Peacock Filet Bedspread

Designed by Ann Orr

Ann Orr was one of the most popular and talented needlework designers in America in the early part of the 20th century. Between 1914 and 1945 in addition to raising three daughters, she published hundreds of design leaflets and served as the editor of two women's magazines including Good Housekeeping, where she served as the needlework editor for over 20 years. She was so beloved that well into the 1970s she continued to receive mail addressed to her at the magazine.

One of her favorite design techniques was the block-by-block design of charts. She intended these designs to be used not only for filet crochet but for needlepoint, cross stitch and even quilting.

This peacock filet bedspread is one of her most famous designs and will add a dramatic touch to any bedroom. The central peacock is framed by rows of lacet stitch, and bordered with charming basket motifs.

For another filet piece probably designed by Ann Orr, see page 120.
