2 EASY CROCHET LAYETTES IN BLUEBELL 5 ply

LAYETTE A - MOTIF (Styles 1 to 9):

A modern twist to a perennial favourite - traditionally known as the 'Granny Square'. Generally used for rugs and cushions, Patons has developed a 9 piece co-ordinated layette set using this little motif for babies. Shown in pretty pastels, this layette lends itself to many colour combinations such as classics or brights - and even just in 1 colour, as shown in some motifs for the ball.

LAYETTE B - TREBLE (Styles 10 to 18):

Easy treble stitch with 1 row of double crochet around each panel, makes this layette set an achievable project for even beginners in the craft of crochet. The solid colour styles are ideal to personalise by finishing with embroidery or purchased motifs.

TO MAKE A TWISTED CORD

Method requires two people. Take as many strands of yarn as required, approximately three times the length required for the finished cord. Knot each end and slip a pencil between strands. Each person holds yarn just below pencil with one hand and twists pencil clockwise with other hand, keeping yarn taut. When yarn begins to kink, catch centre over door-knob or back of chair. Bring pencils together for one person to hold, while other grasps centre of yarn, sliding hand down and releasing at short intervals, letting yarn twist. Knot ends to prevent unravelling.

FLAT SEAM

This method is sometimes used for knitted garments but more often for crochet garments. A flat seam may be worked from either the right or the wrong side of the work. Place the 2 pieces of fabric evenly together and sew stitch by stitch, always bringing the needle up from underneath to top though the centre of the stitch, then in same manner through corresponding stitch on second piece.

Note -Diagram shows knitted fabric, but method is the same for knitting or crochet. Always keep work elastic - there should be as much stretch in your seam as there is in the rest of your garment.

HELPFUL HINTS

Measurements. Always be generous with measurements when an instruction is given to a number of centimetres. Measure in centre of work, with work laid out flat, unless otherwise stated. Always count number of rows to make sure that different parts of a garment correspond when a measurement is given in instructions.

As most patterns give more than one set of measurements, it is advisable to read through the pattern before beginning to knit. Find where your own size is in the bracket and mark that set of figures throughout the pattern. If any alterations have been made to length or width, take a note of them. A row counter helps to keep a close check. When increasing or decreasing, mark the position with a coloured thread - it makes it easier if the work has to be checked.

Join a new ball of yarn at the beginning of a row whenever possible. If the yarn covers the width of your knitted piece 4 times, you will have enough to finish a row - if not, join a new ball of yarn (the odd length can be used for sewing up). When yarn has to be joined in the middle of a row (e.g. circular knitting) it must be spliced.

HOW TO CARE FOR YOUR PATONS GARMENT

Patons suggest hand washing your garment in luke warm water with any wool detergent approved by the Australian Wool Mark. Place the garment in a pillow-slip for support and keep it there during the whole wash. Soak for a few minutes, then squeeze the suds solution through the garment still in the pillow-slip. Rinse in luke warm water.

Spin dry the garment, in the pillow-slip, removing as much moisture as possible. Lay the damp-dry garment on a flat surface indoors, and "scrunch" and push it into a compact shape, making it as small as it will go.

Turn the garment over to dry thoroughly - "scrunching" it into a tight shape again.

Patons recommend this care for your garments in preference to other forms of cleaning.

POM-PONS

To make a pom-pom, cut two circles of cardboard, the diameter depends on the size of the pom-pom to be made, and should be equal to the size of the finished pom-pom plus approximately 1.25 cm for trimming, plus the diameter of the centre hole, e.g. for a pom-pom 4 cm across, the circles would be 4 cm, plus 1.25 cm, plus 1.25 cm for centre hole, equals 6.5 cm. Cut a round hole in the centre, the size of the hole is approximately a quarter of the finished pom-pom. Wind the yarn round and round the cardboard until the centre hole is completely filled up. Place the point of a pair of scissors between the two circles of cardboard and cut around, keeping the scissors between the cardboard all the time. Using a double strand of yarn, wrap round between the two circles of cardboard, knot firmly, and take away cardboard. Trim pom-pom.

1. Loop new yarn over the hook leaving an end long enough to darn in.

2. Draw the new yarn through the remaining 2 loops to complete the last st.

Diagrams show yarn being joined at the end of a row, but the method is the same at any point in your row.

THE Patons CROCHET RATINGS HELP YOU CHOOSE THE PATTERN SUITED TO YOUR CROCHET ABILITY

 One beehive says this is a beginner level of crochet. Basic stitches only, with simple shaping.

 Two beehives mean easy crochet, with some fancy patterns such as shells, mesh, simple 2 colour patterns and cables.

 Three beehives are for advanced crochet workers, requiring some specialised knowledge such as Fair Isle, Aran and more complicated lace patterns.

 Four beehives signal a challenge. There can be make and lose patterns, complicated shaping, and any technique that requires a higher level of concentration.

P The letter P after any beehive grouping suggests that an additional degree of patience is required for a quality finish.
