Dear Readers,

In one of our previous editions, we asked you to let us have your criticisms and your ideas, so that we could make our future albums even more tasteful and pleasing, and we have been delighted by your response. It has been the mothers in particular who have written, and working from their letters and ideas, we have been able to compile this new layette album.

You asked for pretty little dresses, traditional Christening outfits, ideas for presents for a young mother and her new baby, and especially for garments in a wider range of sizes. The following pages contain all of these, plus the usual tops and pants, coats, quick, easily made outfits, sensible little sweaters and amusing dungarees, and not forgetting some decorative items for the nursery.

The special patterns for 'beginners' seem to be very popular with you, so this time you have two of each (two knitting, two crochet) with guaranteed success in each one. You also asked for a better balance between the classic and the fashionable, and we hope we have succeeded.

Here then is a new Mon Tricot, compiled not only 'for' you, dear Readers, but in a certain measure, 'by' you, and we truly hope that you will be as proud as we are of the result of our collaboration.

It's baby's big day; he is going to be baptised. Here he is in the arms of his godmother, wearing a lovely bonnet, crocheted in fine wool. You can make his complete outfit yourself. Look on page 10 and you will find there is a gorgeous long dress to match the bonnet, crocheted in arc stitch and decorated with flowers made on a flower loom, in a delicate shade of pink.

what you must know

CASTING OFF

This is done to finish the work, and is also used during course of work.

CASTING ON

This is the collection of stitches made on a needle at beginning of work.

In knitting: For the first stitch form a slip knot with the loop on left needle. Insert right needle into loop, pass yarn round needle, pull loop through on right needle and slip it on left needle thus forming a second stitch. Continue in this manner for required number of stitches.

In crochet: Form a slip knot with the loop on crochet hook, pass yarn over hook and pull a loop through thus forming one chain. Continue thus for number of required chain, leaving one loop on hook at end of chain.

DECREASING

A decrease in course of a row is usually made by working 2 stitches together. To decrease a number of stitches at each end of row: -

In knitting: Cast off number of required stitches at beginning of a row.

In crochet: Leave unworked required number of stitches.

beginners:some hints and reminders

It's been a long time since you did any knitting, or perhaps you have never had the time, but suddenly you are tempted by one of these attractive, easy-to-make garments.

And yet you hesitate; you aren't quite sure how to begin. Read the following, which will remind you, or teach you, just how easy it is to knit or crochet.

choose your model well

Choose preferably one of those shown on our special Beginners' pages. Check to see whether it is knitted or crocheted. Is it in the right size for your requirements? Look at the chart of sizes and decide which size will be the most suitable for your baby.

get to know your abbreviations

(see on page 5)

size chart

Age	Height	Weight
BABIES		
Birth to 3 months	19 1/2"	7 lbs
3 to 6 months	23 1/2"	13 1/2 lbs
6 months to 1 yr.	27 1/2"	18 lbs
1 yr. to 18 months	31 1/2"	23 1/2 lbs

This table gives the average height and weight of a child from birth to 18 months and will enable you to choose the size of garment to knit bearing these in mind rather than the age of the child.

before starting to work :

Collect together the things you will need; needles or crochet hook, yarn, etc. and add to these a tape measure. If you are a beginner, pay particular attention to the instructions given for the thickness of the yarn and the size of the needles or hook.

Read the instructions through carefully to make sure that you fully understand the different stages of the work you are about to undertake. Work small samples to practise any part of the pattern which strikes you as being complicated; fancy decreases, motifs worked

