We were charmed when we came across this hot little number in our archives—this glamorous gal and her debonair suitor look as if they stepped off the set of *Mad Men*, and her hand-stitched shrug looks like something we'd happily snatch up for our wardrobes today. To steal her look, we've simply updated this pattern with a modernized yarn and an easy motif construction, so even beginning stitchers can add this piece to their wardrobe in no time flat—ready to wear to your next affair!

Dora's design for our March/April '10 issue, the Floaty Vest, is a great example of a well-draped garment.

mastering Drape

How to get the fabric you want in crochet.

By Dora Ohrenstein

Drape is the quality of fabric that makes it hang well on the body—when a garment lacks drape, it appears stiff. Drape can be a difficult quality to obtain in crochet, due to the thick and dense nature of crochet stitches. Let's examine various techniques that can increase the drape factor in your crochet clothes.

Dora Ohrenstein is the author of *Creating Crochet Fabric* (Lark Books, 2010).

✕ Picking Yarn for Drape ✕

NOTE THE YARN WEIGHT The thinner the yarn, the thinner the fabric, and thus the best drape. A lace, fingering, or sport-weight yarn produces the best drape, but if you choose the right hook size, good drape can be achieved with worsted-weight yarn.

CONSIDER THE FIBER COMPOSITION Some fibers have more drape than others. On the list of good drapers are bamboo, alpaca, silk, mohair, merino, linen, rayon, soy, and soft acrylics. Cotton, however, is very stiff, but certain types, such as Pima, are bred to increase softness and therefore add drape. Blends can help even stubborn fibers achieve a nice drape: the blend acquires the good qualities of each of the component fibers. To ensure good drape, read your yarn's label carefully and look for at least 50 percent drape-positive fibers in the blend.

THINK ABOUT THE TEXTURE Smooth yarns drape better than those that have kinky edges, such as boucle.

✂ Picking Hooks for Drape ✂

The most important thing you can do to increase drape is go up in hook size. This simple change loosens up your stitches, gives the yarn more “breathing room,” and greatly improves the fluidity of the fabric. There is no exact formula for matching hook size with yarn weight, however. Think about a range of sizes for various weights. With a worsted-weight yarn, try a G to K hook; with DK weight, F to I; with sport weight, D to G. Bulky yarns are tricky, but even a heavier garment like a jacket will improve in wearability if a larger hook,

anywhere from K through N, is used.

The best way to find out is to make gauge swatches with different hooks. The three swatches hanging on the opposite page demonstrate this point. All three swatches were made using the same worsted-weight yarn and stitch pattern—sc, hdc—but they were worked on different hooks. Swatch A, a firm and not very giving fabric, was made with an E/4 (3.5mm) hook; Swatch B, slightly more drapery, used an I/9 (5.5mm) hook; Swatch C, with its flowing shape, was made with an L/11 (8mm) hook.

Knowing just what to look for in your stitches helps make the decision about the best hook size. If the hook is too large, stitches will look sloppy. Too small, and the stitches are tight. When individual stitches are well defined and the yarn opens up comfortably in each stitch, then you’re very close to perfection. Many yarns can look good with 2 or 3 different hook sizes; for maximum drape, go with the largest.

✂ Picking Stitches for Drape ✂

WORK INTO ONE LOOP ONLY, either back or front, to add significantly to drape. The rows will be less tightly connected, which means the fabric can stretch more. Many stitch patterns can be modified so that only back or front loop stitches are used. [swatch 1]

CHOOSE TALL STITCHES. The openness of taller stitches adds to the drape. Waves or ripples made with trebles work very well, and many stitch patterns that call for double crochet can easily be made with trebles to improve the drape factor. [swatch 2]

PLAY WITH LACE. Lace stitches are another time-honored tool for making supple crochet fabric. The holes in the fabric increase its ability to fold and move. In fact, the more open a stitch pattern is, the better drape it will give. [swatch 3]

AVOID TEXTURED STITCHES. Bobbles, puffs, posts, and cables will add bulk to the fabric and therefore work against drape. If you love these dimensional stitches, try them with thinner yarns so you can still use them on wearables. [swatch 4]

ASSEMBLY DIAGRAM

FINISHING

Following directions on bottle of fabric starch, starch the flower and leaves lightly, gently pat into shape, and allow to dry thoroughly. Do not pin the pieces flat; allow some texture to remain.

