Use the recommended yarn—it makes sense. When you buy your yarn, it is best to buy the full amount at one time to avoid variations in dyelots.

Two No. 11 and two No. 9 BEEHIVE or MILWARD DISC needles, measured by BEEHIVE gauge. 4 small buttons each for Dress and Matinee Coat.

How to check your tension

Before you knit this design check your tension carefully.

Take a pair of No. 9 needles, cast on 13 stitches and work in stocking stitch—1 row knit; 1 row purl—for 17 rows. Cast off; press lightly on wrong side.

The tension should be 13 sts. and 17 rows to 2 in. and the finished square should measure 2 in. each way.

If the square is bigger your work is too loose; try a size finer needle. If it is smaller your work is too tight; try a size larger needle.

If you knit to the correct tension in stocking stitch, you will knit naturally to the correct tension for any stitch in this booklet.

If you alter the needles to obtain the correct tension in stocking stitch, corresponding alterations must be made to the needles throughout.

These garments have been specially designed for the size given and it is regretted that no adaptations are available.