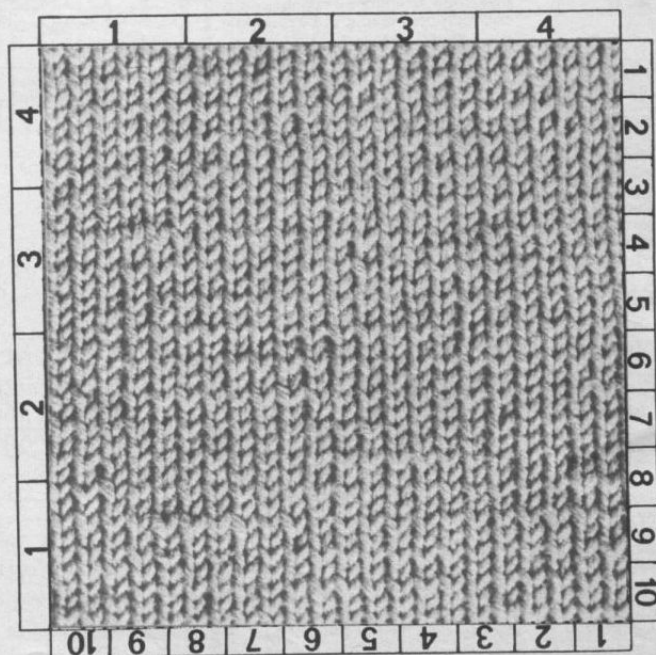

in the stocking stitch, and anything else which is not currently used.

Work a 4" sample square in the main stitch, working without pulling on the yarn, but not, on the other hand, too loosely. Press this sample carefully, following the instructions given on the wrapping band.

For a knitted garment, cast on the stitches using the method you find the easiest (see the Mon Tricot workbook, Learn and Perfect Knitting'). For a crocheted garment use a size larger hook than that given in the instructions so that the foundation chain is easy to work: you will use the size of hook indicated, for the rest of the work.

tension

We must insist upon the importance of working a sample to check the tension. This is the only way to check that your way of working

corresponds with the tension given at the beginning of all our patterns, and if not, to correct it, so that you can follow our instructions and make a garment which is the right size.

If your sample square is smaller than ours, you are knitting too tightly; work another square using a size larger needles. If your sample square is larger than ours, you are knitting too loosely; work another square using a size smaller needles.

A sequence of stitches given between two asterisks is that which is necessary to reproduce a certain stitch or pattern. This sequence should be repeated as many times as possible in one row, unless a specific number of repeats is given. Selvedge stitches and any other stitches which might be given before or after the asterisks to give balance to the pattern are only worked once; they are never repeated.

SOME HELPFUL ADVICE

knitting and crochet

So that the yarn unwinds smoothly and regularly, use the yarn from the centre of the ball.

knitting and crochet

The selvedge stitches which go to make the seams of a garment in knitting or crochet are always included in our patterns and diagrams. When knitting you can avoid the edges rolling inwards by working the two stitches at each of every row in garter stitch. The edges of a piece of work in crochet never roll. Very often the pieces of a garment in crochet are joined together edge to edge, in which case we indicate this in our instructions for the making-up, and our instructions and diagrams should be followed most carefully.

knitting and crochet

In knitting, one row means the number of stitches gathered together on one needle. Working back on the wrong side of work and onto a second needle makes a second row. In circular knitting (on a circular needle or on a set of four needles) one row is a complete round. Casting-on does not count as a row, so that the first row is that which is worked on the cast-on stitches. This is, unless otherwise indicated, the first row on the right side of work.

In crochet, one row is the number of stitches necessary to work across the width of the piece being worked. Working back on the wrong side makes a second row. The first row is that which is worked on the foundation chain, and is, unless otherwise indicated, the first row on the right side of work.

knitting and crochet

Unless otherwise indicated, all uneven numbered rows are on the right side of work and all even numbered rows are on wrong side of work. To determine whether the next row will be a right side or a wrong side row when you start knitting after a pause, take a look at the length of yarn left hanging at the beginning. With the right side of work towards you, this length of yarn should be at the left.

knitting

To count the number of rows over garter stitch, remember that each raised line of stitches represents a row and each space between represents another row.

knitting and crochet

To work a second side of a garment you are instructed to reverse the shapings. All this means is that you work the shapings at the opposite edge.

knitting and crochet

For layette garments it is better to work an overcast or whipstitch seam to avoid any bulkiness.

KNITTERS' LETTERS

Here is a "hint" which I thought might interest those of your readers who do a lot of crocheting. When working the foundation chain of a piece of work in crochet, I use the yarn double, then continue working with single yarn.

In this way it is much easier to work the first row, and the edge does not pull.

Mrs. NAISMITH - England

The instructions for some garments are given in several sizes. Before I start working, I go through the pattern and ring with red pencil the figures which correspond with the size I require.

