Knits for two to six year olds

You knit for your children and for a long time you have been telling us you would like a magazine for two to six year olds: Here it is!

From the light pullovers to the heavy hooded jackets, this collection which you can make yourself, will keep your little ones warm all year round.

The ultra-classic and ultra-practical shapes such as polo shirts, T-shaped or V-necked tank tops are personalized by the choice of textures: mercerized or natural cotton yarns, tweed or bouclé yarns, rustic or cabled yarns. By the blending of raised stitches: ribbing, giant garter stitch, raised double crochets, aran knit cables, and by amusing details such as the jacquard cat's head and the mitten-pockets.

Improve your technique in making socks on two or four needles. See how easy they are to make for tiny little feet. From left over pieces of fabric, knit'n sew your own gifts. And please keep sending us your suggestions as to what you would like to find in your magazine.

Before the children go back to school, we will have an issue for the six to twelve year olds. And when we meet again in a month, you will find the "Sun-Fashions" to make for the summer.

The Editor.

*asterisks and parentheses

are signs used in knitting patterns to delimit a sequence of stitches to be repeated throughout the row, or as many times as specified after the last sign. This avoids unnecessarily long instructions. Stitches appearing before or after the asterisk are worked only once. It sometimes happens that in complicated patterns, other stitches have to be repeated within the limits of the asterisks. In these cases, supplementary signs such as ² and [] are used.

dear knitter,

We do not sell the materials indicated in our book.

This is why we try to recommend only materials very largely diffused and therefore available at your nearest yarn shop or knitting wool department.

If not, we only can advise you to select the most similar material and to adapt it to your problem with your creative originality.

At every step of the editorial and printing process, our instructions have been checked. However, MON TRICOT cannot take responsibility for any error which may occur in the texts.

Before writing to us for further information, please check first that you had the same GAUGE as given, with your yarn and needles.

Sincerely yours the editor

indispensable for successful knitting the gauge

You must stress the importance of the sample square, as it enables you to check whether your knitting corresponds with the gauge we give at the beginning of our patterns, and if necessary to make the correction which will permit you to follow the instructions without any problems and to make the garment to the size you have chosen.

If your sample is smaller than ours then you are knitting tightly. Work another sample using a size larger needles. If your sample is larger than ours, you are knitting loosely. Work another sample using a size smaller needles.

for perfect knitting and crochet results

THE GAUGE SAMPLE

Work a sample square 4" by 4" and compare it with the gauge given in our pattern. If yours differs from ours, change your needles or crochet hook.

THE PAPER PATTERN

(this is essential for crochet patterns)

1. Use large sheets of squared paper.

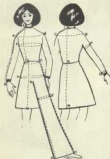

2. In black, reproduce life-size the small sketch given with our pattern and using our measurements.

3. In red correct this drawing to match your measurements.

weaving

Grafting is a method used to join two pieces of knitting together. It consists of forming another row of stitches between the two pieces of knitting, with the aid of a darning needle, thus making an invisible seam. This method is mainly used when a sewn seam is undesirable: i. e. to join a facing to the right side of a collar, or to join the two ends of a band of biasknitting.

stockinette stitch

The free stitches should be linked together one by one as shown in the above diagram. The grafting stitches are shown in a darker shade to make it easier to follow the sequence of stitches.

reversed stockinette stitch

The stitches are linked from bottom to top as shown by the needle in the diagram and then from top to bottom as shown by the arrow. The work can of course be turned and the pieces grafted together as for plain stockinette stitch.

garter stitch

Here there are two movements. The first is shown by the needle in the diagram, and the second and third by two arrows.

rib

For this it is necessary to combine the two methods shown in diagrams 1 and 2, working each method according to the number of stitches in the rib. Two pieces of rib can only be joined together easily if they have been knitted in the same direction.

Socks

Hand knitted socks are more than ever in fashion for children as well as for adults. Here you will find the different ways of making them, their qualities and their drawbacks.

They can be made with two or four needles. Each technique presents a preponderant quality which will help you make your choice.

ON TWO NEEDLES

The tube-style socks, shown on opposite page, are very simple and the easiest to make.

The socks worked flat, which (see the web shown on page 35, are the easiest to make.

The Italian-style socks, that we will give you in our next issue are the easiest to mend when needed.

ON FOUR NEEDLES

The socks knitted in rounds, shown on page 10 and the socks of the layette ensemble shown on page 61, are the most classic and are seamless.

Whatever technique you choose, you have to knit:

- for the leg, the border and the cuff
- for the foot, the heel and the toe, except for the tube-style socks, knitted without shaping the heel.

The border can be made in 1/1 ribbing like our tube-style socks or our 2/2 ribbing socks. The border can be wide or narrow depending on whether you wish to make a cuff or not, like our cable design socks, shown on page 10.

