NEEDLES — Milward or Patons

1 pair each 3.25mm (No 10) and 2.75mm (No 12) or sizes needed to give correct tension.

ACCESSORIES — 3 Stitch Holders; Milward Knitters Needle for sewing seams; 3 Maxart Buttons.

ABBREVIATIONS — See page 49.

TENSION — 31 sts to 10 cm in width over stocking st.

Why you **should** knit a tension square.

Loose Tension will cause the garment to stretch, drop and rub.

Tight Tension will make the garment too small, with a hard fabric that will matt during washing. With **Correct Tension**, your garment will look like our photo.

Using 3.25mm Needles, cast on 46 sts.

Work 64 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo. Count the number of sts between the pins.

You should have 31 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garment (you may unravel your tension square and use the yarn in your garment). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

NEEDLES — Milward or Patons

1 pair each 3.25mm (No 10) and 2.75mm (No 12) or sizes needed to give correct tension.

ACCESSORIES — 3 Stitch Holders; Milward Knitters Needle for sewing seams; 3 Maxart Buttons.

ABBREVIATIONS — See page 49.

TENSION — 29 sts to 10 cm in width over stocking st.

Why you should knit a tension square.

Loose Tension will cause the garment to stretch, drop and rub.

Tight Tension will make the garment too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garment will look like our photo.

Using 3.25mm Needles, cast on 43 sts.

Work 58 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo. Count the number of sts between the pins.

You should have 29 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garment (you may unravel your tension square and use the yarn in your garment). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

ACCESSORIES — 3 Stitch Holders; Milward Knitters Needle for sewing seams; Length of Ribbon; 3 Maxart Buttons.

ABBREVIATIONS — See page 49.

TENSION — 29 sts to 10 cm in width over stocking st.

Why you **should** knit a tension square.

Loose Tension will cause the garment to stretch, drop and rub.

Tight Tension will make the garment too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garment will look like our photo.

Using 3.25mm Needles, cast on 43 sts.

Work 58 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo. Count the number of sts between the pins.

You should have 29 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garment (you

may unravel your tension square and use the yarn in your garment). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

NEEDLES — Milward or Patons

1 pair 3.25mm (No 10) or size needed to give correct tension.

ACCESSORIES — Milward Knitters Needle for sewing seams; Length of Ribbon if desired.

ABBREVIATIONS — See page 49.

TENSION — 31 sts to 10 cm in width over stocking st.

Why you **should** knit a tension square.

Loose Tension will cause the garment to stretch, drop and rub.

Tight Tension will make the garment too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garment will look like our photo.

Using 3.25mm Needles, cast on 46 sts.

Work 64 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo. Count the number of sts between the pins.

You should have 31 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garment (you may unravel your tension square and use the yarn in your garment).

MAKE UP

As for **Eyelet Rib Singlet**. 

TO MAKE A TWISTED CORD

Method requires two people. Take as many strands of yarn as required, approximately three times the length required for the finished cord. Knot each end and slip a pencil between strands. Each person holds yarn just below pencil with one hand and twists pencil clockwise with other hand, keeping yarn taut. When yarn begins to kink, catch centre over door-knob or back of chair. Bring pencils together for one person to hold, while other grasps centre of yarn, sliding hand down and releasing at short intervals, letting yarn twist. Knot ends to prevent unravelling.

KNITTING UP STITCHES.

This is the method used for neckbands, armhole bands, etc. Hold work in left hand with right side facing you. Hold working needle and yarn in right hand. Insert point of needle through work from front to back. Wrap yarn round point of needle and knit a stitch.

When working along a cast-off edge, insert needle under both loops of cast-off stitch, and knit up one stitch in each cast-off stitch. (Diagram A).

When working along side edge, insert needle inside one full stitch from the edge (i.e. behind 2 loops of stitch, not just the edge loop). (Diagram B).

You will find along this edge that there is alternately one long and one short stitch. If you require less stitches than there are along this edge, always knit up through the short stitches and omit some of the long stitches. (Diagram C).

Before commencing, always count the number of rows you have and compare it to the number of stitches you require, then you will be able to make any adjustments evenly along the length of the work.

If you find it difficult to knit up stitches neatly, try using needles 1 or 2 sizes finer than those in the instructions — but do not forget to change back to the correct size for knitting the band.

NEEDLES — Milward or Patons

1 pair each 3.25mm (No 10) and 2.75mm (No 12) or sizes needed to give correct tension.

ACCESSORIES — Milward Knitters Needle for sewing seams; 4 (4-5-5) Maxart Buttons.

ABBREVIATIONS — See page 49.

TENSION — 29 sts to 10 cm in width over stocking st.

Why you **should** knit a tension square.

Loose Tension will cause the garment to stretch, drop and rub.

Tight Tension will make the garment too small, with a hard fabric that will matt during washing. With **Correct Tension**, your garment will look like our photo.

Using 3.25mm Needles, cast on 43 sts.

Work 58 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo on page 10. Count the number of sts between the pins.