Attach Beads

Sew beads to flower and leaves as follows. Apply a small amount of beeswax to a length of hand-quilting thread, and thread onto sharp sewing needle.

Note If your sewing needle is slender enough to go through the hole in the beads, you do not need to change back and forth from a beading needle to a sewing needle.

center elevated pearl beads Insert sewing needle from wrong side to right side near center of flower. Change to beading needle and thread needle through a bugle bead, then through a large pearl bead, and finally through a seed bead. Return needle through pearl and bugle beads. Change back to sewing needle and insert needle back through flower to anchor pearl bead in an elevated upright position near the center of the flower. Repeat this process to attach two more center elevated pearl beads (for a total of 3 elevated pearl beads). Secure end of thread on wrong side of flower.

next ring of pearl beads Insert sewing needle from wrong side to right side near center pearl beads. Change to beading needle and thread needle through a large pearl bead and then through a seed bead. Return needle through pearl bead. Change

back to sewing needle and insert needle back through flower to anchor bead. Repeat to attach 12 more beads evenly spaced around the center elevated pearl beads.

smaller outer pearl beads With beading needle, thread smaller pearl beads onto sewing thread. Change to sewing needle and insert needle from wrong side to right side near the outside edge of a leaf, slide a pearl bead up to edge of leaf, and insert needle back through the edge of the leaf to secure the bead. Repeat to attach 13 beads evenly spaced along the outside edge of each large leaf and 10 beads evenly spaced along the outside edge of each small leaf.

Assemble Flower and Leaves

Arrange flower and leaves as shown in assembly diagram. Sew bases of leaves to wrong side of piece. Weave in ends.

Attach Goose Bliots

Use photograph as a guide to arrange goose bliots. Gently bend the bliots and sew ends to wrong side of flower and leaves. Two bliots should curve around each leaf, framing the leaf. The other bliot should be curved into a

similar shape and be centered between and slightly beyond the other two bliots.

