★ — work instructions following ★ as many **more** times as indicated in addition to the first time.

† to † — work all instructions from first † to second † as many times as specified.

() or [] — work enclosed instructions as many times as specified by the number immediately following or work all enclosed instructions in the stitch or space indicated or contains explanatory remarks.

work even — work without increasing or decreasing in the established pattern.

GAUGE

Correct gauge is essential for proper fit. Needle sizes given in instructions are merely guides and should never be used without first making a sample swatch approximately 4" square in the stitch, yarn, and needle specified. Then measure it, counting your stitches and rows carefully. If you have more stitches per inch than specified, try again with a larger size needle; if fewer, try again with a smaller size. Keep trying until you find the size that will give you the specified gauge. DO NOT HESITATE TO CHANGE NEEDLE SIZE TO OBTAIN CORRECT GAUGE.

REMINDERS

Increases are made by working into the front **and** into the back of the same stitch.

Decreases

K2 tog — Knit two stitches together.

P2 tog — Purl two stitches together.

SSK — Separately slip two stitches as if to knit (**Fig. 1a**). Insert **left** needle to the **front** through both stitches (**Fig. 1b**). Knit together (**Fig. 1c**).

YARN

Photographed garments were made using Fingering Weight Yarn. Any Fingering Weight Yarn, that lists gauge on the label as 7 sts = 1" in Stockinette Stitch, may be used.

The Blankets were made using Sport Weight Yarn. Any Sport Weight Yarn, that lists gauge on the label as 6 sts = 1" in Stockinette Stitch, may be used.

It is best to use yardage to determine how many balls or skeins to purchase. Remember, to arrive at the finished size, it is not the brand of yarn that matters, but the **GAUGE** that is important.

MARKERS

As a convenience to you, we have used markers to help distinguish the beginning of a pattern. Place markers as instructed. You may use purchased markers or tie a length of contrasting yarn around the needle. When you reach a marker on each row, slip it from the left needle to the right needle; remove it when no longer needed.

ADDING NEW STITCHES

Turn work around so needles are reversed, then insert right needle into stitch as if to **knit**, YO and pull loop through (**Fig. 2a**), slip loop just worked back onto left needle (**Fig. 2b**). Repeat for required number of stitches.

Fig. 2a

Fig. 2b

PICKING UP STITCHES

When instructed to pick up stitches, insert the needle under two strands at the edge of the worked piece (**Figs. 3a & b**). Put the yarn around the needle and pull it through, making a stitch on the needle. Repeat along the edge, picking up the required number of stitches.

A crochet hook may be helpful to pull yarn through.

Fig. 3a

Fig. 3b

FINISHING

As in all garments, good finishing techniques make a big difference in the quality of the piece. Do not tie knots. Always begin a new ball at the beginning of a row, leaving ends long enough to weave in later.

We have made every effort to ensure that these instructions are accurate and complete. We cannot, however, be responsible for human error, typographical mistakes or variations in individual work.

Items made and instructions tested by Lisa Hightower, Carole Holder, Pat Little, Patti Oonk, Dale Potter, Hilda Rivero, and Carol Thompson.
