General Notes

Tension

For best result always read the complete instructions and check the tension before starting work. If the tension piece measures **less** than the required width try a size larger needle. If the tension piece measures **more** than the required width try a size smaller needle. Where tensions are given over st st for a patterned garment, check your tension in st st. If you have to use a different needle size to obtain this tension a similar adjustment must be made to the needle sizes used in the patterns. A proper fit and correct size of finished garment is only possible with the correct tension.

Notes

Figures in round brackets refer to the larger sizes. Figures or instructions in square brackets, [], should be repeated as stated after the brackets.

The quantities of yarn stated in this publica-

tion are based on average requirements and are therefore approximate.

Abbreviations

Alt = alternate; beg = beginning; ch = chain; cm = centimetres; dc = double crochet; dec = decrease; inc = increase; k = knit; M1 (make 1 stitch) = pick up loop lying between last st worked and next st and work into back of it; p = purl; psso = pass slipped stitch over; rep = repeat; sl = slip; st(s) = stitch(es); st st = stocking stitch (1 row knit, 1 row purl); tbl = through back of loop; tog = together; yf = yarn forward; yfn = yarn forward and round needle; yon = yarn over needle; yrn = yarn round needle.

Special Abbreviation

Slip marker = make a slip knot in a short length of contrasting yarn and place on needle where indicated. On following rows slip marker from one needle to the other until pattern is established.

Picked Up Edgings

It is easier to pick up a large number of stitches evenly along an edge (for example along the front edge of a cardigan), if you work as follows: lay the garment flat on a table and make sure that the edge is laying straight. Measure the length and place a pin halfway along this length at right angles to the material. Now halve the length above and below this and then halve these distances again so that the length is divided into eighths. Now divide the required number of stitches by 8 and pick up approximately that number of stitches in each section to total stated number.

Pressing

Wool mixtures: Press lightly on wrong side of work using a warm iron and a dry cloth, avoiding ribbing.

Synthetic yarns: Do not press.
