Pom-Pons

To make a Pom-Pon, cut two circles of cardboard — the diameter depends on the size of the Pom-Pon to be made, and should be equal to the size of the finished Pom-Pon plus approximately $\frac{1}{2}$ " for trimming, plus the diameter of the centre hole, e.g. For a Pom-Pon $1\frac{1}{2}$ " across, the circles would be $1\frac{1}{2}$ " plus $\frac{1}{2}$ " plus $\frac{1}{2}$ " for centre hole, equals $2\frac{1}{2}$ ". Cut a round hole in the centre, the size of the hole approximately a quarter of the finished Pom-Pon. Wind the yarn round and round the cardboard until the centre hole is completely filled up. Place the point of a pair of scissors between the two pieces of cardboard and cut round, keeping scissors between two circles of cardboard all the time. Using a double strand of yarn, wrap round between the two circles of cardboard, knot firmly and take away cardboard—see diagram. Trim Pom-Pon.

To make a Twisted Cord

Method requires two people. Take as many strands of yarn as required, approximately three times the length required for the finished cord. Knot each end and slip a pencil between strands. Each person holds yarn just below pencil with one hand and twists pencil clockwise with other hand, keeping yarn taut. When yarn begins to kink, catch centre over door-knob or back of chair. Bring pencils together for one person to hold, while other grasps centre of yarn, sliding hand down and releasing at short intervals, letting yarn twist.

SOME IMPORTANT HINTS

IMPORTANT — DYE LOTS!

Always buy enough of the same dye lot at the one time for a complete garment, as a variation between dye lots can occur.

Retain ball bands until the garment is completely knitted, and, in the event of an enquiry concerning the purchase, submit all ball bands.

SUCCESSFUL RESULTS DEPEND ON CORRECT TENSION!

To knit garments you'll be proud of, always make a Tension Test. Correct tension brings out a further benefit of Patons exclusive Patonising process. You'll find your knitteds have maximum resistance to pilling as well as shrinkage. So you're sure of knitteds looking fresh and new through wash after wash.

Tension Test: Before you start knitting take the yarn and needles specified in the instructions, cast on 20 stitches, work 20 rows in plain smooth fabric. Lightly press work. Check the tension by placing an inch tape across the stitches. Count the exact number of stitches to 2 ins. and compare with the tension given in the instructions. If your tension is too loose, try a size finer needle. If it's too tight, try a size larger needle. If more than one size of needle is recommended in the knitting instructions, and you have altered your needles to correct the tension, corresponding alterations must be made to needles throughout the instructions.
