15 CUTE AMIGURUMI PATTERNS

COMPILED WITH CARE BY

HI!

I've been a collector all my life, from precious minerals to fruit stickers, i've gathered it all. But my most fun collection so far must be my growing 'museum' of amigurumi patterns. Every day new patterns are added as there's just so much cuteness around and so many talented designers creating unique characters.

In 2012 I made a first book with 15 great animal patterns. 12 designers teamed up with me to create an amazing collection. It has been so nice to send the book to crochet fans all over the world and see these amigurumi pop up all over the

internet, each of them unique in its colors and decorations. The idea of making a follow-up book was simply irresistible.

Zoomigurumi 2 contains 15 new characters I instantly fell in love with. I hope you'll enjoy making cute lambs, dogs, turtles and piglets. I would love to see how they turned out! Pictures are more than welcome on [flickr.com/groups/zoomigurumi](https://www.flickr.com/groups/zoomigurumi) or [facebook.com/AmigurumiPatterns.net](https://www.facebook.com/AmigurumiPatterns.net).

Enjoy crocheting!

BASIC STITCHES

If this is your first time making amigurumi you might find it useful to have a tutorial of the most basic stitches. With the stitches explained here you can make all amigurumi in this book.

I suggest you try them before you start making one of the animals, it will surely help you read the patterns and abbreviations more comfortably without having to browse back to these pages.

CHAIN STITCH (*ch*)

This stitch is the basis for many crochet patterns. If you're working in rows, your first row will be a series of chain stitches.

Use the hook to draw the yarn through the loop (1) and pull the loop until tight (2). Wrap the yarn over the hook from back to front. Pull the hook, carrying the yarn, through the loop already on your hook (3). You have now completed one *chain stitch*. Repeat these steps as indicated in the pattern to create a foundation chain (4).

SINGLE CROCHET (*sc*)

Single crochet is the stitch that will be most frequently used in this book.

Insert the hook into the next chain stitch (1) and wrap the yarn over the hook. Pull the yarn through the stitch (2). You will see that there are now two loops

on the hook. Wrap the yarn over the hook again and draw it through both loops at once (3). You have now completed one *single crochet* (4). Insert the hook into the next chain stitch to continue the row (5).

At the end of the row (6) you need to bring the yarn up to the correct height to work the first stitch. Make one chain stitch (*ch*) (7) and turn the work (8). Start the next single crochet in the first stitch (don't count the turning chain as a stitch). To work into a previous row of crochet, insert your hook under both loops of the first stitch, as shown in the figure (9).

BACK LOOPS ONLY (*BLO*) & FRONT LOOPS ONLY (*FLO*)

When making a crochet stitch, you end up with two loops at the top of the stitch, a front loop (towards you) and a back loop. When asked to crochet *FLO* or *BLO* you make the same stitch but leave one loop untouched.

SLIP STITCH (slst)

A *slip stitch* is used to move across one or more stitches at once. Insert your hook into the next stitch. Wrap the yarn over the hook and draw through both loops at once.

**HALF DOUBLE CROCHET (hdc)**

Bring your yarn over the hook from back to front before placing the hook in the stitch. Now insert your hook in the third chain - without counting the loop on the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch. You now have three loops on the hook (2). Wrap the yarn over the hook again and pull it through all three loops on the hook (3). You have completed your first *half double crochet*. To continue bring your yarn over the hook and insert it in the next chain stitch (4). To start a second row, bring your thread to the correct height by making two chain stitches.

**DOUBLE CROCHET (dc)**

Bring your yarn over the hook from back to front before placing the hook in the stitch. Now insert your hook in the fourth chain - without counting the loop on the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch. You now have three

loops on the hook (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). You now have 2 loops on the hook. Wrap the yarn over the hook one last time and draw it through both loops on the hook (4). You have now completed one *double crochet*. To continue bring your yarn over the hook and insert it in the next chain stitch (5).

To start the second row, you turn the work (6). You will need to bring the thread up to the correct height to work the first stitch. To raise the yarn, make three chain stitches. Start the next double crochet in the second stitch. Be sure to insert your hook under both loops of this stitch (7).

TRIPLE CROCHET (*tc*)

Bring your yarn over the hook twice before you insert it in the fifth chain from the hook (1). Wrap the yarn over the hook and draw the yarn through the chain stitch (2). Wrap the yarn over the hook again and pull it through the first two loops on the hook (3). Repeat this last step twice (4 & 5). You have now completed one *triple crochet*. To start the second row, you turn the work. You will need to bring the thread up to the correct height to work the first stitch. To raise the yarn, make four chain stitches. Start the next double crochet in the second stitch. Yarn over twice and be sure to insert your hook under both loops of this stitch.

