ERRATA

A number of technical and printing errors have been discovered in this album and we are taking this opportunity of issuing a complete list of corrections.

Each correction below is itemised by pattern number and we hope you will find it relatively simple to make the necessary adjustments.

We hope you will enjoy knitting these attractive Phildar designs.

COVER PATTERN

Ankle ribbing differs from photograph.

PATTERN 1

Shape Sole

Next row: K27, K2 tog, turn.

Next row: P9, P2 tog, turn.

Next row: K9, K2 tog, turn.

Continue thus, dec. 1 st. at end of every row until all sts. from r/s of foot have been dec.

Divide these 24 sts. on 2 needles with points both ends (10 from sole, 14 from back), and using a 3rd needle to work.

Fold sole in half lengthways and P2 tog., taking 1st from each needle and casting off, at same time taking 2 sts. from the back evenly 4 times, then work 3 tog.

PATTERN 11

Back

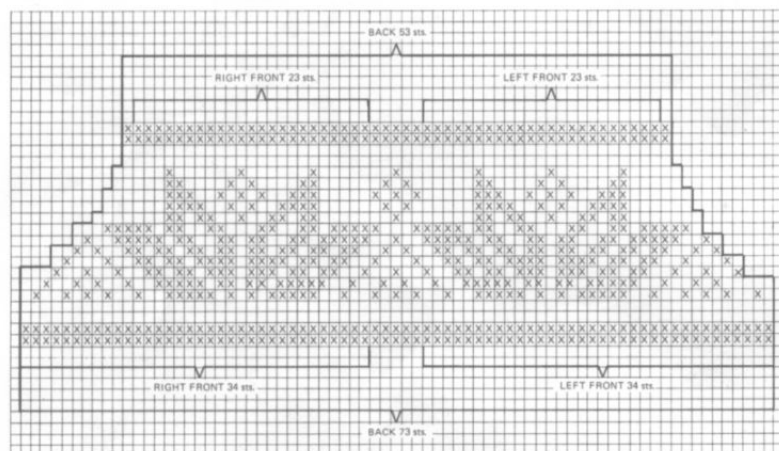

Shape sides.

Inc. 1 st. at each end of next 4 rows. (20 sts).

Divide for Neck (20 sts)

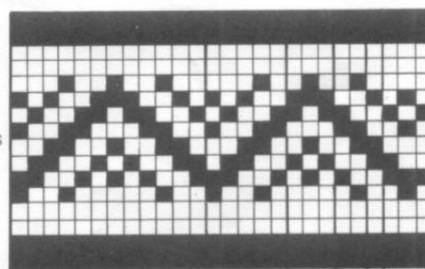

Next row: K2, yfwd, K2 tog., Sl.1, K1, psso, K2 turn and leave remaining sts. on spare needle.

Next row: Purl to the last st, K1.

TABLE OF PHILDAR QUALITIES

Listed below are all the qualities of yarn currently produced by PHILDAR. The knitting pins quoted for each quality are given as averages for guidance only, and individual patterns for each quality may quote alternative sized needles to complement appropriately the needs of the patterns. Whilst it is possible to use alternative Phildar qualities to those quoted in our patterns, care should be taken to achieve the correct tension as required in the respective pattern. It is **IMPORTANT** to note that changing the quality of yarn used may affect the aspect, size and style of the garment, **and that ALTERNATIVE qualities may require DIFFERENT quantities of yarn.**

WE RECOMMEND always that you seek the advice of your Phildar retailer when choosing yarn.

MAKE THE BEST OF YOUR KNITTING

by giving it the professional finishing touches

TENSION

Knitting and crochet tension varies from knitter to knitter, from yarn to yarn and from stitch to stitch. The tensions of stitches and rows are integral parts of the pattern and determine the size, shape and effect of the garments, and knitters should never be content with producing an article that only vaguely resembles the original model. This is why Phildar always recommends that a tension square be knitted and, where necessary, re-knitted to achieve the quoted tension.

The needles quoted in our patterns are given always as merely a recommendation based on an average of possibilities, not as a DEFINITE instruction. It is certainly NO insult to a knitter's capabilities when the size of needles has to be changed to achieve a quoted tension, for no two knitters work in the same way, irrespective of experience.

Tension is always given in stitches and rows, and it is NOT advisable to cast on the stated number of stitches and work the stated number of rows, because this is merely a contraction of the whole. It is far better to check tension as it will be over all the garment.

We recommend that the stated number of stitches be cast on PLUS, say, 10 additional stitches, and that the stated number of rows PLUS, say, 10 additional rows be worked in the stitch stated in the tension.

e.g. Pronostic 25 stitches and 34 rows to 10 cms (4 ins) over stocking stitch cast on 35 stitches and work 44 rows in stocking stitch.

Tension may then be measured over the central stitches and rows whilst work is laid on a flat surface.

