Buy the full amount of yarn at one time to avoid variations in dyelots.

Pair each Nos 3¼ mm and 4 mm Beehive or Milward Disc needles. Needle sizes quoted are Metric: equivalent UK sizes are No 10

for 3¼ mm and No 8 for 4 mm. 20 in (51 cm) zip for Hooded Sleeping Bag.

Check your tension

Cast on 11 sts on No 4 mm needles. Work 15 rows in stocking stitch. Cast off. The square should measure 2 in each way.

If your tension is right in stocking stitch it should be right in any other fabric.

If the square is bigger your work is too loose; try a size finer needle. If it is smaller your work is too tight; try a size larger needle.

Any alteration in needle size should be carried throughout the design.

These garments have been specially designed for the size given and it is regretted that no adaptations are available.

MACHINE WASHING YOUR PATONS HANDKNITS

There are 4 “golden rules” for machine-washing handknits:

1. Make sure the garment is knitted correctly according to the Patons pattern, on the correct needles to the correct tension.
2. Don't have the water hotter than the recommended temperature.
3. Use the machine on a gentle cycle.
4. Don't leave the garment in the machine too long.

Patons Pennant Double Crepe		Minimum wash. Water at 40°C. Cold rinse, short spin, do not wring, dry flat.
		Do not iron.
		Do not bleach.
		Dry cleanable.
Patons Fairytale Double Knitting		Minimum wash. Water at 40°C. Cold rinse, short spin, do not wring, dry flat.
		Cool iron.
		Do not bleach.
		Dry cleanable.

The wrappers on all Patons yarns show the appropriate International Care Labeling Code symbols for the yarn. Examples are shown on the left. The latest automatic machines have these International Care symbols, and provided your machine is not connected to the domestic hot water supply (when you need to be careful about the heat) all you have to do is match the programme to our symbols. Older types of machine will not have these controls and it may be more difficult to ensure the correct combination of temperature, agitation and time.

If you are in any way unsure about the application of the symbols to your machine, it is safest to hand-wash in water that feels pleasantly warm to the hands, do not wring, and dry flat away from excessive heat.
