A rag doll of Pippi Longstocking is shown hanging from a thin, brown, leafless branch. The doll has bright red hair styled in two pigtails with long, fringed ends. She is wearing a brown, short-sleeved dress with a small white pocket on the left side, a white scarf with a yellow floral pattern, red leggings, and white socks with black tips. Her arms are raised, holding onto the branch. The background is a solid blue color with a large, bright yellow sun or moon in the upper right corner.

GENERAL INFORMATION FOR STUFFED DOLLS

LET'S MAKE "HIJI"

Hiji is an engaging hug-doll with a large oval head. Step-by-step directions for making her are shown on the following pages, and it's a good way for beginners to practice new skills.

You'll find that the secret of making a good doll is its foundation. Heads can be made larger or smaller, as you wish, but proper stuffing gives the doll a finished look. You can later vary their appearance by the shape and color of hair and clothing, and you'll find these projects are a good use for scraps in your sewing basket.

Welcome to the new pleasures of doll-making, then. You'll be creating thoughtful and personalized keepsakes in no time!

HIJI FINISHED SIZE: 37 cm tall

HOW TO MAKE "HIJI"

★ MATERIALS:

(a) to (e) are the materials needed to make the foundation; (a) to (c) are stuffing materials to form the foundation. Have extra amounts of stuffing material on hand. Other materials, such as yarn or cotton fabrics, can be selected from remnants you may have.

Assemble machine threads No. 50, 20, 8, and hand-sewing thread. When you make the foundation, use white thread with the long, heavy needle.

★ TOOLS:

I TO MAKE PATTERNS:

Make cardboard patterns for accuracy. Copy each of the patterns below on tracing paper, and then transfer onto cardboard, making the outline with a hard pencil. Cut out the cardboard patterns carefully. Transfer the arrows, too, to show the grain of fabric for cutting.

2 TO SEW HEAD-FOUNDATION, BODY, ARMS & LEGS:

Iron fabrics smooth. Trace the head-foundation onto white rayon, matching grain to arrows, and machine stitch.

Place the skin-colored jersey, right sides together, between 2 pieces of white rayon; then trace on the patterns for 2 arms and legs.

Machine stitch along traced lines, leaving an opening for stuffing.

Cut out the pieces, leaving the following seam allowances: 1.5 cm at openings of arms and legs, 0.6 cm around fingers, 0.2 cm on curved areas of fingers; and 1.5 cm around all the head-foundation areas of the body.

3 TO MAKE A HEAD-FOUNDATION & BODY:

Turn white rayon foundation pieces right-side out and stuff firmly with packing material, using a screw driver. If more packing is needed, adding it before completely stuffing in the first amount will give a smooth, firm finish.

- ① Finish the neck of the head-foundation as firm as a bar, stuffing to right above the opening line.
- ② Sew along opening, turn allowance to wrong side and draw stitches to close end firmly. Secure again, working a crossed stitch over it.
- ③ Stuff packing firmly into the body up to the opening. Lap the ends, matching opening lines together and pin it steady.
- ④ Secure firmly with 2 strands of No. 8 machine thread, making rough stitches.

4 TO FORM THE BASE OF FACE:

Form the cotton wadding by tearing off the pieces needed with your hand. Head-foundation jaw, and forehead are arranged as follows.

- ① Make jaw first, and then forehead.

- ② Roll the piece up firmly, putting wadding piece for padding inside.

- ① Attach jaw piece to the head foundation with the jaw facing slightly downward, then make it steady with pins.

- ④ Sew on head foundation with No. 5 machine thread doubled, drawing large stitches. Tear away surplus wadding on the sides.

- ⑤ Attach forehead. Pin the piece steady, drawing lower ends on both sides slightly over the jaw piece. Tear away the surplus wadding and tuck in all ends.

- ⑥ Draw up to packing. Stitch the ends at the side firmly to head foundation.

- ⑦ Front

- ⑧ Back side

- ⑨ Spread wadding piece of 0.5 cm thickness. Lay on face at the bias.

- ⑩ Pull wadding upward, fitting to the shape of jaw (a). Wrap lower part round the neck as (b).

- ⑪ Smooth surface, fitting overlaid wadding carefully to the base. Tear away surplus at the back.

5 TO COVER THE BASE OF FACE WITH SKIN FABRIC:

Because of the elasticity of cotton jersey as a skin fabric, pin the ends of the stretched piece firmly to the base so the fabric does not become loose.

① Place face side down in the middle of skin fabric.

② Pin (a) to steady. Pull up the ends, both sides at a time, shaping the jaw. Pin (b) to the base so the fabric does not become loose.

③ Twist top corners, be careful not to make any folds on forehead; cross them on back and pin to hold steady (c).

④ Fold back the surplus at back neck, and pin to hold steady (d) (e).

⑤ Stitch to the head-foundation with No. 8 machine thread doubled, pulling the fabric slightly upward.

⑥ Secure (a) to the foundation, taking 3-4 stitches with single strand of No. 8 machine thread.