TOO MANY STITCHES to 10 cms (4 ins)

Use a size larger knitting pin to achieve larger and therefore fewer stitches.

TOO FEW STITCHES

Use a size smaller knitting pin to achieve smaller and therefore more stitches.

ALWAYS test knit further tension squares, increasing or decreasing the size of needles until the correct tension is achieved.

In adjusting needle size to achieve tension, we RECOMMEND that the correct number of stitches be the PRIORITY. Changing pins to achieve stitch tension can adversely affect the row tension, i.e. the stitch tension may be correct, but too few/many rows thereby gained. REMEMBER, the number of rows may be adjustable in most instances, stitches may not.

CASTING ON

(Simple cast on)

This will give an even cast-on edge.

Make a sl.knot place on needle held in the right hand, with thread from ball, wind clockwise round thumb, insert needle into front loop thus made, let the loop drop off the thumb and pull thread tight with the left hand. Repeat as many times as necessary to obtain the number of stitches required.

FAIR ISLE

We recommend that yarn be stranded across back of work thus:

On a right side row, knit the required number of stitches with the first colour in the normal way, carrying the second colour loosely across the back of the work, taking care not to pull it so tightly that the fabric will become puckered, then knit the required number of stitches with the second colour. On a wrong side row work exactly the same, stranding yarn across the front of the fabric facing.

SEAMS

JOINING STITCH-BY-STITCH IN BACK STITCH

This is used for borders, bands and collars, etc.

When work measures the required length, work 3 rows in stocking stitch with a contrast colour. Leave the stitches on a thread or spare needle. When making up, lay pieces flat, right sides up, overlapping 3 contrast rows. Pin in place. Unpick 2 rows of contrast colour and attach 2 pieces stitch-by-stitch in back stitch, undoing the last row of contrast as stitches are sewn.

BACK STITCH SEAMS

This is used for joining pieces of garments together.

Place right side of pieces face to face and sew together in back stitch about 0.5 cms (1/4 in) from the edge, securing by small running stitches at ends.

GRAFTING

This may be used on shoulder seams to give a "continuous" look to the garment, thus removing the need to cast off.

GRAFTING: in garter stitch.

