye and sew on a small button at the top of each leg.

4 Cut a 22cm square of striped fabric. Cut out an 18cm square of calico and back with fusible webbing. Iron this onto the centre of the striped square, then work zig zag stitch around the edge. Cut a 17cm square of fusible webbing and iron onto the reverse side of the linen square, making sure the giraffe is central. Cut out and iron onto the calico square. Work zig zag stitch around the edge of this too, then finish with a purple French knot at each corner.

5 Cut two pieces of striped fabric measuring 15cm x 22cm and 17cm x 22cm. Hem one long edge of each piece and press. With right sides facing, place the largest rectangle on top of the giraffe square, lining up the bottom edges and keeping the hem at the top. Place the other rectangle to line up with the top edge, hem at the bottom. Pin and stitch around the cushion leaving the envelope opening, snip the corners, turn out and press.

6 Make a cushion pad by cutting two 20cm squares of calico. Pin together and machine stitch around the edges, leaving an 8cm gap for turning. Snip the corners and turn out. Fill with wadding and sew up the gap.

HOT TIP

When stuffing, use small pieces rather than large clumps so it's easier to get into small corners. Try using a wooden spoon handle to help.

TEMPLATE

CAT

1 Find the templates on page 104.

1 Cut out 12cm x 14cm of tweed and 6cm x 14cm of striped fabric, with the stripes running horizontally. Pin together along one long edge with right sides facing and join with a 1cm seam. Press the seam allowance downwards, towards the striped fabric. Cut out two leg shapes, positioning the line marked on the pattern along the seam line.

2 Fold one leg in half lengthways with right sides facing inwards. Pin and tack the edges together, then machine stitch with a 6mm seam allowance. Trim the seam back to 3mm and turn right side out. Stuff firmly. Make the other leg in the same way.

3 Cut 12cm x 25cm of tweed and 8cm x 25cm of striped fabric. Join together as before and cut out two bodies, again matching up the seam line. Pin the two bodies together with right sides facing and stitch both edges together with a 6mm seam, between points A and B. Clip the curves, press back the seam allowance at the bottom gap and turn right side out. Slip the top of the legs into the gap, pin in place and stab stitch securely through all the layers to keep them in place. Stuff the body firmly.

4 Cut out one arm shape from tweed (this will be the tail) and make it up in the same way as the legs. Sew in place. Cut out two more arm shapes from striped fabric. Fold in half with right sides facing and join the edges with a 6mm seam. Trim the allowance back to 3mm, turn right side out and stuff. Gather up the top edges, pushing the raw edges inside. Sew to the body, on the seam line, at the points marked C.

5 Cut two ears from tweed and two from floral print. Pin together in pairs with the right side of the floral fabric inwards, and stitch the diagonal edges with a 6mm seam. Clip a small triangle from the point and turn right side out.

6 Cut two head pieces from tweed. Position the ears upside down on one head piece, between points B and C with raw edges aligned and tack in place. Layer the other head piece on top. Pin and stitch them together with a 6mm seam, leaving a gap where marked. Press back the seam allowance on either side of the gap then turn the head right side out. Stuff well and pin over the open neck edge. Hand stitch it in place securely.

7 Sew on two buttons for the eyes or embroider if giving to a small child. Create the nose using satin stitch and the mouth in straight stitch using six strands of thread.

8 To make a skirt, cut a 20cm square of floral fabric and fold it into quarters. Pin the template through all four layers and cut out. Sew lace trim around the hem then slip it over the body. Pull the skirt down so the waist sits around the seam line of the body and stitch. Sew a length of striped ribbon over the top to hide the raw edges. Cut the remaining ribbon into three equal pieces and fold each one into a loop. Stack them together to make a corsage and hand stitch at the centre. Sew a button to the middle and secure onto the waistband.

"This doll would be perfect for a little girl. Why not make a tutu and add ribbons to the pink feet to turn it into a ballerina cat?"

DESIGNER, LUCINDA GANDERTON

HOT TIP

Use safety eyes or embroider them on if giving the cat to a small child.

CREATE AN ADORABLE FOUR-LEGGED FRIEND WITH JANE KHARADE'S SCOTTIE DOG

TARTAN IS A LUXURIOUS FABRIC THAT NOW COMES IN A HUGE RANGE OF COLOURS AND PATTERNS. THE FIRST TARTANS WERE WOVEN IN SIMPLE COLOURWAYS ACCORDING TO THE NATURAL DYES AVAILABLE IN THE DISTRICT WHERE IT WAS MADE. TARTAN OFTEN DENOTED THE CLAN OR FAMILY THAT SOMEONE BELONGED TO, AND MANY DIFFERENT TYPES DEVELOPED INCLUDING BOTH DRESS AND HUNTING VERSIONS. THIS TRADITIONAL MATERIAL ADDS A CLASSIC LOOK TO THIS CUTE PLUSH SCOTTIE DOG, PAIRED WITH DISTINCTIVE BLUE EYES AND A FANCY COLLAR.

