Make no mistake—use what the pattern says.

Please use only the yarn specified in the pattern. Yarns and plys do differ. They can cause different tension and therefore wrong size. Patons experts use their skills and know-how to create designs and patterns suitable for the yarn recommended. You could be disappointed with your garment if you make the mistake of using something "near enough".

CROCHET TENSION TEST

Before you start your garment, take the yarn and hook specified in the instructions and make a chain 15 cm (approx. 6 ins.) long. Work a square in whatever stitch is mentioned in the Tension paragraph of your Instructions. With pins, mark out the number of stitches (or patterns) and rows quoted in the Tension. With a tape measure or rule, measure the distance between the pins and compare with the tension given in the instructions. If your tension is too loose (i.e. if the piece measures more than the measurement given), try a size finer hook. If your tension is too tight (i.e. if the piece measures less than the measurement given), try a size larger hook. If more than one size of hook is recommended in the instructions and you have altered your hook to correct the tension, corresponding alterations must be made to hooks throughout the instructions.

ABBREVIATIONS used in CROCHET

Ch. = chain. **sp.** = space. **s.c.** = single crochet. **sl.st.** = slip stitch. **d.c.** = double crochet. **y.o.h.** = yarn over hook. **h.tr.** = half treble—pass yarn round hook, draw a loop through next ch., draw a loop through all 3 loops on hook. **tr.** = treble—pass yarn round hook, draw a loop through next ch., draw a loop through first 2 loops on hook, then draw another loop through 2 remaining loops. **d.tr.** = double treble—pass yarn twice round hook, draw a loop through next ch., draw a loop through first 2 loops on hook, draw a loop through next 2 loops, then another through last 2 loops. **t.tr.** = triple treble—pass yarn three times round hook, draw a loop through next ch., draw a loop through first 2 loops on hook, draw a loop through next 2 loops, then another through next 2 loops, then another through last 2 loops. **cm** = centimetres.

Washing Instructions

BEFORE WASHING—Make any needed repairs. Remove any unwashable buttons or trimmings, close zip and **turn garment inside out**.

WASHING—Do not pre-soak as is recommended with some detergents containing enzymes. Washing powders approved by the Australian Wool Corporation should be used for wool garments. A mild detergent should be used for synthetic garments.

Powder should be fully dissolved in warm (**not hot**) water before immersing garment. Squeeze the garment gently in the suds; do not rub.

RINSING—Rinse garment thoroughly in warm (**not cold**) water, until the water is clear. Support your garment with both hands whenever you lift it to prevent stretching.

DRYING—After the last rinse, spin dry the garment or squeeze it between towels to remove excess water. Dry naturally on a flat surface out of direct sunlight. **Never hang a hand-knitted garment**. When drying colour-contrast knitteds, do not leave contrasting areas in contact with each other in the wet or damp state. **Do not tumble dry**.

PRESSING—Generally, woollen or cotton garments should be pressed with a warm iron and a slightly damp cloth.

The colours of yarns illustrated have been reproduced as accurately as possible.