GRAFTING: in stocking stitch

YOUR OWN DO-IT-YOURSELF PERMANENT TENSION GAUGE

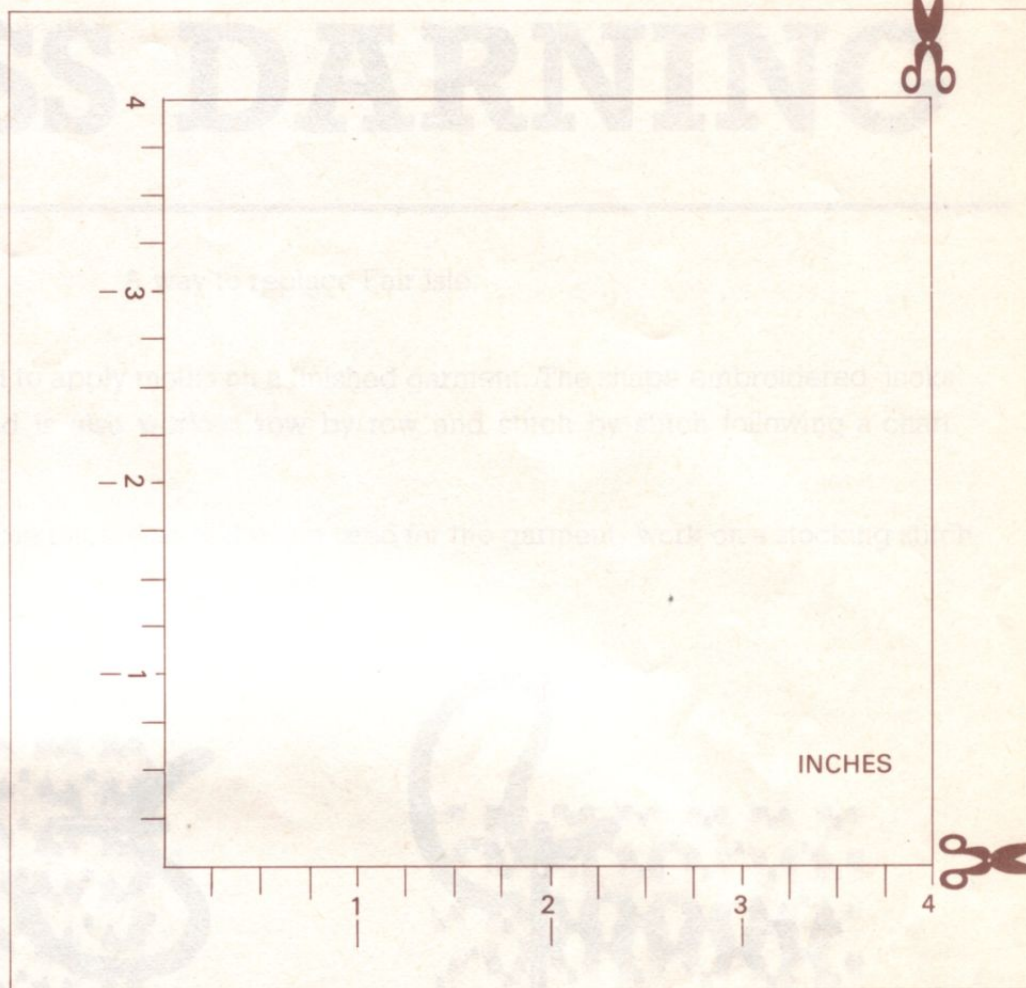

WHETHER YOU FOLLOW THE METRIC OR IMPERIAL MEASUREMENT SYSTEM WHEN KNITTING, WE OFFER YOU THE OPPORTUNITY TO HAVE YOUR OWN PERMANENT TENSION GAUGE TO KEEP IN YOUR KNITTING BAG OR BOX.

TO MAKE THE GAUGE SIMPLY REMOVE THIS PAGE CAREFULLY FROM THE BOOK BY CUTTING THE DOTTED LINE AT THE EXTREME LEFT OF THE PAGE.

CUT ROUND THE EXTREME **OUTSIDE** OF THE GAUGE YOU REQUIRE AND PASTE ON TO STIFF CARD OR BOARD WHICH SHOULD BE SLIGHTLY LARGER THAN THE OUTSIDE OF THE GAUGE.

TRIM CARD TO MATCH GAUGE.

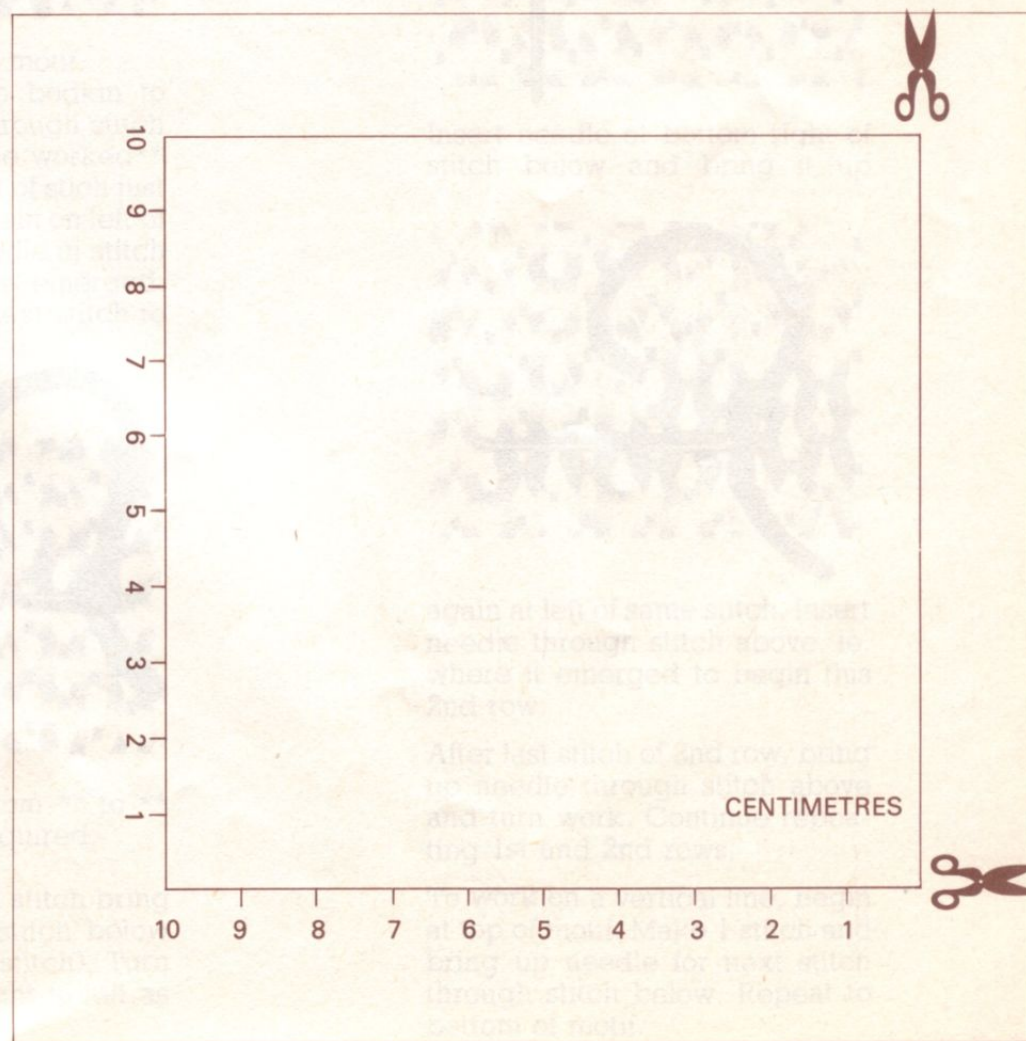

WITH CUTTER CUT INSIDE BOX SMOOTHLY TO LEAVE EVEN AND SMOOTH EDGE.