TEMPLATE

ESSENTIALS

Fabric: tartan, 50cm

Thread: navy blue, strong; tacking, light-coloured

Safety eyes, blue, 1.4cm

Toy stuffing

Trim, diamanté effect, 50cm

Tailor's chalk

Craft knife

DIMENSIONS:

26cm x 30cm

MAKE A SCOTTIE DOG

- 1 Find your template on page 104. Fold 50cm of tartan fabric in half and lay the Scottie dog template on it. Use tailor's chalk to add a 1.5cm seam allowance and carefully cut out the dog shape so that you have two pieces.
- 2 Position an eye on the wrong side of one piece of the fabric. Lift the dog's head away slightly and make a small hole with a craft knife, insert the safety eye and attach the back securely. Then feel for the stem of the eye on the other piece of fabric. Where it rests, make a hole in the tartan, insert the eye and push on the safety back making sure both backs sit snug against the eyes.
- 3 Using light coloured thread, tack the two pieces of the dog together right sides facing, leaving a small section at the foot unstitched to insert stuffing. Machine stitch using strong matching thread, again leaving an unstitched section.
- 4 Turn right side out, and stuff generously with toy stuffing so it becomes rigid. A wooden spoon can be used to push the stuffing into the corners. Use whip stitches to sew up the gap by hand.
- 5 Cut diamanté trim or similar to fit around the neck comfortably. Use small stitches to sew the collar to the fabric to complete.

HOT TIP

Using lots of stuffing will make the Scottie dog lovely and plush. As the seams take on extra stress, a strong thread is needed

"I've added a diamanté effect trim for the collar. As an alternative, try a studded leather cuff, a real dog's collar, a broad satin ribbon, or even an interesting piece of costume jewellery"

LOVERS

CAT CUSHION

- 1 Go to page 104 for the template section. Transfer to a piece of fabric measuring at least 20cm x 30cm, and place in an embroidery hoop. Using two strands of embroidery thread throughout and working away from the edge, begin by sewing around the whole outline of the cat in running stitch, using orange thread.
- 2 Continue with the face, outlining the lower edge in running stitch, using

orange thread, then fill in the triangular nose in satin stitch, using black. Use back stitch for the whiskers and mouth, and work French knots for the dots, also in black. Fill in the ear centres in satin stitch, using yellow, then outline these with several rows of running stitch in different colours, following the triangular shape.

- 3 Using the remaining lines of the design as guidelines, experiment with your choice of colours to add decorative detail to the cat including a

tail. Use the photograph as a guide: all the stitches used are variants of running stitch, sewn in straight lines, curves, circles, spirals and zig zags, with straight stitches radiating out from some of the circles. Then sew two buttons in place as eyes.

- 4 When the embroidery is finished, remove from the hoop and press the work lightly on the reverse. Then pin it, wrong side up, to another piece of the same fabric and cut out, going through both thicknesses, 1.5cm

outside the running stitch outline.

- 5 Stitch the two pieces together with a 1.2cm seam, leaving a gap of 5cm in one of the straight sides for turning. Snip into the seam allowance on all the curved edges, taking care not to cut through the stitching, then turn right side out. Fill the cushion with stuffing, then turn in the seam allowance on the open edges and sew closed using slip stitch.

CUTTING GUIDE:

From fun fur:

1 pair of the lower head and back head

1 of the top head

1 pair of the front and back body

2 pairs of the teddy arms and legs

2 pairs of ears

From the brown felt:

1 pair of soles

1 pair of hand pads

over the two with hand pads and stitch around leaving a 3cm opening. Turn the arms to the right side through the gaps.

4 Stitch the front and centre-back body seams together, leaving a 3cm gap in the centre-back seam. Match the front and back bodies together. Stitch from the neck edge, down the side and across the base matching the centre front and back seams together, then back up to the opposite side of the neck. Divide the ear pieces into pairs and pin, then stitch around the edges and turn out.

TO MAKE THE HEAD

1 Match the centre-back seam of the back head together with the right sides of the fur fabric facing and stitch together. Join the centre-front of the lower head together and stitch from the nose to the neck edge. Line up the nose of the top head to the nose of the lower

head, then pin and match the remainder of the seam together. Stitch into place.

2 Position the ears at either side of the outer edge of the top head. Place the back head over the front head, matching the top of the centre back seam with the centre notch on the top head and sandwiching the ears between the two edges; pin, then stitch around the seam. Turn the head to the right side. Make a small hole in the seam and attach the eyes and nose as indicated on the pattern; the head can now be stuffed with the filler.

LEGS AND ARMS

1 Make a small hole on the top of the inner leg and the base of the side seam, then attach with the plastic hinge pieces. Repeat the process for the arms. For ease, this can all be accessed through the gaps left in the centre-back

seam and the arms and legs.

2 Carefully stuff the arms and legs, closing the gaps with hand slip-stitch. Now stuff the body and close the gap in the centre-back seam. Hand stitch to the neck of the body; place the head over the neck, then turn under the raw edges of the fur and stitch into place. Finish with a length of ribbon tied around teddy's neck.

STITCH CLEVER

Fur fabric is great for soft toys as it has a light stretch making the toy plump and rounded, with the added benefit that any hand stitching disappears into the pile

TEDDY BODY PIECES

1 Find the template from page 104. With the right sides of the fur fabric facing, stitch two pairs of legs together from the front base, then up and around the top and down the back of the leg to the base. Leave a 3cm gap in the back of the leg and use a 3mm seam allowance.

2 Clip the seam allowance around the top of the foot. Match the notch in the soles of the feet to the front and back seams in the base of the legs, then pin and stitch the soles into place. Turn the legs to the right side through the gap in the backs of the legs.

