ICE BOX CROCHET

Calorie-free and cute as can be! The faux foods in this little retro fridge are irresistible, whether intended as toys for children or as collectibles for fans of amigurumi, the Japanese art of miniature crochet creations. Make the whole set or just a few favorites!

Meet the Designer

Wai Yee Ng

Since she learned to crochet at the age of 6, Wai Yee Ng has been fascinated by 3D designs. “I break away from conventional thinking and believe that nothing cannot be done,” she says. “It’s just the matter of how.” The designer owns a craft shop near Kuala Lumpur in Malaysia and enjoys crochet, felt crafts, beading, and other hobbies.

GETTING STARTED

ICE BOX

Yarn Weight

The photo model was made using fine weight yarns. You can also use light or medium weight yarns. The weight yarn you use will affect the gauge, as well as the hook size needed and the amount of yarn required.

Approximate Finished Size (assuming gauge is maintained)

Fine weight yarn:  10" wide x 13" tall x 6½" deep (25.5 cm x 33 cm x 16.5 cm)
Light weight yarn:  13" wide x 16½" tall x 8" deep (33 cm x 42 cm x 20.5 cm)
Medium weight yarn:  16" wide x 20" tall x 9½" deep (40.5 cm x 51 cm x 24 cm)

Yardage Needed

Use the table below as a guide when purchasing yarn for the Ice Box.

Color	#2 Fine  yards (meters)	#3 Light  yards (meters)	#4 Medium  yards (meters)
White	1,270 (1,161)	2,600 (2,377)	3,170 (2,899)
Yellow	650 (594)	1,300 (1,216)	1,625 (1,486)
Dk Brown	45 (41)	90 (82)	110 (101)

Crochet Hook Size & Gauge

A gauge is given for the Ice Box only (see [Gauge, page 94](#)). Below is the approximate hook size and gauge for each weight of yarn.

Yarn Weight	Hook Size	Gauge 2" (5 cm) square
#2 Fine	B (2.25 mm)	13 sc & 14 rows/rnds
#3 Light	D (3.25 mm)	10 sc & 11 rows/rnds
#4 Medium	F (3.75 mm)	8 sc & 9 rows/rnds

FOOD ITEMS & DISHES

Yarn Weight and Finished Size

The photo models in this book were made using fine weight yarns. You can use light or medium weight yarns instead, but the resulting finished sizes will be larger. In order for your food to fit in the Ice Box as pictured on page 3, it's important that you use the same weight yarn for all of the food items as you do for the Ice Box.

If you are making the pieces for individual display, all of the pieces don't have to be made in the same weight yarn. For example, the turkey can be made in medium weight yarn and the carrots and potatoes in fine weight yarn, making the turkey a lot larger than the carrots and potatoes.

So that you can see the size difference, the examples below show the Bread and the Large Tray made in fine and medium weight yarns. The loaf of bread made in fine weight is 2" (4.5 cm) tall and the medium weight bread is 3" (7.5 cm) tall.

Yardage Needed

Exact yardages needed for the food items and the dishes are not given, as a skein of yarn will make many items. Most food items and dishes take less than 20 yards for fine weight, 45 yards for light weight, or 55 yards for medium weight.

Crochet Hook Size & Gauge

Below is the gauge for each weight of yarn and the recommended hook size.

Yarn Weight	Hook Size	Gauge 2" (5 cm) square
#2 Fine	B (2.25 mm)	14 sc & 14 rows/rnds
#3 Light	D (3.25 mm)	11 sc & 11 rows/rnds
#4 Medium	F (3.75 mm)	9 sc & 9 rows/rnds

Gauge is not critical when making the food or dishes. Use the size hook that will make your crochet fabric dense enough to prevent the stuffing from showing through your stitches.

Yarn Colors

The yarn colors needed are given with each individual project. We used 32 different colors, but you can use as many or as few shades of each color as desired.

For example, even though we used a total of 5 greens, most of the food items using a green can be made with any of the greens.

The colors used are as follows:

TIPS

1

Stuffing: Add plenty of polyester fiberfill to the crocheted pieces to maintain the shape, but not so much that it will stretch the fabric and show through your stitches.

2

Yarn ends: Instead of weaving in yarn ends on an item that is stuffed, they can be inserted into the center of the stuffing. Make sure that the yarn used for embroidery is inserted in the center of the stuffing and doesn't show.

3

Sewing and Weaving: Use a tapestry needle for fine weight and light weight yarns and a yarn needle for medium weight yarn.

ICE BOX

Our Ice Box was made using a fine weight yarn. You can also use light or medium weight yarn but the finished sizes will be larger than for a fine weight yarn. See Getting Started, page 4, for finished size, yarn, hook, and gauge information.

Finished Measurements: 10" wide x 13" tall x 6¹/₂" deep (25.5 cm x 33 cm x 16.5 cm)

BODY ASSEMBLY

The measurements given below for the cardboard pieces are based on using fine weight yarn and achieving the gauge given for it. Adjustments will be needed if other yarn weights are used.

When instructed to cut a piece of cardboard, first measure the crocheted piece to be sure that the cardboard will be cut to the actual size, so it will fit nicely.

Cut a piece of cardboard 9¹/₂" x 12" (24 cm x 30.5 cm) and place it inside the Outer Body.

