HINTS ON MAKING UP

When the Knitting is finished, pin out each piece, wrong side up, to the required shape and measurements, and press with a hot iron under a damp cloth. Use plenty of pins—one about every inch round the edges of the garment.

When stitching, draw the seam edges together, taking a stitch into each alternate row of the knitting, and keeping the join as flat as possible. Press the seams on the wrong side.

WASHING INSTRUCTIONS

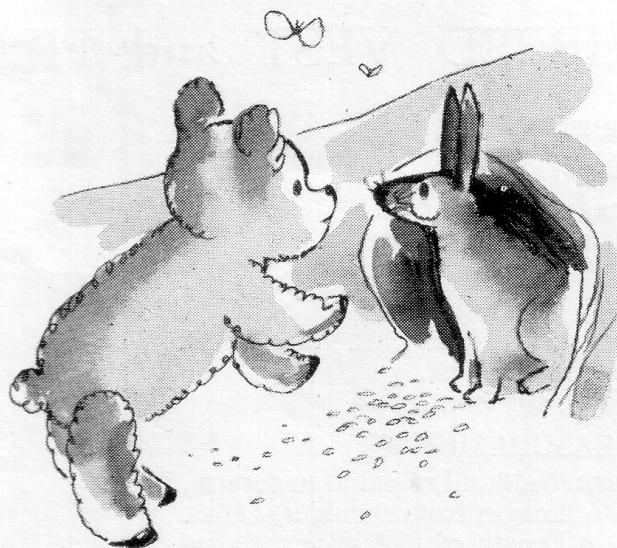

Remove any buttons which are not washable, also all ribbons. Make a lather with soap flakes, make the water lukewarm, and put the garment in. Squeeze the soapy water through it until the garment is clean. Do not rub directly on to it unless there are very dirty patches that will not come clean in the flakes. Do not stretch the wet garment in any way, and support with the hands when lifting from the water. If the garment is very soiled, two soapy waters may be required. Rinse thoroughly in water of the same temperature as the soapy water. Squeeze out as much water as possible with the hands. Do not "wring" the garment with the hands but put the garment through a wringing machine if desired. Pull gently into shape, then spread out on a flat surface to dry. If most of the water has been squeezed out of the garment, it may be hung over a rail, but it should not be pegged out on a line. Dry slowly, and when almost dry, press on wrong side.

TENSION

The tension of the knitting controls the size of the finished garment. Before commencing cast on 15 sts. and work in one row knit, one row purl for 20 rows. If your sample has less sts. per inch than our tension, try again on smaller needles and vice versa, then work the garment on the needles which produce our tension.

TWISTED CORDS

Take three strands of wool three times as long as the finished cord is required to be. Knot the three strands together at each end. Place one end over a hook, place a pencil in the other end, and twist in one direction until it will twist no more. Holding each end firmly, knot together, and the cord will twist itself.