3 Match the notches in the hand pads to the right sides of the end of the two of the arm pieces; stitch across the felt pads, then fold them back to fall in line with the ends of the arms. Position and pin the two remaining arm pieces

HOT TIP

To help distribute the stuffing evenly, push a pin through from the right side of the body and use it to move it into place

HOW TO
— KNIT CLEVER —

To make a loop, knit into the next stitch, but do not allow the stitch to fall off the needle. Bring the working yarn to the front between your needles. Place your thumb on the working yarn and wrap the yarn around and over the top of your thumb, and back between the two needles. Keeping the yarn wrapped around your thumb, knit into the same stitch again. Allow this stitch to fall off the needle, and the loop to fall off your thumb. Insert the left needle into the front of the two stitches on the right needle, and knit them together. See Amanda's photo tutorial at tinyurl.com/loopknitting

"If you want your sheep to look shaggy, cut through the ends of the loop to create a different look. To make him look more awake, change the eyes and add stuffing to his legs"

TO MAKE UP

Work as for Mama Bird To Make Up from * to *. Cut six 10cm lengths of white and thread from one side of head

HOW TO — KNIT WISE —

Satin stitch is an effective option for your bird's beak and involves a simple series of flat stitches. Start with a long piece of yarn and work straight stitches across the area, inserting your needle next to the exit point of the last stitch so they are as close together as possible, taking care to keep them smooth

to the other, above eyes. Leave a long tail on either side. Knot the tails close to head and trim to leave 1cm on either side for ear tufts

TO MAKE UP

Sew back seam, leaving base open.

Stuff firmly then close base. Trim each end of straw so straight pieces either side of bendy section are same length as knitted arms. Insert straw through

eyelet row, positioning bendy section in centre of body and straight pieces protruding from each side.

Stitch cast-on and cast-off edges of each Arm together to form a tube.

Slip tube on to end of straw, sewing top of Arm to eyelet hole. Repeat for other Arm. Attach hands. Use black DK to embroider face.

HOW TO STITCH SCHOOL TECHNIQUE: K2TOG

1 Insert the right needle into the front loops of next two stitches on the left needle. Then wrap the yarn anticlockwise around the tip and knit both stitches at the same time.

TO MAKE UP

Sew seam of Head and Body, leaving base open to stuff. Stuff Head section, then semi-stuff Body. Beginning at back seam on marked neck row, weave yarn in and out of every stitch, then pull up tight to form head. Stuff Body but do not close base. Sew Arm seams, stuff and shape before closing. Attach Arms at shoulders. Sew Leg and Foot seams. Stuff and shape before closing. Insert Legs inside base of Body. Pin in place, sew through Body and Legs at same time to attach them firmly. Curl Nose into a neat ball shape, stitch on

underside. Sew to front of Head. Sew on black buttons for eyes. Using yarn C, embroider eyebrows. Tease out strands to give a wispy look. Pin beard in place around front of Head underneath Nose, taking side pieces up either side of Head. Sew in place. Sew Moustache in place. Let ends flow over Beard. Sew hair in place at back of Head, stretching to fit neatly if needed. Sew side and sleeve seams of gown. Slip on to wizard. Sew seams on Shoes. Stretch point of each Shoe into shape. Place on Feet and catch at back of heel to keep in place. Sew seam of Hat. Place on

Head. Sew in place. Decorate Hat, Shoes and Gown with celestial buttons. Take dowel and wind silver ribbon around it. Glue in place at top and bottom. Drill a tiny hole in the top of dowel, thread yarn B through and attach to hand.

HOT TIP

Use a blunt ended needle to tease out strands of hair, beard and moustache to give a wispy look

HOW TO
— KNIT WISE —

BABY-PROOF YOUR TOY!

However adorable our elf might be, a few of his details aren't quite suitable for babies and toddlers – but why should they miss out on this Christmas cutie? Swap his beaded eyes for embroidered features, and instead of sewing the bells to the outside of his shoes – why not stuff them inside his shoes? Although he might be missing the visual aspect of the bells, he will still be interactive, and incredibly fun.

"This elf is a cute Christmas project who would make a lovely stocking filler, and a great way of using up festive-coloured oddments of yarn."

TO MAKE UP

Weave in all ends. Sew centre back seam of head and body using mattress stitch. Attach toy eyes in positions as shown. Stuff head firmly. Using yarn left at top of nose, sew running stitches all around edge of nose piece. Place small amount of stuffing in centre of wrong side of nose, draw up thread to form a ball. Sew nose to Bernard's face in position as shown. Turn one ear over to make a mirrored pair then sew each to side of Bernard's head in positions using image as a guide, leaving top points free. Embroider a mouth using pink embroidery thread.

Using yarn A, sew running stitches around neck at narrowest part, draw up then fasten off securely. Stuff body firmly.

Fold each leg with right sides together and sew heel, sole and toe seam of each shoe. Turn right side out making sure to push full length of toe out. Sew centre back seam of each leg using mattress stitch and matching stripes. Stuff leg and shoe,

but not toe, firmly. Over-sew top edges of each leg. Place top of legs in bottom edge of body and sew through all layers to secure legs and make sure they can hinge at body.

