MAKE UP

Do not press.

Join sleeve seams to markers, then join remainder of sleeves to main part.

Make 3 buttonloops on Right Front of Yoke as in photograph.

To make a buttonloop: With crochet hook, join in yarn and make 2 chain. Fasten off.

Sew on buttons.

To help you keep your handknits looking their best, we recommend Dreft. Dreft is safer than soap powders because it's so gentle.

**WASHING AND CARING FOR PATONS YARNS**

Hand washing is always best. For yarns made mainly of wool use warm water, a warm rinse, squeeze out between towels or spin-dry (normal cycle), then dry flat after easing into shape. Do not dry in direct heat (radiators or fires). Do not dry white handknits in direct sunlight. For yarns made mainly of acrylics it is important that you rinse in cold water and if you spin-dry use the short cycle.

A great many people now use washing machines. The ball band will show whether the yarn you have chosen is suitable for machine-washing: if it is, follow these four "golden rules".

1. Make sure the garment is knitted correctly according to the Patons pattern, on the correct needles to the correct tension.
2. Don't have the water hotter than the recommended temperature.
3. Use the machine on a gentle cycle.
4. Don't leave the garment in the machine too long.

The wrappers on all Patons yarns show the appropriate International Textile Care Labelling Code symbols for the yarn. Examples are shown here. The latest automatic machines have these International Care Symbols, and provided your machine is not connected to the domestic hot water supply (when you need to be careful about the heat) all you have

to do is match the programme to our symbols. Older types of machine will not have these controls and it may be more difficult to ensure the correct combination of temperature, agitation and time.

If you are in any way unsure about the application of the symbols to your machine it is safest to hand-wash.