IT IS IMPORTANT TO TAKE CARE IN THIS.

THE GAUGE WILL PROVE MORE DURABLE IF THE CARD IS COVERED WITH WIPE-PROOF, CLEAR-VU FILM (SELF-ADHESIVE) AVAILABLE FROM MOST STATIONERY SHOPS AND STORES.

BOTH GAUGES CAN, OF COURSE, BE PUT ON TO ONE PIECE OF CARD IF BOTH WAYS OF MEASUREMENT ARE USED.

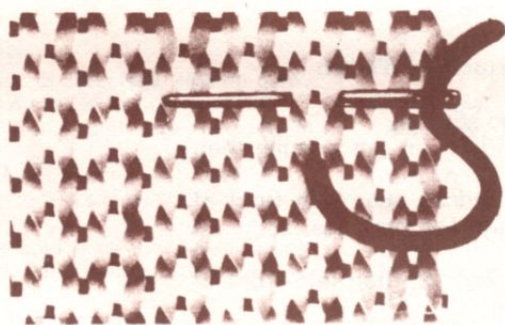

SWISS DARNING

A way to replace Fair Isle.

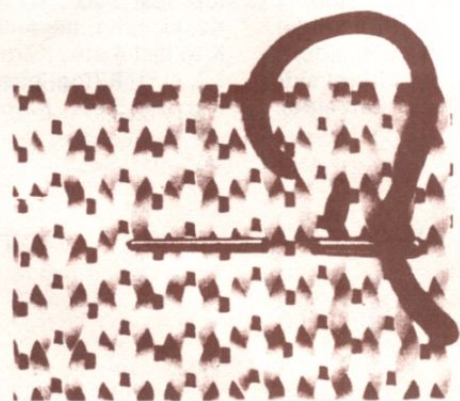

A quick and simple method to apply motifs on a finished garment. The shape embroidered looks like a Fair Isle pattern and is also worked row by row and stitch by stitch following a chart.

With a bodkin and yarn of same thickness as the one used for the garment, work on a stocking stitch base.

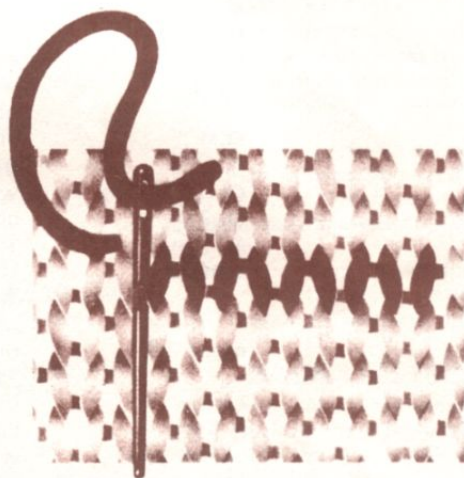

Begin at top right of motif.

1st row : - Bring up bodkin to right side of work through stitch below 1st stitch to be worked** Insert bodkin at right of stitch just above. Bring it up again on left of this stitch. Insert needle in stitch below ie. where it first emerged. Bring up needle in next stitch to

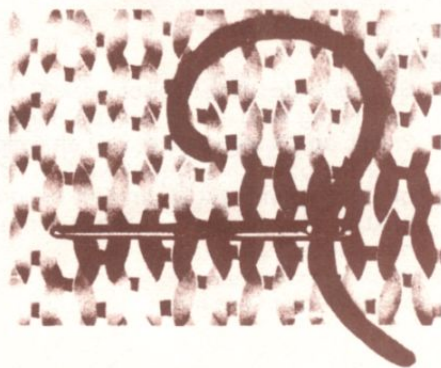

the left.** Repeat from ** to ** as many times as required.

2nd row : - After last stitch bring up needle through stitch below (ie. not through left stitch). Turn work. Work from right to left as follows :

Insert needle at bottom right of stitch below and bring it up

again at left of same stitch. Insert needle through stitch above, ie. where it emerged to begin this 2nd row.

After last stitch of 2nd row, bring up needle through stitch above and turn work. Continue repeating 1st and 2nd rows.

To work on a vertical line, begin at top of motif. Make 1 stitch and bring up needle for next stitch through stitch below. Repeat to bottom of motif.