Sew arm seam, stuff firmly then sew shaped section at top of arm over shoulder shapings. Sew centre back seam of Tunic. Place on toy so that bottom edge of Tunic skirt falls in third stripe down on legs. Sew top edge to body all around, using black yarn and duplicate stitch. Using an oddment of Gold yarn, sew straight stitches over belt at centre front to form belt buckle. Turn collar over so wrong side is uppermost. Weave in all ends. Place collar on Bernard's neck, sew centre back seam. Sew loops of yarn G around Bernard's hairline and in front of and behind ears. Sew centre back seam of hat and sew bell to point. Place hat on Bernard's head over hair and sew in place all the way round. Sew a bell to end of toe on each shoe, encouraging toe to curl upwards.

IT'S CHRISTMAS NIGHT AND ALL THROUGH THE HOUSE, THE ONLY THING STIRRING IS **ELLEN KHARADE'S** FESTIVE MOUSE

THIS CUTE MOUSE WOULD MAKE AN ADORABLE COMPANION AT CHRISTMAS. COMPLETE WITH HIS FESTIVE STOCKING, HE IS READY AND WAITING FOR THE BIG DAY. THE MOUSE IS SIMPLE TO SEW, COMPRISING OF JUST ONE PIECE FOR THE HEAD AND ONE FOR THE BODY, PLUS TWO PIECES OF RECYCLED KNITWEAR FOR HIS TANK TOP.

HOT TIP

Wool fabric off the bolt can be a bit pricey. For a more economical version, felt an old white woollen jumper or blanket in the washing machine.

STITCH A MOUSE

1 Find the templates from page 104 and cut out. Pin the pieces for the head and body onto white wool felt fabric and cut out one of each. Pin the templates for the arms, legs and ears to the white felt and cut out four of each shape. Cut out two pieces for the tail. For the hands and feet, cut out two of each shape from pink felt.

2 With right sides facing, place two arm pieces together and sandwich a hand in between facing inwards. Pin all of the pieces together and machine stitch around three sides, leaving the end without the

hand open. Turn the right way and stuff evenly with fibre filling. Make the remaining arm and the two legs in the same way and put to one side.

3 Sew the darts into the body section and using embroidery scissors, cut out the holes for the arms as indicated on the pattern. Turn the body section to the wrong side and push an arm through the hole from the right side. Line up the raw edges of the arm seams with the darts and pin into position, then hand sew into place using strong doll making thread. Sew the other arm into place in the same way. With

right sides facing, pin the back seam together, leaving an 8cm gap in the centre for turning and machine stitch into place.

4 Sew the dart into the head section as indicated on the pattern. With right sides facing, fold the head into a cone, pin the straight edges together and machine stitch into place. Sew the dart into one of the ear sections as indicated on the pattern. With right sides facing, place the two ear pieces together, pin and machine stitch. Turn the ear the right way. Dab a soft cloth into a pale pink ink pad and gently rub the

knotting securely between each one as you do so. Pin and machine stitch the tail sections together, turn the right way and stuff with fibre filling. Cut out a small hole for the tail as indicated on the pattern and hand sew into place as for the arms and the legs.

7 Using black embroidery thread, sew on the nose, mouth and two black buttons for eyes, as shown. Stuff the head and body with fibre filling until well rounded then sew up the gap with neat ladder stitches. Apply a little pink colour from the ink pad to the nose and cheeks of the mouse.

SEW A TANK TOP

1 Pin the pattern for the tank top back and front onto a recycled felted jumper and cut out the pieces. With right sides facing, pin them together and machine stitch, leaving a gap at the armholes. Turn under the raw edges at the armholes and sew with back stitches. Cut off a 5cm wide strip of ribbing from the base of the recycled jumper and hand sew to the neck of the tank top. Fold the cut edge over to the wrong side and hand sew into place. Stitch a strip of red ric rac to the base of the tank top. Embroider star stitches in red and white on the back and front to finish.

MAKE A STOCKING

1 Pin the template for the stocking onto red felt and cut out two pieces. Cut a 3cm square of white felt and sew to the front of the stocking using blanket stitch and black embroidery thread. Add strips of white and green ric rac and ribbon to decorate, plus sew in a loop for hanging. Stitch red and white buttons into place, as shown. Turn over 1.5cm at the top of the stocking and stitch on a row of flower braid to decorate. Place the stocking pieces together and machine stitch around the shape, then stuff.

pigment over the ear until it is lightly coloured. Stuff evenly with the fibre filling and make a second ear in the same way.

5 With right sides facing, pin the head to the body. Pin the ears into position as indicated on the pattern, making sure that they are facing inwards and machine stitch. Pin the crotch together and machine stitch. Pin the legs into the leg holes and hand sew into place as for the arms.

6 Thread a darning needle with brown wool for the hair and make a few loops between the ears,

DECK THE HALLS WITH AMANDA BERRY'S KNITTED GNOME

SPREAD THE FESTIVE JOY AND WHIP UP THIS CUTE LITTLE MAKE TODAY. USING SIMPLE STITCHES, THIS ADORABLE TOY-MAKING PROJECT IS ALSO A GREAT WAY TO CELEBRATE AT YULETIDE. DIG OUT YOUR EYELASH YARN, AS IT IS PERFECT FOR MAKING A FLUFFY BEARD AND IF YOU HAVE ENOUGH, YOU COULD KNIT HIM SOME EXTRA BEARDED GNOMEY COMPANIONS.