To get the 1/1 ribbing to fit better, and to prevent the socks from falling down, you can make the tubular or simply cast-on and draw in an elastic thread through all the ribbing rows or rounds. You can draw in this thread through the stitches with a tapestry needle or you can draw it through the ribbing. If you are making cuffed socks, it is better to draw the

elastic thread through the rows of ribbing hidden by the cuff. The techniques of the casting-on and of the elastic thread are given in the "Knitters' Bible Book", Volume 1.

A hem through which you pass some elastic. The fold line of this hem can be marked by a line, either by a cat's tooth hem (see our openwork design socks on page 10), or by a purl row or round worked on the right side of work (jacquard design socks shown on page 22).

This hem is preferably sewn with a herringbone stitch, or closed as you knit. For this, once the hem is completed, unravel the cast-on row, then with a spare needle, pick up the stitches thus freed, and continue your work knitting together on the first row one stitch from your work and one stitch from the spare needle.

The cuff, if worked in stockinette stitch or in a fancy stitch, or in ribbing which exactly takes the

shape of the leg (the tube-style socks have to be worked in ribbing).

The curve of the calf is obtained by decreases started at about 1/4 of the height of the leg and worked at regular intervals. These decreases are worked at each end of the row, if the socks are knitted on two needles; or on both sides of the center back stitch, which marks the center of the heel, if the socks are knitted on four needles. This stitch can be purled to simulate a back seam, like for our openwork design socks shown on page 10.

The heel is worked on half of the stitches which remain at the ankle. There are different ways of shaping a heel, but as a general rule, for the best fit, a heel should be as long as it is wide.

The stitches of the heel and of the sole are most often knitted in stockinette stitch. To reinforce the heel, we advise you to work the stitches of the heel in honeycomb stitch, twisted stockinette stitch, or else to work some cotton or nylon thread of the same color with the yarn you are using.

When the heel is completed, you continue on instep stitches and on sole stitches. On this

part of the work, while the sole stitches are being worked in stockinette stitch, you continue on the instep stitches, in the same pattern as the one used for the leg. Then again work in stockinette stitch on all stitches, for shaping the toe.

The toe can also be worked in different ways as shown in our designs. The toe usually takes up about a quarter of the total length of the foot. In our next issue, we will give you a size chart with the corresponding length of the foot. This will help you to figure out the length to knit between the heel and the toe for each size.

Then work in 1/1 ribbing for 4 rows, and work 1 row working 2 sts together across row. Break yarn leaving a long enough length to thread through the remaining sts. Gather and with a few sts, fasten securely.

The tube-style socks with no-heel shaping are all knitted on two needles in 2/2 ribbing and closed by weaving. It is an ultra-easy pattern, and since the heel is not shaped, it is better to use it for babies or as heavy sport socks to be worn with ski or hunting boots, for example. Striped or multi-colored, the tube-style socks are young and fun to wear with country-clogs.

directions

Cast on 36 (40-44) sts evenly distributed on 3 needles, and work rounds in at. Work 5 rounds, **next round:** work eyelets thus: *yo, P 2 sts tog., rep. from * around, for cat tooth's hem. Work 5 rounds in at.

Hem: Unravel the cast-on row, slipping each loop on needles; fold hem along eyelets, then K 1 round, knitting tog. each at with corresponding loop. Cont. in rounds and at st. Purl 1 st on every round to mark the center of back, and simulate the back seam. Work even until piece measures 4 1/4 (4 3/4-5) from eyelets, then dec. for calf thus: (on the 5 sts at back of leg) SKPO (slip 1 st, K next st, pass slipped st over), P 1, K 2 tog. Rep. these decs. once more, at 10 (12-12) rounds intervals.

At same time, as the first decs., on each side of leg, begin openwork pattern. On the 5 sts before and after the 11 (13-16) front leg sts, work thus: K 2 sts tog., yo, K 1, yo, SKPO. Repeat openwork pattern, on every other round, until piece measures 6 1/4 (7-8) from leg.

Shape heel:

K 15 (17-19) sts (the P st for back seam being in center), leave rem. 17 (19-21) instep sts on 2 needles. Work in at. on all sts (do not purl the center, at anymore) for 12 (14-16) rows, end purl row. Then shape heel as follows: K 9 (10-11) sts, SKPO, K 1, turn; slip 1 st, P 4, P 2 sts tog., P 1,

turn; slip 1 st, K 5, SKPO, K 1, turn; slip 1 st, P 6, P 2 sts tog., P 1, turn; cont. working in same manner until no sts remain at each side - 9 (11-11) sts remain, and K row. Then pick up and K 8 (9-10) sts down the left edge of heel, work the 17 (19-21) sts left on 2 needles, pick up and K 8 (9-10) sts at other side of heel - 42 (48-52) sts. Cont. in rounds and at on all sts, and on every other round, K tog. the first st of instep with the preceding st, and SKPO with the last st of instep and the following at 5 (6-7) times - 32 (36-40) sts remain. Work even in rounds and at until piece measures 2 3/4 (3-3 1/2) from edges of heel.

