SIRDAR BABY YARNS are softer and warmer than other brands of baby yarn made from 100% nylon.

The care taken to combine fibres for specific purposes in Sirdar Snuggly Yarns is typical of the extent to which quality is built into all Sirdar products.

The special combination of 45% high bulk acrylic and 55% crimp nylon gives the best of both worlds — softness and bulk from the high bulk acrylic, strength and shape retention from the crimp nylon.

The garments in this book are made in Snuggly 3 and 4-ply Wash 'n' Wear, except Design No. 10 which is made in Snuggly 3-ply Dapple Dye. Snuggly Dapple Dye is completely interchangeable with Snuggly plain yarns, so why not make a garment with a difference using Snuggly Dapple Dye?

TENSION:

For best results always read the complete instructions and check the tension before starting work. If the piece measures less than the required width try again, using a larger needle or hook. Where tensions are given over st st for a patterned garment, check your tension in st st. If you have to use a different needle size to obtain this tension, a similar adjustment must be made to the needle sizes used in the patterns. A proper fit and correct size of finished garment is only possible with the correct tension.

TWISTED CORD:

Method requires two people. Take as many strands of yarn as required, approximately three times the length required for the finished cord. Knot each end and slip a pencil between strands. Each person holds yarn just below pencil with one hand and twists pencil clockwise with other hand, keeping yarn taut. When yarn begins to kink, catch centre over door-knob or back of chair. Bring pencils together for one person to hold, while other grasps centre of yarn, sliding hand down and releasing at short intervals, letting yarn twist. Tie loose ends together in a knot to keep from unwinding. If required, you may tie a knot near other end and cut end, thus forming a small tassel at each end.