**INCREASE** (*inc*)

To increase you make two single crochet stitches in the next stitch.

**INVISIBLE DECREASE** (*dec*)

The standard method of decreasing can leave a small bump or gap. The invisible decrease is an alternative method of decreasing which will make your decrease-stitch look much like the other stitches in the row, so it results in a more smooth and even crochetwork. Insert the hook in the front loop of your first stitch. Now immediately insert your hook in the front loop of the second stitch (1). You now have three loops on your hook. Wrap the yarn over the hook and draw it through the first two loops on your hook (2). Wrap the yarn over again and draw it through the two loops remaining on your hook (4). You have now completed one *invisible decrease*.

**INVISIBLY DECREASE 2 STITCHES AT ONCE** (*sc3tog*)

Insert the hook under the front loop only of the next three st. (1) This gives you four loops on the hook. (2) Wrap the yarn over the hook and draw it through the first three loops on your hook. Wrap the yarn over the hook again and pull through the remaining two loops on the hook. (3) You have now completed one *sc3tog*.

MAGIC RING

A magic ring is ideal to start crocheting in the round. You start by crocheting over an adjustable loop and in the end pull the loop tight. The advantage of this method is that there's no hole left in the middle of your starting round.

Start with the yarn crossed to form a circle (1). Draw up a loop with your hook but don't pull it tight (2). Hold the circle with your forefinger and thumb, and wrap the working yarn over your index finger (3). Make one chain stitch by wrapping the yarn over the hook and pulling it through the loop on your hook (4). Now insert your hook into the loop and underneath the tail. Wrap the yarn over the hook and draw up a loop (6). Wrap the yarn over the hook again and draw it through both loops on your hook (7). You have now completed your first single crochet (8). Continue to crochet until you have the required number of stitches as mentioned in the pattern.

Now grab the yarn tail and pull to draw the centre of the ring tightly closed.

You can now begin your second round by crocheting into the first stitch of the first round. You can use a stitch marker to remember where you started.

If you do not prefer this technique, you can start each piece using the following technique: ch 2, 6 sc into the second chain from the hook.

**BACK POST OR FRONT POST SINGLE CROCHET**

To make a *back post* or *front post* single crochet, insert the hook from right to left around the vertical post of the next stitch according to the picture below. Wrap the yarn over the hook and draw up a loop. Finish the single crochet stitch as usual.

BOBBLE STITCH

The bobble stitch creates a soft dimensional bobble in your crochetwork. Think of it as a cluster of dc stitches worked in the same stitch.

Bring your yarn over the hook from back to front before placing the hook in the stitch (1). Wrap the yarn over the hook and draw the yarn through the stitch. You now have three loops on the hook. Wrap the yarn over the hook again and pull it through the first two loops on the hook. One half-closed double crochet is complete, and 2 loops remain on the hook (2). In the same stitch, repeat the preceding steps twice. You should have 4 loops on your hook. Wrap the yarn over your hook and draw the yarn through all 4 loops on the hook (3). One *3-dc-bobble-stitch* is complete. Create a bobble stitch with as many dc stitches as indicated in the pattern.

**PICOT STITCH**

Make 3 chain stitches. Insert your hook in the first chain stitch you made (1), wrap the yarn around your hook and draw it through both loops on the hook. One *picot stitch* is complete (2).

**INVISIBLE COLOR CHANGE**

When you want to switch from one color to the next, you work to within two stitches before a color change. Make the next stitch as usual, but don't pull the final loop through (1). Instead, wrap the new color of yarn around your hook and pull it through the remaining loops (2). To make a neat color change, you make the first stitch in the new color a slip stitch instead of a single crochet. Don't pull the slip stitch too tight or it will be difficult to crochet into in the next round. Tie a knot to the loose tails and leave them on the inside.

**FASTENING OFF AND JOINING ALL PARTS**

When you're done crocheting, cut the yarn a couple of inches from your last stitch. Pull the yarn through the last loop until it is all the way through (1). You now have a finished knot.

Thread the long tail through a tapestry needle and insert your tapestry needle through the back loop of the next stitch (2). This way the finishing knot will remain invisible in your finished piece. You can use this piece of yarn to continue sewing the body pieces together.

Always make sure pieces are securely attached so that they can't be pulled off. Make small, neat stitches and try to make them show as little as possible.

Some designers leave the extremities open for sewing onto the body, others sew them closed.