This makes reading the pattern much easier and there is no chance of making a mistake.

Mrs. EDWARDS - England

Here is an idea which will help beginners in particular to follow a pattern without difficulty.

When I am making something which has two identical pieces but which necessitates reversing the shapings on the second piece, I write out the instructions again with the necessary changes for the second piece. This means there is no danger of any mistakes in the increases and decreases.

Mrs. JACKSON - U.S.A.

To knit something in two colours, changing colour on each row, but without breaking the yarn and using only one ball of each colour, I use double pointed needles.

In this way I can knit two rows starting them both at the same end and using a different colour for each; the two return rows are worked in the same way.

This method also enables me to work in honeycombe pattern in two colours or other patterns.

Mrs. MOUCHE - France

method

With size 12 hook make a ch. of 58 sts. and work in half-trebles and on the 2nd row inc. 1 st. in every 3rd st. by working 2 hrs. in one st. (77 sts.) On the 44th row inc. in every 4th st. (96 sts.) On the 5th row inc. in every 5th st. but in course of row miss 1 st. twice (113 sts.) On the 6th row inc. 1 st. in every 6th st. missing 1 st. 3 times in course of row (129 sts) On the 8th row inc. 1 st. in every 7th st. (148 sts.) On the 10th row inc. 1 st. in every 8th st. missing 1 st. in course of row (166 sts.) At the end of the 12th row work 4 rows dc. along the left edge of yoke on 16 sts. Then on right edge of yoke on 16 sts. work 2 rows dc. and on the 2nd of these rows make 3 buttonhole loops

thus:- 1 dc. * 3 ch., miss 3 sts., 3 dc. * rep. * to * once more, 3 ch., and 1 dc. in last st. Then begin the flared sleeves. Leave unworked the first 20 sts. On the next 43 sts., with size 12 hook, work the first round of pattern thus forming 7 motifs; then 6 ch. (for underarm) and sl. st. into the same st. as the first dc. On wrong side, with size 11 hook work the pattern between * and * of the 2nd row of pattern beginning and ending with 1 dc. in the first and last motifs of the first round. (6 motifs). Leave the next 40 sts. of yoke (for front) and work the second flared sleeve as for the first one on the next 43 sts. Then work in rounds in pattern for skirt, beginning the first dc. at the bottom of the 2 rows in dc. at right edge of yoke. Work the 4th motif in the same st. as that at beg. of the first flare; then miss 2 sts. of cast-on chain of underarm, work 1 dc. in next st., miss 2 sts., and work 1 motif in the last ch. Continue the round on the sts. of front; work on the 2nd underarm ch. to correspond with the other side and end the round with 4 motifs on the bottom of yoke, working the last dc. in the same st. as the first, crossing the button-band under the buttonhole band. Continue in pattern in rounds. On the 12th round change to size 11 hook and at the end of the 17th round, fasten off. Sew on buttons.

especially for beginners

first attempts, success guaranteed

Even if you have never held a pair of knitting needles before, you are certain of success with one of these models, or why not both, which are so simple to make because:

The only stitches used are garter stitch for the rompers and stocking stitch for the rompers and stocking stitch and rib for the dress.

- Their shape was particularly designed to avoid difficulties: for instance, the kimono style of the dress means that there is not the usual problem caused by classic armholes.
- The finishing touches have been reduced to a minimum, and the border of the rompers is very cleverly worked without any complications.

13 - The skirt of this little dress is in stocking stitch; the bodice, the kimono sleeves and striped bib are in double rib. (4 ply yarn).

14 - Sleeveless rompers worked entirely in garter stitch, with square neck and shoulder buttoning. (Double knitting yarn.)

first attempts, success guaranteed (cont.)

No doubt you will be surprised that you can succeed so easily, but in spite of appearances, neither of these delightful models presents any problems.

- Both are worked entirely in the most elementary of crochet stitches: the double crochet.
- Their almost geometric shapes

means that there are few increases and decreases.

- The making-up is extremely simple.
- Finally, in spite of what you might think, the side to side working for the djellabah is as easy as the more conventional method.