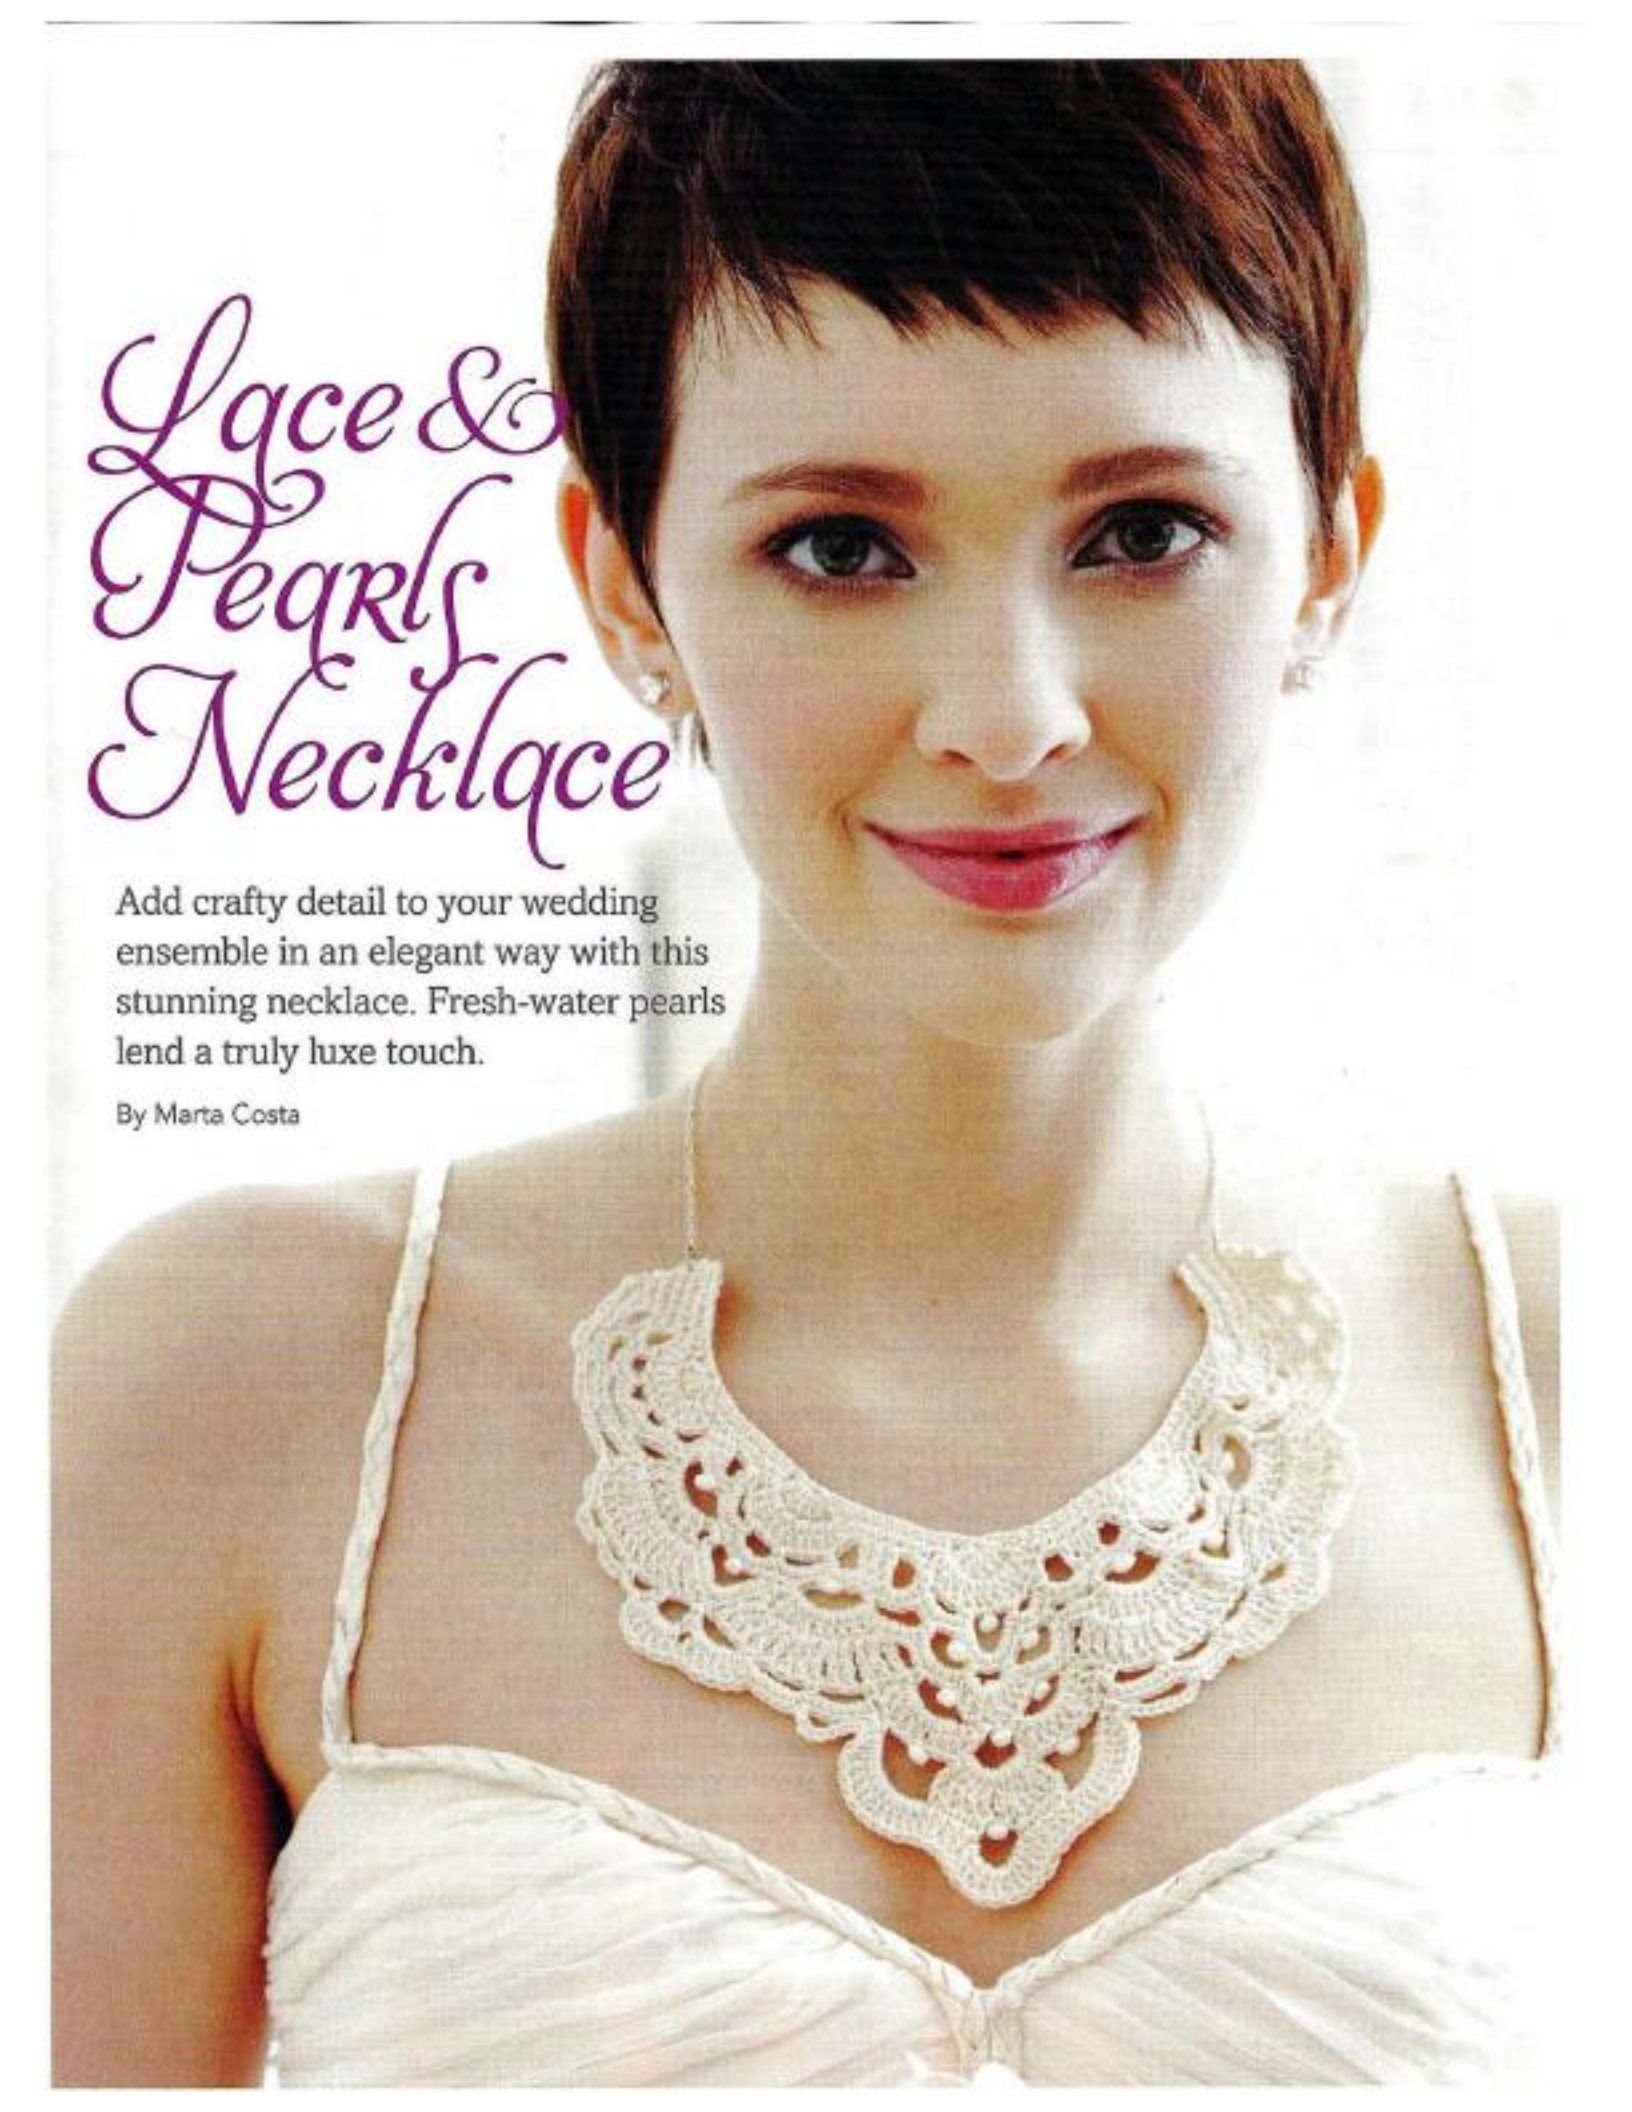

Attach Veiling

Loosely wrap veiling around a round object; a baseball cap stuffed firmly with newspaper works well. Gather top of veiling and create pleats to form a shallow bowl shape (or other desired shape). Pin pleats and gathers in place. With sewing needle and thread, sew pleats and gathers as needed to maintain shape, and sew veil to underside of flower arrangement.

Prepare Headband

If needed, remove any existing embellishment from headband. Fold grosgrain ribbon lengthwise around headband. Use hot glue or bridal glue to adhere ribbon to both sides of headband. Trim ends, and using sewing needle and matching thread, whipstitch around edges to secure. Take care to make small stitches.

Sew or glue flower arrangement to headband.

A close-up portrait of a woman with short, dark brown hair and bangs. She is smiling gently at the camera. She is wearing a white, intricately detailed lace necklace with a scalloped edge and a central floral motif. She is also wearing a white, strapless dress with a draped neckline. The background is a soft, out-of-focus light color.

