COLOR TWIST FOR KNITTING

Work across to the colour change, then making sure both yarns are at the back, drop the first colour, pick up the second colour and bring it around the first colour to cross the yarns over before working the next stitch. On a wrong side row, make sure both yarns are at the front (wrong side) of the work. Drop the first colour, pick up the second colour and bring it around the first colour before working the next stitch. This technique ensures that the yarns are crossed on every row, and gives a neat, unbroken vertical line on the right side.