TO SEW AND KNIT YOURSELF

Since you already knit for them, why not sew as well? This month, we have chosen for you, from amongst the Marie-Claire patterns, a pinafore dress for your little girl and towelling dungarees for your little boy. Two simple patterns which you can make-up in an afternoon.

DRESS - Marie-Claire pattern no. 22013

For the 2 yr. old size you will need $\frac{3}{4}$ yd. of printed towelling, 40" wide.

The neck, armholes and pocket are bound with 1 $\frac{3}{4}$ yds. of bias binding.

This pattern is for sizes 1 to 5 yrs.

DUNGAREES - Marie-Claire pattern no. 23004

For the 1 yr. old size you will need 1 $\frac{3}{8}$ yds. of stretch towelling, 40" wide.

You can decorate the bib with an appliqued motif or a pocket.

This pattern is for sizes 8 mnths to 4 yrs.

Make a complete outfit by knitting the cardigan and jumper, which if knitted in the same colour and the same size, will also make a very pretty twin-set.

55 - CARDIGAN

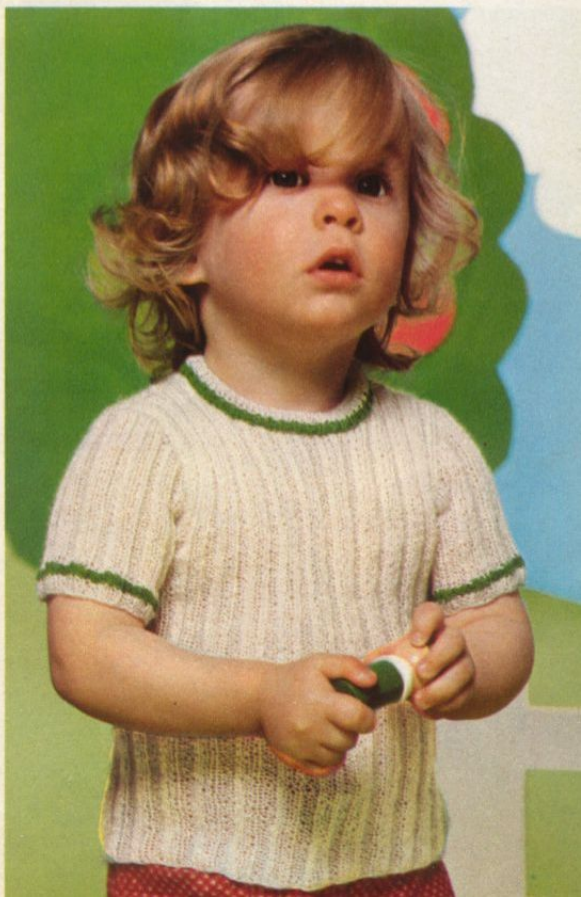

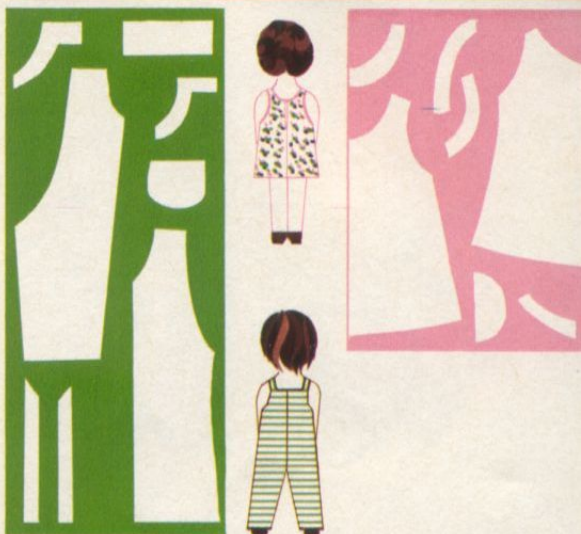

knitted in double rib and underlined in white. (Cotton yarn.)

56 - JUMPER

also knitted in double rib; round neck and sleeves trimmed with green border. (Cotton yarn.)