Shape toe:

Work decs. thus: SKPO with the last st of instep and the following at *K 6 (7-8) sts, SKPO * (3 times) - 4 decs. in 1 round. Repeat these 4 decs. every other round 5 (6-7) more times, always taking for the decs. the 2 sts following the preceding dec. - 8 sts remain. Break yarn, leaving end long enough to draw through remaining sts. Pull tightly, turn to wrong side and fasten securely.

Make another sock in same manner.

What you should know before starting your work.

Crochet vocabulary:

Yarn over hook (yo): it is to take the yarn over the hook by passing the hook first under from left to right then over the yarn. **Draw up a loop:** it is to draw the yarn (in fact the yarn over) with the crochet hook

through the stitch into which the crochet hook had been inserted.

Draw through one or several loops: it is to draw the yarn (yo) with the crochet hook through the loop or the loops already on hook.

Crochet selvages

In crochet the edges will be more supple and even if, at the beginning of each row, you replace the first st by: ch 1 if working in sc; ch 2 if working in hdc; ch 3 if working in dc; and ch 4 if working in tr. To continue the row, skip the first stitch as it is replaced by the chains. At the end of every row, work the last stitch by inserting the hook under the 2 top strands of the chains at the beginning of the previous row.

Continue working in rounds on the 44 (48-54) sts thus obtained, working together the first instep st with the st preceding it, and working SKPO with the last instep st, every other round 6 (6-7) times. Work even on the remaining 32 (36-40) sts and when piece measures 1 1/2 (2-2 1/2)" from edges of heel, continue with Navy Blue and

Shape toe:

Starting from Round 3 work, 2 sts tog., 2 sts, and SKPO on the 6 sts at each side of foot, work these decreases every other round 4 (5-6) times, and every round (twice). Slip the 8 remaining sts of 2 needles and bind off on wrong side of work by working together 1 st from each needle.

Helmet-cap: 20 (25-30) gr.

With White and no. 2 needles cast on 13 sts for center of front. Work in Stockinette st, and at each edge, increase 2 sts, every other row (5 times).

On Row 9, begin working diamond jacquard design on center st. When you have obtained 33 sts, leave these sts on a stitch holder. With White, separately cast on 8 sts for right side. Work in Stockinette st, and at right edge, every other row, increase 1 st 7 (8-9) times, and 2 sts (3 times) at same time, at left edge, every other row, increase 1 st (twice), 2 sts (3 times) and 10 (12-14) sts once.

On Row 13, begin working diamond jacquard design on the st which is 23 sts from left edge. When you have obtained 39 (42-45) sts, slip them to the left of the 33 sts left on stitch holder. Work left side in same way, but reversing shapings, and slip these sts to the right of the 33 sts left on holder. Work on the 111 (117-123) sts thus obtained while continuing to work the three diamonds. When they are completed, distribute the sts evenly on 3 double-pointed needles and continue working in Stockinette st in rounds.

On Round 5, starting from opening of back of head, work, alternating thus: 8 sts, 2 sts tog., 11 (11-12) times and end round without working any decreases. Repeat these decs, one above the other, every 4 rounds (3 more times) then every other round (5 times) alternating thus: once SKPO with the dec. st and the st which precedes it, and once work 2 sts tog. with the dec. st and the st which follows it. When the number of sts remaining at the end of these rounds allows it, work another row of decs, at back of head. When decs are completed work 1 round working 2 sts tog. across round, then break yarn and leaving a long end, draw yarn through remaining sts, gather and secure with a few sts.

With no. 1 needles, along edge of cap, pick up and knit 119 (125-131) sts and work 7 rows in 1/1 ribbing, and every other row work 3 sts together at each side of center point. Then bind off all sts once. Sew back seam of cap.

fastening band

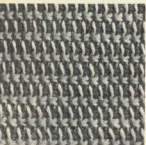

With White and no. 1 needles, cast on 40 sts and work in 1/1 ribbing for 5 rows. Then bind off all sts once. Sew this band under ribbing border of right point. Make a buttonhole loop at end of band and sew a Navy Blue toggle at left edge of cap.

Afghan stitch

Last month you learned the first stitches of the Afghan Stitch and made one or two pillows. Today, we are giving you two new afghan stitches: tweed and basket, and the children's designs in long and short stitches. The long and short afghan stitch is the one you already used to make the rectangular pillow, in our last Mon Tricot issue.
