IMPORTANT:-

As different dye-lots should not be worked into the same garment, it is most important that you should make sure of having sufficient wool from the one dye-lot to complete the garment. Each dye-lot has a separate letter, which is shown on the band or skein ticket.

Details for larger size are given in square brackets. Where only one set of figures is given this applies to both sizes.

TENSION:- Coat with 'V' neck. 16½ sts. in width to 2 inches and 10½ rows in depth to 1 inch measured over stocking stitch on No. 10 needles.

Coat with Round neck. 8 sts. (2 patts.) in width to 1 inch and 11½ rows in depth to 1 inch measured over pattern on No. 10 needles.

READ THIS BEFORE COMMENCING

The size of the finished garment depends on the **TENSION**. If the tension is too loose the garment will be too large; if the tension is too tight the garment will be too small. For a perfect result the correct tension and the Ladyship wool specified should be used. If you cannot produce this tension on the needles stated, try a size smaller needle if too loose; try a size larger needle if too tight, until correct tension is obtained.