HOW TO

— KNIT WISE —

To work a 'kfb' increase, knit into the front of the next stitch but don't slip it off the left-hand needle. Put the tip of the right-hand needle into the back of the same stitch on the left-hand needle. Wrap the yarn around the right-hand needle and bring the needle and yarn wrapped round it through the stitch. Slip the original stitch off the left-hand needle

TO MAKE UP

Sew a running st around outside of Nose piece, pull sts to gather and make a small ball. Stuff lightly and close. Join first cast-on st of Ear to last cast-on st, so cast-on edge forms outside of circular Ear. Rep with second Ear. Sew side edge of Head and Body tog, stuff (do not add too much stuffing to hat so it can bend over at top), close bottom by gathering sts tog. Using cream sew a running stitch around neck where green meets cream. Pull to gather neck in a little and secure. Sew Nose to front of face in centre of cream band. Sew an Ear on either side. Make eyes by sewing two small black beads to two white circles of felt. Sew these above Nose. Sew bell to top of hat. Sew short ends of Beard to Head in front of Ears. Sew in place under Nose. For the hair, using 4mm hook and white, work ch st around bottom of hat. Tease out some strands to create bushy hair. Trim strands to leave eyes clear. Sew side seam of Arms, stuff hands, sew top of Arms to top of Body. Sew seams of Legs, stuff feet, sew top of feet closed. Sew tops of Legs to bottom of Body

“My top hint for working with eyelash yarn is to knit loose stitches so you don't get in a muddle with all the strands.”

STITCH SCHOOL

Use our handy illustrations to get started with **knitting and crochet**

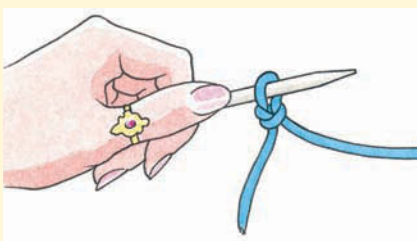

YOU MAY BE A TOTAL NOVICE, OR YOU MIGHT BE PICKING UP YOUR NEEDLES AND HOOKS AFTER A PERIOD AWAY FROM KNITTING AND CROCHET, SO IF YOU'RE FEELING A LITTLE OVERWHELMED OR NEED TO REFRESH YOUR MEMORY, THEN THIS IS JUST THE GUIDE YOU NEED! READ OUR STEP-BY-STEP ILLUSTRATIONS FOR THE BASIC STITCHES, AND REFER BACK TO OUR HANDY ABBREVIATIONS PANEL. WE'VE TRIED TO COVER EVERY EVENTUALITY, EITHER HERE OR WITHIN THE PROJECTS THEMSELVES, SO YOU'LL BE AN EXPERT IN NO TIME

SLIP KNOT

The very first thing you need to do, before you even start casting on!

1 Holding the yarn under your left thumb, wrap it twice around your left index and middle fingers, with the second loop closer to the base of the fingers. With the backs of the fingers uppermost, insert the tip of the needle beneath the first loop and over the second, then pull the second loop under the first.

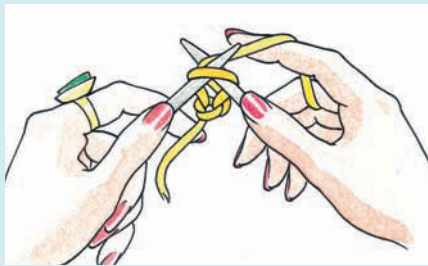

2 Remove your two fingers and gently tug on both ends of yarn to tighten the slip knot around the needle.

CAST ON

Creating stitches to knit with is surprisingly easy – this is the most common cast on method used

1 Make a slipknot on the left-hand needle and pull it taut. Insert the right-hand needle into the knot from front to back, passing under the left-hand needle. Wrap the ball end of the yarn anti-clockwise around the point of the right-hand needle.

2 Pull the loop that forms back through the original stitch and insert the tip of the left-hand needle into the new stitch from underneath to transfer from the right to left needle. There should now be two stitches on the left-hand needle.

3 Repeat the above steps, knitting into the top stitch on the left needle and returning the new stitches from the right to the left needle until you have the required number of stitches.

KNIT STITCH (K)

Also known as garter stitch, the knit stitch is the foundation of knitting

1 Once cast on, insert the tip of the right needle upwards and from front to back into the top stitch on the left needle. The right-hand needle should sit behind the left-hand one. Wrap the ball end of yarn anticlockwise around the tip of the right-hand needle.

2 Using the right-hand needle, pull a loop of the wrapped yarn through the original stitch to create a new one on the right needle.

3 Slide the original stitch off the left-hand needle. Repeat from step one. You are now knitting! The knit stitch can be combined with other stitches to create hundreds of different stitch patterns.

KNIT TWO TOGETHER (K2TOG)

A common decrease achieved by knitting two stitches together

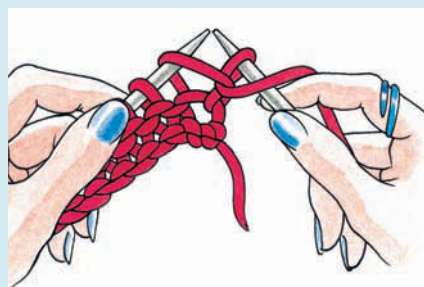

1 Insert the right needle into the front loops of next two stitches on the left needle. Then wrap the yarn anticlockwise around the tip and knit both stitches at the same time.