Cut a piece of cardboard 4¹/₄" x 44" (11 cm x 112 cm). Fold the cardboard 9³/₄" (25 cm) from the edge, then 12¹/₄" (31 cm) from the first fold and 9³/₄" (25 cm) from the second fold, leaving 12¹/₄" (31 cm) from the edge. Tape the two short edges together forming the last corner of an open cube. Place the cardboard inside the Outer Body against the Sides.

With **wrong** sides and top edges together, place the Inner Body on top of the cardboard. With White, whipstitch the pieces together (*Fig. 4a, page 96*).

SHELF (Make 3)

With White, ch 61.

Row 1 (Wrong side): Sc in second ch from hook and in each ch across: 60 sc.

Note: Mark the **back** of any stitch on Row 1 as **right** side.

Rows 2-52: Ch 1, turn; sc in each sc across.

Finish off.

Cut a piece of cardboard $3\frac{1}{4}" \times 9"$ (8.5 cm x 23 cm).

EDGING

Row 1: Fold Shelf in half lengthwise with **wrong** side together. Working through **both** thicknesses and in end of rows, join White with sc in first row at fold (*see Joining with Sc, page 95*); sc in next row and in each row across; sc in each st across; insert cardboard, sc in end of each row across to fold: 112 sc.

Row 2: Ch 1, turn; sc in each sc across; finish off leaving a long end for sewing.

SHELF ASSEMBLY

Using photo as a guide for placement:

Insert a Shelf inside the Body, $2\frac{1}{2}"$ (6.5 cm) from the top, folding the Edging up to form a ridge along the Sides and Back of the Ice Box. With White, sew the Shelf in place, allowing $\frac{1}{2}"$ (1.2 cm) for the Door Tray to sit when the door is closed. Sew another Shelf 3" (7.5 cm) below the first Shelf. Sew the remaining Shelf 3" (7.5 cm) below the previous Shelf.

Tape the two short edges together forming the last corner of an open cube. Place the cardboard inside the Outer Door against the Sides.

With **wrong** sides and top edges together, place the Inner Door on top of the cardboard. With White, whipstitch the pieces together.

GAUGE

Exact gauge is essential for the Ice Box to be the specified finished measurement. Before beginning the Ice Box, make the sample swatch given in the instructions in the yarn and hook specified. After completing the swatch, measure it, counting your stitches and rows carefully. If your swatch is larger or smaller than specified, **make another, changing hook size to get the correct gauge.** Keep trying until you find the size hook that will give you the specified gauge.

*GUIDELINES ONLY: The chart above reflects the most commonly used gauges and hook sizes for specific yarn categories.

** Lace weight yarns are usually crocheted on larger-size hooks to create lacy openwork patterns. Accordingly, a gauge range is difficult to determine. Always follow the gauge stated in your pattern.

*** Steel crochet hooks are sized differently from regular hooks—the higher the number the smaller the hook, which is the reverse of regular hook sizing.

JOINING WITH SC

When instructed to join with sc, begin with a slip knot on hook. Insert hook in stitch indicated, YO and pull up a loop, YO and draw through both loops on hook.

BACK OR FRONT LOOP ONLY

Work only in loop(s) indicated by arrow (Fig. 1).

Fig. 1

FREE LOOPS

After working in Back or Front Loops Only on a row or a round, there will be a ridge of unused loops. These are called the free loops. Later, when instructed to work in the free loops of the same row or round, work in these loops (Fig. 2a).

When instructed to work in free loops of a chain, work in loop indicated by arrow (Fig. 2b).

BEGINNER	Projects for first-time crocheters using basic stitches. Minimal shaping.
EASY	Projects using yarn with basic stitches, repetitive stitch patterns, simple color changes, and simple shaping and finishing.
INTERMEDIATE	Projects using a variety of techniques, such as basic lace patterns or color patterns, mid-level shaping and finishing.
EXPERIENCED	Projects with intricate stitch patterns, techniques and dimension, such as non-repeating patterns, multi-color techniques, fine threads, small hooks, detailed shaping and refined finishing.

CHANGING COLORS

To change colors as you are working the last sc of a color, insert hook in stitch indicated, YO and pull up a loop, drop color yarn you are using, with new color yarn (Figs. 3a & b), YO and draw through both loops on hook.

Fig. 3a

Fig. 3b

To change colors as you join a round with a slip stitch, drop color yarn you are using, insert hook in top of first stitch made, with new color yarn, YO and draw through stitch and loop on hook (Fig. 3c).

Fig. 3c

WHIPSTITCH

Sew through both pieces once to secure the beginning of the seam, leaving an ample yarn end to weave in later. Insert the needle from **back** to **front** through **both** loops on **both** pieces (Fig. 4a). Bring the needle around and insert it from **back** to **front** through next loops of both pieces. Continue in this manner, keeping the sewing yarn fairly loose.

Fig. 4a

When joining rows, work in same manner, inserting needle from **right** to **left** through end of rows (Fig. 4b).

Fig. 4b

Labels can be whipstitched to a crocheted piece in the same manner. Insert the needle through the crocheted piece, then through both loops of a stitch or row on the Label.

WEAVE THROUGH STITCHES

Thread a yarn needle with the long end left at the end of a piece and weave it through the stitches on the last round worked (Fig. 5).

Fig. 5

EMBROIDERY STITCHES

BACKSTITCH

The backstitch is worked from **right** to **left**. Come up at 1, go down at 2 and come up at 3 (Fig. 6). The second stitch is made by going down at 1 and coming up at 4.

Fig. 6

STRAIGHT STITCH

Straight stitch is just what the name implies, a single, straight stitch. Come up at 1 and go down at 2 (Fig. 7).
