Dear Reader,

When you first learn that your baby is on the way your natural instinct is to build a nest where the tiny newcomer will be happy and comfortable. That's when your thoughts turn to knitting, the ideal way to create adorable outfits to greet the new arrival and at the same time to occupy you when you are forced to be a bit less active than usual.

Do you prefer the traditional appeal of white or a delicate pastel with touches of lace, picot edgings or simple patterns? Or would you choose bright colours, stripes and jolly animal motifs? If your baby has already arrived, has reached the sitting-up stage or is a toddler many of these designs are in sizes up to 18 months.

In planning this album we have given special thought to the needs of the inexperienced knitter, using simple stitches like garter stitch and stocking stitch or bands of easy pattern. But if those charming lace patterns or those cute little animals catch your fancy and seem a bit more difficult perhaps the proud grandma or adoring aunt will take a hint!

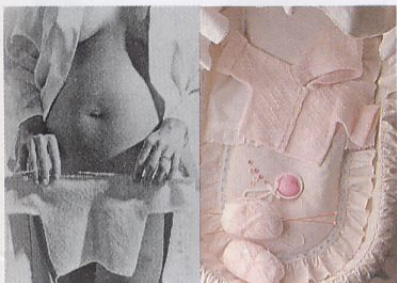

We at Pingouin pride ourselves on having the right ideas for every occasion and we believe this new album contains everything you need for baby's comfort and happiness from birth to 18 months.