When open: Position the piece on the body and sew all around it, going through the front stitches of both the extremity and the body.

When the opening of the extremities is sewn closed before attaching it to the body, you line up the stitches of one side with the other side and sew through the front loop of one side and the back loop of the other side. Use the same color of yarn as one of the pieces you want to join together.

WORKING IN SPIRALS

All patterns in this book are worked in continuous spirals, not in joined rounds. Crocheting in spirals can be confusing since there's no clear indication of where a new round begins and the previous one ends. To keep track of the rounds, you can mark the end of a round with a stitch marker or safety pin. After crocheting the next round, you should end up right above your stitch marker. Move your stitch marker at the end of each round to keep track of where you are.

PATTERN STRUCTURE

At the beginning of each line of the pattern you find 'Rnd' + a number to indicate which round you are in.

Although we usually crochet in rounds, occasionally it happens that we switch to rows. When we switch to rows, it will be indicated with 'Row' + a number.

At the end of each line you will find the number of stitches you should have in brackets, for example [9]. When in doubt, count your stitches for a moment.

Abbreviations are used throughout the book. You can find the explanation on the previous pages.

Sometimes we use a more condense way of writing. When reading "inc in st 5, 7, 13", you make a single crochet in all stitches except for stitch 5, 7 and 13 where you increase.

SKILL LEVEL

easy () intermediate (**) experienced (***)*

Every pattern is marked with a skill level to indicate how easy they are to make. Start with an easy pattern and work up to the intermediate and experienced ones.

BASIC MATERIAL

YARN

With every pattern in this book we list the materials used to created that amigurumi, including the specific yarn that is used. But don't feel tied to the yarn choices, other types of cotton, acrylic or wool can be used as a substitute.

Yarn comes in different thicknesses. The yarn thick-ness is specified with every pattern. Much of what you need to know is on the yarn label, but it might take a little bit of decoding. Below we add a chart that can help you make the right choice.

The patterns don't give the yarn quantity. The amounts are rather small and will vary according to how loosely or tightly you crochet. You could use some of the remnants from other projects or start with a new ball of yarn.

CROCHET HOOKS

Not only yarn, but hooks as well come in different sorts and sizes. Bigger hooks make bigger stitches than smaller ones. It is important to match the right hook with the right type of yarn. The size of hook used is indicated with every pattern, or can be consulted in the chart below.

The crochetwork should be quite tight, without any gaps through which stuffing can escape. You best use a

smaller hook than stated on the yarn label to achieve this.

Hooks are usually made from aluminium or steel. Metal hooks tend to slip between the stitches more easily. For projects that require very thick yarn, a wooden hook might be a comfortable alternative.

STITCH MARKER

A stitch marker is a small clip in metal or plastic. It's a simple tool to mark your starting point and give you the assurance that you've made the right number of stitches in each round. With my stitch marker I always mark the last stitch of the previous round.

STUFFING/FACE FEATURES

For the filling polyester fiberfill is advised. You can purchase this at any yarn shop. It is inexpensive, washable and non-allergenic. Be careful not to overstuff your animal. Stuffing might stretch the fabric and show through.

For some patterns safety eyes are used. These are widely available. Be alert when you apply safety eyes: once you put the washer on you won't be able to pull it off again. So you best make sure the post is where you want it before attaching the washer.

Alternatively, the features can be embroidered, which is recommended if you're crocheting for children under the age of three. For embroidery a tapestry needle with a rounded tip is used.

ASSEMBLING

- Using your sewing pins, decide on the placement of the legs. If you would like to have the legs movable you can use strong sewing thread and buttons. Sew the top center of each leg to the body at one point only. Go back and forth through the button, the leg and the body, pulling the thread tightly each time.
- Sew all parts together.
- Use black cotton yarn to embroider the nose, mouth, and the stripes on the front side shell. Use darker brown cotton yarn to embroider the back side shell. Embroider the shoe embellishments and make shoe laces with white yarn.

Place the eyes between round 13 and 14 spaced

approximately 9 stitches apart. Embroider the face according to the diagram. Begin to stuff the head now, and continue to stuff generously after the next 2 rounds, placing extra stuffing where you increased in round 13 to give the front of the head its shape. Be sure to firmly stuff the neck after round 22 and 23, so it is strong enough to support the head. We now continue making the body.

