JOINING STITCH BY STITCH

When work measures required length, work 3 rows stocking stitch with a contrast colour. Leave stitches on a thread or spare needle. When making up, lay pieces flat, right sides up, overlapping 3 contrast rows. Pin in place. Unpick 2 rows contrast colour and attach 2 pieces stitch by stitch in back stitch, undoing last row of contrast as stitches are sewn.

ALTERNATIVE QUALITIES may require different quantities of yarn.

SIMPLE CAST ON

Make a sl. knot place on needle held in right hand, with thread from ball, wind clockwise round thumb, insert needle into front loop thus made, let loop drop off thumb and pull thread tight with left hand. Repeat as many times as necessary to obtain number of sts. required.

SWISS DARNING

A way to replace Fair Isle. A quick and simple method to apply motifs on a finished garment. The shape embroidered just looks like a Fair Isle pattern and is also worked row by row and stitch by stitch following a chart. With a bodkin and yarn of same thickness as the one used for the garment, we work on a stocking stitch base.

Begin at top right of motif.

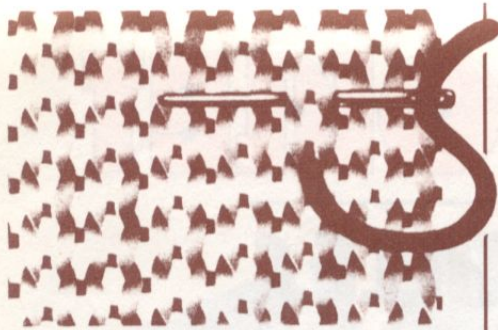

1st row: Bring up bodkin to right side of work through stitch below 1st stitch to be worked** Insert bodkin at right of stitch just above. Bring it up again on left of this stitch. Insert needle in stitch below ie. where it first emerged. Bring up needle in next stitch to the left ** Repeat from ** to ** as many times as required.

2nd row: After last stitch bring up needle through stitch below (ie. not through left stitch). Turn work. Work from right to left as follows:—

Insert needle at bottom right of stitch below and bring it up again at left of same stitch. Insert needle through stitch above. ie. where it emerged to begin this 2nd row.

After last stitch of 2nd row, bring up needle through stitch above and turn work. Continue repeating 1st and 2nd rows.

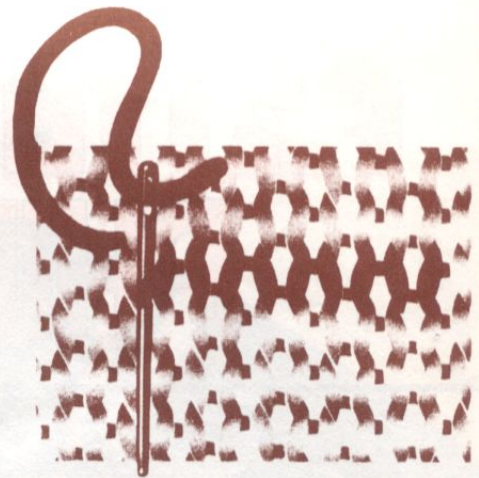

To work on a vertical line, begin at top of motif. Make 1 stitch and bring up needle for next stitch through stitch below. Repeat to bottom of motif.

TABLE OF QUALITIES

All the qualities used or likely to be used for the garments in this catalogue, have been classified into groups of identical thickness.

Each of these groups corresponds not only to a needle size but also to the resulting tension i.e. to an identical or a very similar number of stitches and rows over a **tension square in stocking stitch**.

We should like to point out that whereas it is possible to make a garment in another of the same group, this change may affect the aspect or style. This is why we recommend **that you seek the advice of your PHILDAR retailer** when making your choice.