WHY WE CHOSE THESE PATTERNS

- Dungarees are an ideal garment for small children and are quickly and easily made.
- By changing the material you can make several different dungarees. We suggested stretch towelling for this model, but you could also use cotton, needlecord or denim.
- The sensible fastening between the legs is by means of press-studs on a length of tape, which you can buy ready-made. The shoulders fasten with the same system.
- The dress can be made in two hours.
- If facing the neck and armholes is too difficult for you, stitch ready-made bias binding round neck and armholes on right side of work before stitching the side seams (that is to say with front and back lying flat). This will make it easier to place the bias binding and you can turn it onto wrong side when the dress is completed. Stitch in place on wrong side with a tiny hem stitch.
- This pattern can also be used for a winter pinafore dress in wool or velvet.

See order form for instructions on how to obtain these patterns

OFF ACROSS THE MEADOWS

For playing, we love all-knitted outfits; light sweaters and dungarees, especially when they are decorated with amusing motifs; snail or cat.

57/58 - "Cat" dungarees are also in stocking stitch, decorated on the front with a big crochet cat. **Sweater** in stocking stitch also. (Double Knitting.)

59/60 - "Snail" dungarees in stocking stitch with bib and pocket embroidered with snail motif in satin stitch and stem stitch. **Sweater** in double rib. (Double Knitting.)

"BABY" OR "LITTLE LADY"

Both styles have their charm and are well suited to those little girls who like to look pretty, even when they are working.

61/62 - A knitted dress with yoke in mock honeycombe stitch, and matching **pants**. (Double Knitting.)

63 - An A-line dress with short sleeves in twisted stocking stitch. Boat neckline; all outlined in white. (Cotton yarn.)

THE COLD BECOMES A FRIEND...

...if you face it in a comfortable
jacket and hat, or a thick,
hooded coat.

64/65 - The jacquard motif on
this long, **zip-fronted jacket**,
is repeated on the ear-flaps of the
hat. (Double Knitting yarn.)

66/67 - A **belted coat** in double
moss stitch, edged with garter
stitch. The matching hat is all
in garter stitch. (4 ply yarn.)

68 - This **three-quarter jacket**
with hood is in stocking stitch
and cable. (Triple Knitting.)

elegance- in- waiting

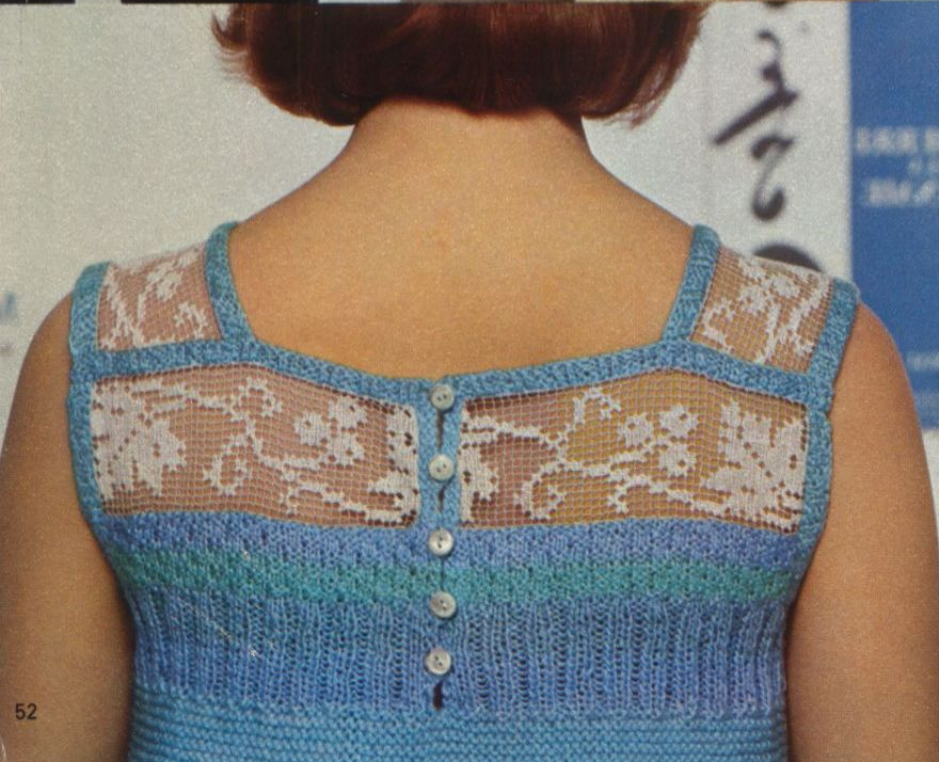

The mixture of stitches, lace and soft colours makes for a simple but beautiful tunic dress.