Lace & Pearls Necklace

Add crafty detail to your wedding ensemble in an elegant way with this stunning necklace. Fresh-water pearls lend a truly luxe touch.

FINISHED MEASUREMENTS

Shawl measures 19"/48.5cm wide x 60"/152.5cm long

GAUGE

8 ch-2 sp and 9 rows = 4"/10cm over pattern. Remember to check gauge for best results!

HOW TO MAKE A GAUGE SWATCH

Ch 30.

Row 1 Dc in 9th ch from hook (beginning ch counts as dc, ch 2). [ch 2, sk next 2 ch, dc in next ch] 7 times—9 dc, and 8 ch-2 sp.

Rows 2–9 Ch 5 (counts as first dc, ch 2), turn; sk first ch-2 sp, [dc in next dc, ch 2, sk next ch-2 sp] 7 times, dc in last dc.

Resulting gauge swatch should measure approx 4 x 4"/10 x 10cm. If necessary, adjust hook size to obtain correct gauge.

NOTE

Shawl is made in two halves. Each half is worked from the center out to the outer (long) edge. After the first half is complete, the second half is worked beginning by working across the opposite side of the foundation chain of the first half.

Resulting gauge swatch should measure approx 3¾ x 3¾"/9.5 x 9.5cm. If necessary, adjust hook size to obtain correct gauge.

NOTES

1 The decreases (dc2tog and dc/trtog) are worked over two stitches. The first leg of each decrease is worked in one indicated stitch and the second leg is worked in the next indicated stitch, before the final yarn over is worked. Take care to identify the correct two indicated stitches when working each decrease. The two stitches may not be right next to each other, and the first indicated stitch is often the same stitch into which the last stitch was made. See stitch diagram for a useful visual.

2 When instructed to work a stitch in the same stitch, this means that you should insert your hook into the same stitch as the last stitch that was made.

(beginning ch counts as first dc), dc in next 13 (15, 17, 18, 20, 22) ch, [dc2tog] twice, place a marker between the two dc2tog (for point), dc in each ch across; change to B in last st—42 (46, 50, 52, 56, 60) dc.

