Note: I like the look of the wrong side of the crochet piece. To get the wrong side of the work to become the outside of the jar, you have to crochet round 8, 23, and 24 in the front loops. If you prefer the right side, you would crochet rounds 8, 23, and 24 in the back loops. This applies to the strawberry jar as well.

Note: This piece will be on the inside of the jar and won't be seen so you don't have to decide whether you like the right or the wrong side.

Labels

I have given you 2 options for the labels, either a paper one or a crochet one

1. Print labels from pattern and trim.
2. Cover each label with cellophane tape, overlapping strips of tape to cover the label completely. Cover both sides of the label. Trim away excess tape, leaving a scant margin of tape on all 4 sides. Punch 2 holes in each corner with sharp needle or you could use a small hole punch if you have one. Sew label to the jar using one ply of yarn. Note: Don't sew the label too close to the rim of the jar where it might interfere with the lid.