PURL STITCH (P)

Most frequently seen paired with the knit stitch to create different stitch patterns like stocking stitch and ribbing

1 With the ball-end of the yarn at the front (towards you), insert the tip of the right-hand needle into the front loop of the first stitch from right to left, with the right-hand needle in front of the left-hand needle.

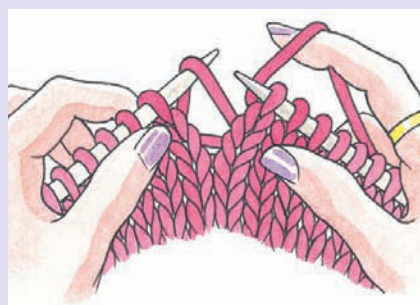

2 Draw this needle backwards and upwards, forming a new stitch on the right-hand needle.

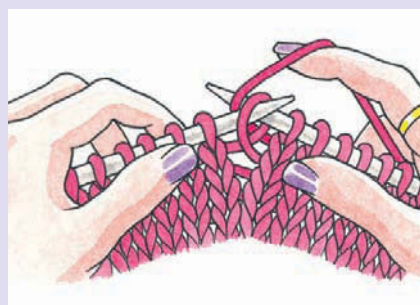

3 Once the new stitch has been formed on the right-hand needle you can let the loop from the left-hand needle slide off the end. Repeat until all the stitches have been purl and you have completed the row.

MAKE ONE (M1)

1 Insert the left needle into the horizontal bar of yarn lying between the stitch just knitted and the next stitch to be knitted. Hook and lift it with the needle tip in a backwards direction (away from you).

2 Push the right needle into the back part of the loop that now lies over the left needle and knit this stitch. You will now have an additional stitch on the right-hand needle.

CAST OFF

Once you have completed the number of rows needed for your project, you'll need to cast off. This fastens the work and keeps it from unravelling

1 Knit two stitches as normal. Insert the tip of the left needle into the second stitch on the right needle (the stitch closest to you). Carefully lift it up and over the top stitch, dropping it off the tip of the right needle and pulling the yarn to tighten. There is now one stitch on the right-hand needle.

2 Knit one more stitch and repeat the process in step one. Continue until there is one stitch remaining. Cut the yarn, leaving a long tail. Slip the loop off the needle and pull the tail through, pulling it tight.

CHAIN (CH)

Before you learn anything else, you'll need to master the chain stitch. When repeated, it forms your foundation chain

1 Make a slip knot and put it on the neck of the hook – don't pull it too tight or it will be difficult to stitch with. Coming from behind, wrap the yarn around the hook from right to left, across the 'neck'.

2 Catch the yarn and use the hook to pull it down through the slip knot. You have now made one chain (ch). Continue to make more chains, as directed in the pattern.

SLIP STITCH (SL ST)

The slip stitch is ideal for joining one part of crochet to another

1 Insert the hook into the second chain from the hook (or as indicated in the pattern you are using). There will now be two loops on the hook.

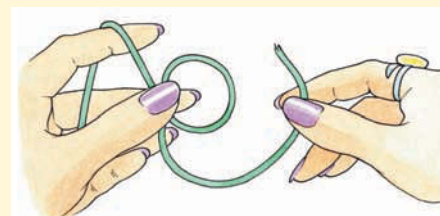

2 Wrap the yarn around the hook and pull the yarn through both loops. The loop on the hook does not count as a chain.

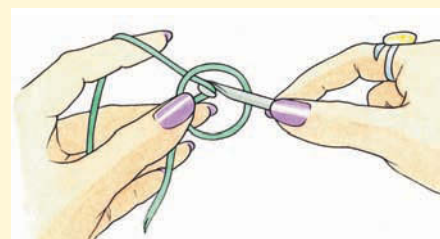

MAGIC RING

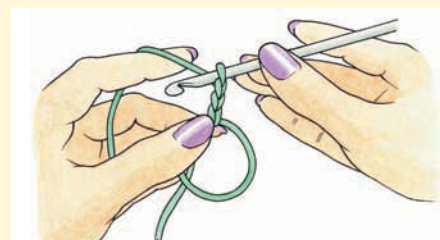

The magic ring is an easy way of beginning to work in the round. It is often used when making amigurumi toys

1 Make a large loop by putting the yarn tail behind the working yarn.

2 With your hook, draw the working yarn through the loop, so you have one loop on the hook.

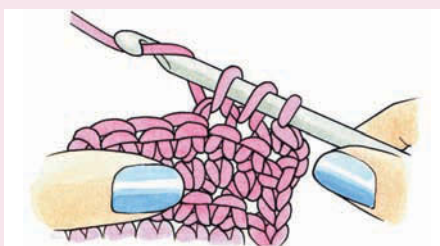

3 Make 3ch (counts as first tr), tr into the loop, crocheting over the tail.

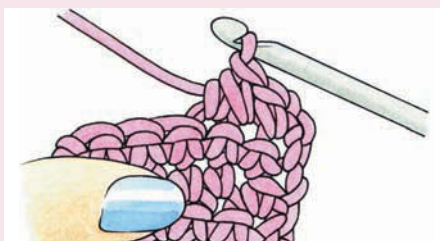

4 Continue to work as many stitches as needed into the loop. Once finished, untwist the tail if necessary then pull to close the loop

DOUBLE CROCHET TWO TOGETHER (DC2TOG)

The double crochet decrease appears in patterns as dc2tog, but the number can change according to how many stitches you are crocheting together

1 Insert hook through next st, yoh, draw back through work. Two loops on hook. Insert hook into next stitch, yoh, draw back through. Three loops on hook.