You should have 29 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garment (you may unravel your tension square and use the yarn in your garment). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

Sewing of Front Bands to Cardigans

MEDIUM BUTTONING

To obtain correct length of band required, sew raglan or shoulder seams as stated in instructions. Place a pin at centre back neck of garment. Lay cardigan flat on table and pin fronts to back at raglan or shoulder seams. Pin fronts to back of cardigan along front edges, taking care that lower bands and front shapings match exactly. All rows of knitting should be horizontal across garment, thus any stripes or patterns will match exactly.

Knit about $\frac{3}{4}$ of length of band required. Place band to cardigan (garment laid flat) matching row for row on lower bands and noting that first row of knitting is right side of band unless otherwise stated. Pin buttonhole section to right front (left for man) noting that top buttonhole should come level with or a little below first shaping. Pin band up to raglan or shoulder seam.

Take pins from raglan or shoulder seam and pin band around to centre back. Band across back neck should be firm enough to prevent back of garment stretching when worn. Mark centre back of band and point of band opposite first shaping. Unpin band from garment and knit band length required, measuring second half by folding at centre back pin. Mark point to match to first shaping on other front.

Pin front band to lower bands, matching row for row. Pin bands to fronts up to first shaping. Pin at back neck, then remainder to front slopes. Lift garment from table and remove pins attaching fronts to back. Re-pin band so that right side of band is facing right side of garment, taking out and replacing each pin separately.

****Back-stitch band to cardigan.** Care should be taken that lower edge of garment forms a straight edge and that there is not an indentation at band seam. One stitch should be taken from band and cardigan to form seam. **

HIGH BUTTONING

Knit bands as instructions. Sew raglan or shoulder seams as stated in instructions. Pin front bands to lower bands of cardigan, matching row for row.

Lay cardigan flat on table and pin fronts to back at raglan or shoulder seams. Pin fronts to back along front edges, taking care that lower bands and neck edges match exactly. All rows of knitting should be horizontal across garment, thus any stripes or patterns will match exactly.

Mark fronts in quarters with pins by measuring (from top of lower bands) with tape measure. Mark front bands in quarters (from top of lower bands).

Pin bands to cardigan, watching that all lines of knitting remain horizontal. Turn bands so that right side of band is to right side of garment and re-pin, taking out and replacing each pin separately. Complete as given from **to** for Medium Buttoning.

FLAT SEAM

This method is sometimes used for knitted garments but more often for crochet garments. A flat seam may be worked from either the right or the wrong side of the work. Place the 2 pieces of fabric evenly together and sew stitch by stitch, always bringing the needle up from underneath to top through the centre of the stitch, then in same manner through corresponding stitch on second piece of fabric.

Note — Diagram shows knitted fabric, but method is the same for knitting or crochet. Always keep work elastic — there should be as much stretch in your seam as there is in the rest of your garment.

Work 64 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo. Count the number of sts between the pins.

in your garment). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

MATERIALS

PATONS 3 PLY FEATHERSOFT OR 3 PLY BABY WOOL 25g balls

Use only the yarns specified for this garment. Other yarns may give unsatisfactory results.

NEEDLES — Milward or Patons

1 pair each 3.25mm (No 10) and 2.75mm (No 12) or sizes needed to give correct tension.

ACCESSORIES — A Stitch Holder for **High Buttoning Cardigan**; Milward Knitters Needle for sewing seams; 6 (7-8-9) Maxart Buttons for **High Buttoning Cardigan**; 3 (4-4-5) Maxart Buttons for **Medium Buttoning Cardigan**.

ABBREVIATIONS — See page 49.

TENSION — 31 sts to 10 cm in width over stocking st.

Why you **should** knit a tension square.

Loose Tension will cause the garment to stretch, drop and rub.

Tight Tension will make the garment too small, with a hard fabric that will matt during washing. With **Correct Tension**, your garment will look like our photo.

Using 3.25mm Needles, cast on 46 sts.

Work 64 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo. Count the number of sts between the pins.

You should have 31 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garment (you may unravel your tension square and use the yarn in your garment). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

10 BABY KNITS

THE **NEW** HAND KNIT STAR ★ RATING — TO HELP YOU TO CHOOSE THE PATTERN SUITED TO **YOUR** KNITTING ABILITY.

- ★ One star says this is a **beginner level** of knitting. Knit and Purl stitches, casting on and off and some basic increasing and decreasing.
 - ★★ Two stars mean **easy knits**, with knit-purl stitch patterns, simple lace patterns (no shaping in the lace), slip-stitch patterns, and cables.
 - ★★★ Three stars are for **advanced knitters** requiring some specialised knowledge, such as Fair Isle, Aran and more complicated lace patterns.
 - ★★★★ Four stars signal a **challenge knit**. There can be make-and-loose patterns, complicated shaping, and any technique that requires a high level of concentration.
- P** The letter **P** after any star grouping suggests that an additional degree of patience is required for a quality finish.
