INTRODUCTION

If you are tired of knitting jumpers and cardigans and have lots of leftover wool, then this exciting book is for you. Realistic and lifelike animals can be created by following the step-by-step instructions for each pattern. You will be able to create a collection of your own delightful Australian animals.

I originally designed a basic ball pattern with the view of knitting toys for our grandchildren. The Australian animals developed from this. Because of the enthusiastic response from my family and the local craft shop, I enlisted the help of my daughter Stephanie to prepare and computerise a selection of patterns for printing.

Designing these patterns has given me a great deal of pleasure and I am happy to be able to share them with you.

BASIC INFORMATION

Materials and Equipment

- . Quantities of 4, 8 and 12 ply wool, 12 ply Mohair and acrylic yarns as outlined in each pattern — it is important that wool and needles specified are used or results cannot be guaranteed.
- . Scraps of coloured wools in 4, 8 and 12 ply as required in each pattern.
- . Sets of 4 needles — 2.50mm, 2.75mm, 3.00mm and 3.25mm.
- . Medium or fine crochet hook for finishing.
- . Small safety pin for use as a marker and holder.
- . Stitch holder.
- . Tapestry needle for sewing pieces together
- . Large eye embroidery needle for when embroidered markings are required.
- . Sheet of paper for jotting down row numbers.
- . Pencil for marking off each row before knitting.
- . Small pair of scissors.

Safety

Any of the animals that contain pieces of dowel are not suitable as children's toys. Make sure that all attachments are firmly joined, and never sew on attachments such as buttons or sequins if you intend giving the animal to a small child.

echidna facing away from you, insert crochet hook into a st above front leg at side of head. Pull the fold halfway through, towards tail end, forming a loop. Draw the 2 ends through loop, thus

completing one quill, and tug slightly to secure. Work quills in rows across the top of head and over the body, leaving approx 1 cm between each row.

Trim ends when body is covered.

EMU AND CHICKS

Emus are large flightless birds, with powerful legs that carry them up to 40 kilometres per hour and deliver a dangerous kick in defence.