2 Yoh, draw through all three loops. One loop on hook.

DOUBLE CROCHET (DC)

This is one of the main stitches in crochet. Once you've mastered it, the world really is your (crochet) oyster!

1 Insert hook through both strands of the next stitch.

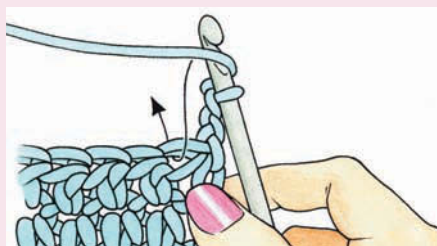

2 Yarn over the hook and draw back through the work. There will be two loops of yarn on the hook.

3 Yarn over the hook again and draw through both loops.

HALF TREBLE (HTR)

The half treble is very similar to the double crochet, except for the extra 'yarn round hook' (yrh) before each stitch is begun.

1 (You will need a turning ch of two sts.) Yarn over the hook and insert through the st.

2 Yarn over the hook and draw back through the work. There will be three loops of yarn on the hook.

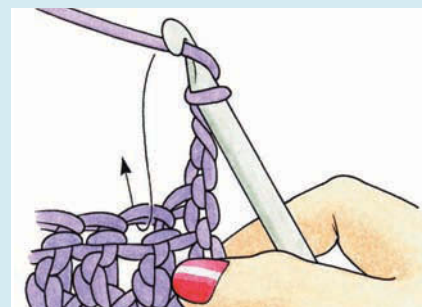

3 Yarn over the hook and draw through all three loops.

**CROCHET CLEVER**

The neatest way to change colour in crochet is part way through a stitch. Work until you have two loops left on your hook, drop the old yarn then take up the new. Fold it round the hook and draw this loop through the two stitches left on the hook.

TREBLE (TR)

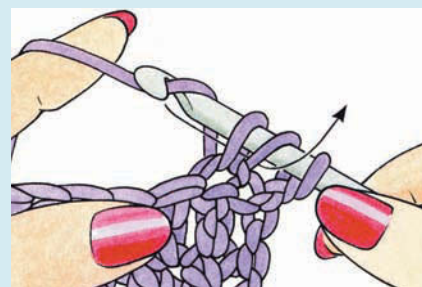

Treble crochet is slightly taller than half treble crochet but is made in a similar way

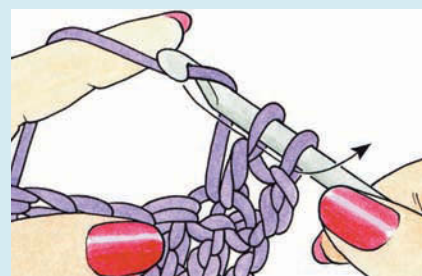

1 (You will need a turning chain of three sts.) Yarn over the hook. Insert the hook through the stitch.

2 Yarn over the hook and draw back through the work, there will be three loops of yarn on the hook.

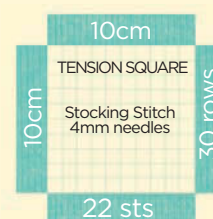

3 Yarn over the hook and draw through the first two loops. This will leave two loops on the hook.

4 Yarn over the hook and draw through all the loops. This will leave one loop on the hook.

**TENSION HEADACHE**

The tension square is not the most exciting part of any knitting project but in some cases it is one of the most important. Ensuring you have the correct number of stitches and rows across your 10cm swatch is crucial to getting the right measurements and a good fit. Here's how to do it:

Using the yarn and needles recommended in the pattern, cast on the number of stitches given in the tension square plus six more. In this case you would need to cast on a total of 28 stitches (22+6).

Making sure your stitches are not too tight or too loose, and working a knit stitch at each end of every row to prevent curling, work in stocking stitch unless another stitch is specified until the piece measures 14cm. Cast off. Each knitted stitch is signified by one complete 'V' shape, so lay a ruler horizontally across your swatch, use marker pins to indicate 10cm and count the number of stitches, including half stitches.

Do the same with the rows. Now compare this to the recommended tension. If there are too many stitches your tension is too tight – switch to a larger set of needles and try again. Similarly, if there are too few stitches your knitting is too loose – try with smaller size needles.

FINAL STAGES

Finish your project like a pro with these handy guides

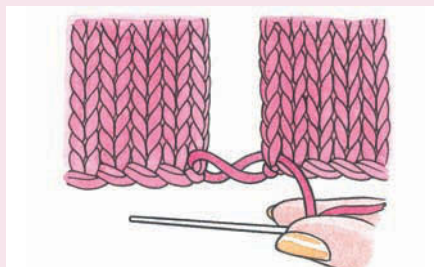

AT A LOOSE END?

Follow these steps for sewing in any loose ends:

- 1 Thread the yarn onto a tapestry needle and work with the WS of the knit facing upwards.
- 2 Insert the needle under the loop of each stitch, and draw it through. Work it up and down the loops of the stitches for 8cm.
- 3 Cut the yarn close to the fabric.
- 4 If you are weaving at a colour change, be sure to work the loose end into the corresponding colour to prevent it from being visible at the front of the work.