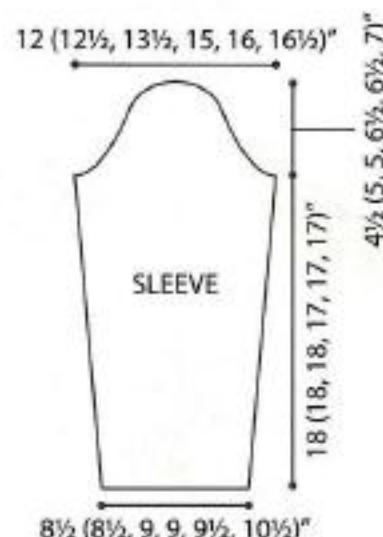

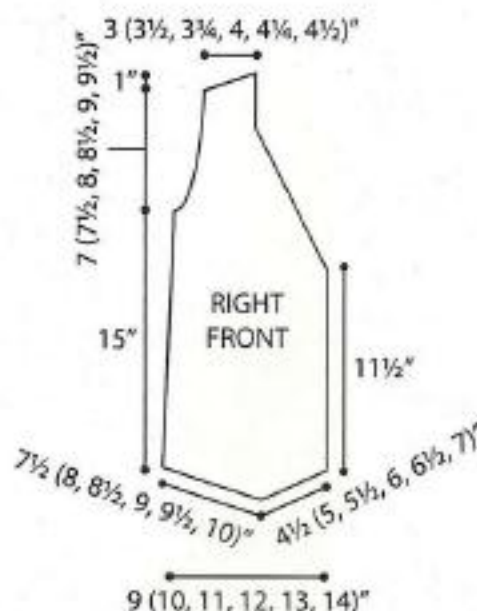

Note In next row, two decreases are worked at the center point, one increase at the front edge, and no increase at the side edge, for a total decrease of one stitch in the row. This causes the front edge to remain straight but the side edge to slope slightly.

Row 2 With B and working in back loops only, ch 3, turn; dc in each dc across to 2 sts before point marker, [dc2tog] twice, dc in each dc across to last 2 dc, 2 dc in next dc (increase made at front edge), dc in last dc; change to C in last st—41 (45, 49, 51, 55, 59) dc.

Note In next row, two decreases are worked at the center point, one increase at the front edge, and one increase at the side edge, for no change to the stitch count. Both the front and sides edges remain straight.

Row 3 With C and working in back loops only, ch 3, turn; 2 dc in next dc, dc in each dc across to 2 sts before point marker, [dc2tog] twice, dc in each dc across to last 2 dc, 2 dc in next dc, dc in last dc; change to A in last st.

Note Increases are no longer worked at the front/neck edge. This causes the neck edge to slope.

Note Following a decrease row, work a ch 2 and turn; then work either sc or dc into the hdc2tog. Work sc if the following stitch is a dc, and work dc if the following stitch is sc. Similarly, at the end of the row, work either sc or dc into the last hdc2tog. Work sc if the preceding stitch was dc, and work dc if the preceding stitch was sc.

FRONT

Work same as back until piece measures 14¼ (15¼, 15¼, 16¼)/37.5 (38.5, 38.5, 40, 41.5) cm.

Note For the smallest size, be sure to work at least the first row of armhole shaping before proceeding. For the other sizes you will have begun, but not completed, the armhole shaping. Make a note of the last row of armhole shaping that you have worked before working the shoulder and neck shaping (below). On the side edges of the front, you will continue to work the armhole shaping in the same manner as on the back. At the same time, you will shape the neck along the inner edge. Place markers on either side of center 13 sts (for neck).

Assemble Mobile

Arrange plastic ring and crochet pieces in the following order: ring, sun and clouds, rainbow, and raindrops.

attach sun and clouds to ring Cut an 18"/45.5cm length of sturdy thread. Fold the thread in half and insert the fold into the ring. Thread the ends through the fold and pull tight to anchor two strands of thread to the ring. Thread the two strands onto a needle. Leaving 3"/7.5cm between the ring and the sun and clouds, sew several stitches into top ray of the sun, and weave thread securely into the sun. Cut thread.

attach rainbow to sun and clouds Cut an 18"/45.5cm length of sturdy thread. Fold the thread in half and thread the cut ends into a needle. Insert needle into lower ray of sun, going under several crochet stitches, and draw partway through. Insert needle into fold of thread and pull tight to attach thread to lower ray

of sun. Sew several stitches into lower ray (behind clouds). Leaving 1½"/4cm between the sun and rainbow, sew several stitches into center of top of rainbow, and weave thread securely into the rainbow.

Cut thread.

attach raindrops to rainbow Leaving 2"/5cm between the rainbow and one raindrop, and 5"/12.5cm between the rainbow and the second raindrop, attach each raindrop to one end of rainbow in same way that rainbow was attached to sun and clouds.

Weave in all ends.