Rnd 19: (sc in next 2 st, dec in next st) repeat 6 times [18]

- Use your sewing pins to position the legs. Cut a long piece of upholstery thread (or any other kind of extra-strong thread) and thread it onto your doll needle.
- Unpin one of the legs from the body and secure a knot on the center inside of the leg.
- Run your doll needle through the bunny's body and out of the top center of the leg on the opposite side. Pull the thread tight and insert the needle back into the leg you just came out of, through the body and back out the top center of the opposite leg.
- Continue to do this, back and forth through both legs

and the body, pulling the thread tightly each time, until you are satisfied with how the legs feel. The legs will be jointed and can be moved back and forth, but should feel tight and secure against the body.

– Fasten off and secure the thread on the inside of one of the legs, close to the body, so the knot is hidden.

Arms

Follow the same method as used for the legs.

Ears

Fold the ears closed. Using your sewing pins, decide on the placement of the ears and sew them onto the head with your yarn needle.

Rnd 4: (sc in next 5 st, inc in next st) repeat 3 times [21]

Rnd 5-8: sc in all 21 st [21]

Fasten off and leave a long tail for assembly. Flatten the ear, do not stuff.

TAIL (*in yellow yarn*)

Rnd 1: Start 5 sc in a magic ring [5]

Continue to sc in each st around, working upwards until the tail is about 2.5 in (6 cm) long. Fasten off.

TAIL POM-POM (*in brown yarn*)

If you usually use a crochet hook with a wide ergonomic handle, it is a good idea to switch to a hook without one, as it will give you more space to work. Ch 120. Take your hook and insert it into the 8th ch from hook. Take your hook and insert it into every 8th ch, until you reach the end. You should have a series of loops (comprised of 8 ch each) pushed onto your hook. Yarn over and slowly, carefully pull the hook back through each ch on your hook until you reach the other end. Yarn over and pull through to secure your pom-pom. Fasten off, leaving a long tail for sewing, and tie another knot to secure your pom-pom some more, if you wish. Sew the pom-pom to the end of the tail.

MANE (in brown yarn)

Make a chain long enough to wrap around the circumference of the front of your lion's head with the ends meeting beneath his chin (usually about 45 ch). Make an extra turning chain.

Row 1: Starting in second ch from hook, sc in each st across. ch 1, turn.

Row 2: Starting in second st from hook, sc in each st across. ch 1, turn.

Row 3: FLO sc in second st from hook, (ch 8 and FLO sc in next st), repeat until you reach the opposite end of the row. FLO sc in last st. ch 1, turn.

Row 4: You should see a ridge of the back loops remaining from the previous row. Sc across in all back loops. Fasten off, leave a tail for sewing.

ASSEMBLY**Legs**

- Use your sewing pins to position the legs. Cut a long piece of upholstery thread (or any other kind of extra-strong thread) and thread it onto your doll needle.
- Unpin one of the legs from the body and secure a knot on the center inside of the leg.
- Run your doll needle through the lion's body and out of the top center of the leg on the opposite side. Pull the thread tight and insert the needle back into the leg you just came out of, through the body and back out the top center of the opposite leg.
- Continue to do this, back and forth through both legs and the body, pulling the thread tightly each time, until you are satisfied with how the legs feel. The legs will be jointed and can be moved back

and forth, but should feel tight and secure against the body.

- Fasten off and secure the thread on the inside of one of the legs, close to the body, so the knot is hidden.

Arms

Follow the same method as used for the legs.

Tail

Place the tail where desired and sew onto the body using a yarn needle.

Mane

Decide on the placement of the mane by pinning it around the circumference of your lion's face. Using a yarn needle and the excess tail of yarn, sew both sides of the mane to the head. Fasten off and weave in the yarn ends.

Ears

Using your sewing pins, decide on the placement of the ears and sew them onto the head with your yarn needle.

APRON

- Notes on felt pieces: Color A creates the main apron. Color B creates the scalloped border behind Color A.
- Cut Color A into a semicircle that is about 2" (5 cm) wide and 1" (2,5 cm) tall. The straight side is the top of the apron. Put Color A on top of Color B. Cut Color B along the straight edge of Color A, and then cut a scalloped edge along the curve in order to create a border.
- Sew a button onto the apron, and use that same thread to sew along the edge of Color B to join the two pieces of felt together. Center the ribbon on top of the apron along the straight edge. Use fabric glue to secure the ribbon in place.
- Put the apron on the pig and tie a bow behind the pig to secure the apron in place. You may fabric glue or sew the ribbon in place.

BOW

Use either felt pieces (Color A or Color B) and cut a 3 inch x 0.5 inch (7,5 cm x 1,5 cm) strip. Fold the ends of the strip into the center and sew in place. Wrap the embroidery thread around the center of the bow a few times to scrunch up the center, and then sew a button on it. Sew the bow to the base of your pig's ear.