BEGINNING A SEAM

- 1 With the pieces to be joined placed next to each other with right side upwards, thread the tapestry needle and push it through the fabric after the first stitch, moving the needle from front to back. Then, take the needle and push it through after the first stitch on the second piece, moving the needle from the back of the work to the front. The yarn will form a figure 8. Tug gently to secure.

BACK STITCH

- 1 Pin the pieces to be joined, with the right sides together. Thread the loose end of yarn onto a tapestry needle. Start by stitching the two outer edges together, then bring the needle through the two pieces 1cm from back to front ahead of the previous stitch.

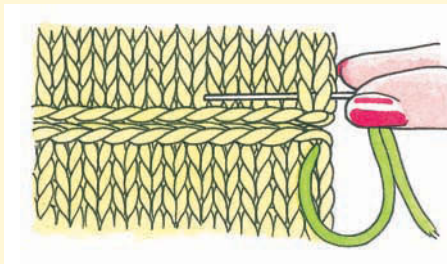

- 2 Push the needle back through at the position where the yarn emerged from the previous stitch. Return it to the front of the work, approx 1cm ahead of the stitch just made. Repeat this until the whole join is complete, working in a straight line.

MATTRESS STITCH

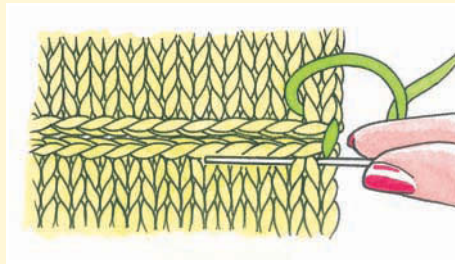

- 1 With the two pieces to be joined lying next to each other, hook the horizontal bar of the first stitch with the tapestry needle. Move to the other piece and hook the first horizontal bar of the stitch on that side. Repeat this moving from one piece to the next and pulling the yarn to tighten the join.

JOIN CAST OFF EDGES

- 1 Lay the two pieces to be joined right side up and with the cast off edges touching. Thread a tapestry needle with the loose yarn and push this through the centre of the first stitch, and then in and out through the centres of two stitches on the opposite side.

- 2 Take the needle over to the first side and insert where it previously exited, bringing it out through the centre of the next stitch. Repeat this process alternating sides and stitching single stitches until the pieces are joined.

HOW TO... STUFF TOYS

Most toy parts need to be stuffed quite firmly so they hold their shape. Add a small amount of safety toy stuffing at a time, pushing it well into the base of the part you are working on. Try to tease each bit of stuffing before inserting it as this makes it more pliable and gives a smoother effect. Stuff matching pieces as equally as possible, checking legs and arms against each other as you work to ensure they match up. Don't be tempted to overstuff as this will make attaching the limbs difficult.

OVER STUFFED

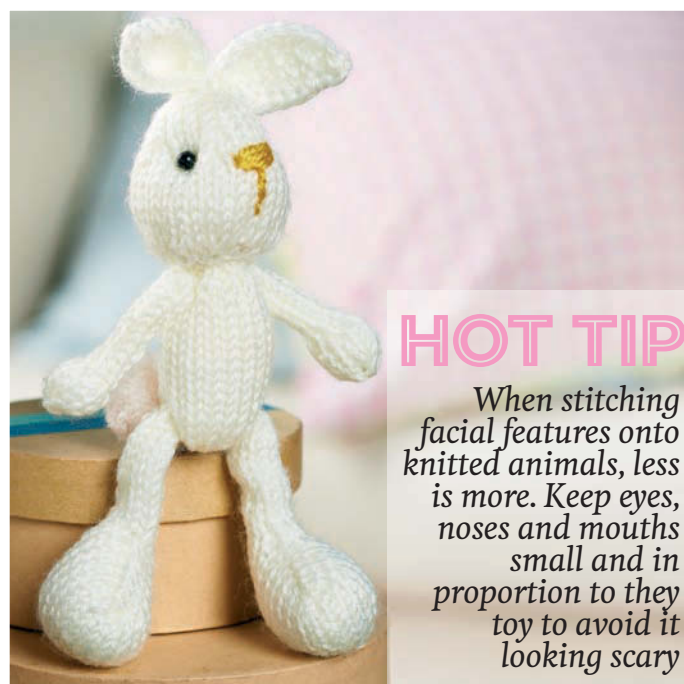

UNDER STUFFED

UNEVEN STUFFING

TOO FULL TO SEW UP

HOT TIP

When stitching facial features onto knitted animals, less is more. Keep eyes, noses and mouths small and in proportion to they toy to avoid it looking scary

HOW TO... ATTACH LIMBS

Before sewing arms and legs to a toy, check they are evenly stuffed and identical in size and shape. Pin the limbs in position, taking into account whether the toy is designed to be sitting or standing and ensuring they are equal distances apart. Use yarn tails to join pieces together where possible as this provides a firm anchor for sewing up. Using matching yarn (we have used blue for illustrative purposes) and a tapestry needle, sew the limbs onto the body very firmly, taking a stitch on the limb and then a stitch on the body alternately until it is sewn firmly in place.
