How to check your tension

Before you knit this design check your tension carefully.

Take a pair of No. 6 needles, cast on 10 stitches and work in stocking stitch—1 row knit; 1 row purl—for 14 rows. Cast off; press lightly on wrong side.

The tension should be 10 sts. and 14 rows to 2 in. and the finished square should measure 2 in. each way.

If the square is bigger your work is too loose; try a size finer needle. If it is

smaller your work is too tight; try a size larger needle.

If you knit to the correct tension in stocking stitch, you will knit naturally to the correct tension for any stitch in this booklet.

If you alter the needles to obtain the correct tension in stocking stitch, corresponding alterations must be made to the needles throughout.

Patt. Tension

10 sts. and 16 rows to 2 in. on No. 6 needles.

This garment has been specially designed for the size given and it is regretted that no adaptations are available.