69 - A tunic knitted in garter stitch but with rib and double moss stitch for yoke which has an insertion of bought lace. (Cotton yarn.)

choose “your” bedjacket

Before or after the ‘event’, this is a very useful garment, and very feminine. This particular model has the advantage of being able to be made in five different versions, depending on the stitch you choose.

70 - The pretty bedjacket is drawn in at the waist and cuffs by the double rib. Shown here in reverse ridge stitch, it can also be made in contrary reverse ridge stitch, hurdle stitch, Eiffel Tower. stitch or in wide basket stitch. See Photographs below. (4 ply yarn.)

to make

COT COVER

Mark off a rectangle $27 \times 16 \frac{1}{2}$ " in the centre of the piece of linen, then divide this rectangle into $3 \frac{1}{2}$ " squares (there will be eight in length and five in width). Measure out on a sheet of white paper a chart for each of the 8 motifs of cot cover, using our charts as a guide and enlarging them by making your squares $11/16$ ". The designs on each of our charts can now be reproduced on the larger charts making sure that each line follows exactly the original lines, and then using tracing paper you can transfer the outlines onto the squares marked in centre of linen, placing them according to the chart given. The motifs can now be embroidered as follows:-

Motifs 1 and 2 in col. (A).

No. 1. The central disc. is embroidered in long and short stitch and each ray in satin stitch.

No. 2. Embroider each disc in satin stitch and all the rays.

Motifs 3 and 4 in col. (B).

No. 3. Embroider each cloud in satin stitch.

No. 4. Embroider the top part of the cloud in long and short stitch and the bottom part in vertical satin stitch of the width indicated by the lines.

Motifs 5 and 6 in col. (A).

No. 5. Embroider in horizontal satin stitch of the width indicated by the lines.

No. 6. Embroider each star in satin stitch and the trails in back stitch.

Motifs 7 and 8 in col. (C).

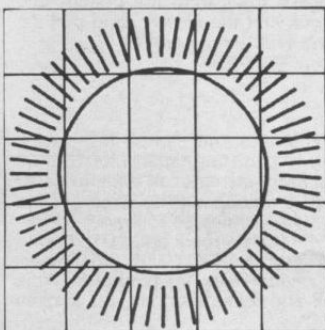

No. 7. Embroider each crescent moon in long and short stitch.

No. 8. Embroider in horizontal satin stitch of the width indicated by the lines.

Prepare the border. Cut a strip of the blue cotton material $2 \frac{1}{2}$ " wide and long enough to go all round the edges of the cover. Fold this strip over the piping cord or wadding then tack in place all round the edges of the piece of linen; stitch close to the piping at $\frac{1}{2}$ " from the edge. Turn $\frac{1}{2}$ " all round onto wrong side so that a border is formed by the blue piping. Cut a rectangle of blue cotton slightly bigger than the rectangle of nylon wadding, then cover the wadding with the cotton, turning the edges of the cotton over onto wrong side. Now stitch to the back of the piece of linen with wadding inside and stitching up against the blue piping. Using col. (B) saddle stitch through all thicknesses at centre of cover, following the lines which form the squares at the centre.

**sure-hit models

every occasion**

ENGLISH EDITION valid: July 1974

Through Mon Tictot, MARIE-CLAIRE, the most widely read of all women's magazines in France, puts Paris fashions at your "scissor tips". Marie-Claire patterns range from Christening gowns to evening gowns; from children to outsize, and come in plastic envelopes.

There is an illustration of the model itself, plus several sketches showing the various steps for making-up, the lay-out for cutting and a measurement chart.

The patterns are printed on strong paper so that they can be pieced together with adhesive strips for fitting before cutting. Each pattern comes in **3 sizes.**