⑦ Scoop at 1 cm intervals.

⑧ Finished foundation.

⑦ With No. 8 thread, work fine stitches taking care not to make the fabric loosen at center back.

6 TO ATTACH EYES, NOSE & MOUTH:

Experiment by placing eyes, nose, and mouth on face until you have the expression you want; then mark their position lightly on the face with a pencil.

TO MAKE A NOSE

- ① Glue nose in position. Use strands of cotton to make a mouth. Carry the needle through following (a) (b) (c) in turn, bring the needle out opposite (a), fasten off the thread, pulling slightly.

- ② Make eyes of dacron georgette. Pulling out upper crosswise threads to make eyelashes. Cut into shape and glue in place. Apply rouge using wadding piece. Make freckles lightly with felt tip pen. The ink might spread on the fabric, so try on another scrap first.

7 TO MAKE ARMS:

Make plump hands, stuffing wadding into fingers and polyester batting into arms.

- ① Cut out arms with seam allowances, clip at the curve.

- ② Turn inside out using screw driver.

- ③ Turn fingers right side out one by one.

- ④ Wrap a piece of wadding round the No. 16 wire.

- ⑤ Insert into each finger and pull out the wire, leaving wadding piece inside.

- ⑥ Stuff polyester batting into arm using screw driver. Put a little piece into palm side, making back side of the hand plump. Hand stitch along opening, turning allowances inside, then fasten off.

8 TO MAKE LEGS:

Make legs, stuffing cotton wadding firmly.

- ① Clip at the curve, then turn inside out.

② Put wadding for padding on the stretched wadding piece.

③ Roll together firmly into leg size.

④ Stuff rolled wadding into the top opening.

⑤ Make a piece of wadding for foot.

⑥ Put lower end of the leg between the tear, wrap with the next piece.

⑦ Lap surplus wadding at back, pull down the foot fabric above. Stitch top opening closed and fasten off.

⑧ Stuff wadding up to the line of the sole.

⑨ Insert the cardboard sole. Hand-stitch along the sole and draw the thread, over-casting a few times crosswise, then secure the end.

9 TO PUT ON SHOES:

Cut out the pieces of shoes from fabric, referring to page 62. Make with glue.

① Turn the edge of half-circle piece 1 cm to wrong side, apply glue on it. Pin it to foot, covering instep.

② Hand-stitch along the cut edge with No. 8 machine thread doubled, draw the thread overcasting a few times crosswise, secure the end.

③ Turn 1 cm edge of oblong piece to wrong side, apply glue on it. Wrap the piece round the foot, turn the end at back to wrong side, pin to steady. Finish in fine slip-stitches with fabric color thread.

④ Hand-stitch along the edge with No. 8 machine thread doubled, overcasting crosswise, secure the end.

⑤ Pin felt sole to the base and sew on, working with fine slip-stitches.

⑥ Finished foot.

⑦ Put the finished legs together, join at the top taking a stitch to make their length the same.

10 TO SEW EACH SECTION ON THE BODY:

Check each section to see if the work is correctly done, then sew on to the body.

① Sew legs firmly on body front with 2 strands of No. 8 machine thread.

② Sew arms on body with a shank as button-sewing. Make a hole at the top of the body at right angles to the seam line; put scissors in and turn to enlarge to neck size.

③ Insert the neck.

④ Stitch firmly (so the head doesn't totter) to the body, bringing the needle through the middle of the neck to the front with 2 strands of No. 8 machine thread.

STUFFING MATERIALS:

Use three types of stuffing materials, packing, cotton wadding, and polyester batting to make the different part of the doll.

- Packing is strips of wooden shavings mainly used to form a head-foundation and body which finish has to be firm and solid.
- Cotton wadding is mainly used for the face, fingers, and legs which have to be finished softly and yet firmly. To get the sizes needed, tear off pieces roughly with hand instead of using scissors.
- Polyester batting is a convenient material, for it is springy without becoming bulky. Mainly used for the parts of arms and legs where wanted to be formed softly.

11 TO SEW CLOTHES:

Doll's clothes are partly sewn beforehand, then each garment completed by sewing it to the body.

12 TO SEW ON CLOTHES:

Sew on underwear first. Conceal cut ends or seam allowances with overlapped piece. Work fine stitches neatly where seen from outside.

- 1 Having drawn up lower ends of the bloomers, turn up waist section. Tuck at four places and secure. Put on petticoat, draw gather, and sew on body.
- 2 Put skirt over petticoat, draw gather slightly above waist of petticoat, overlay apron and secure to the body.
- 3 Put sleeves on arms, stitch and gather at top, secure to shoulders. Gather sleeve-ends, stitching 1 cm from edge.
- 4 Turn lower edge of bodice back 1 cm to wrong side, apply glue. Put it over the allowance of the skirt, pin sides firmly. Clip at (a) & (b).

- 5 Turn the allowance at neck and arms to wrong side, pin the pieces from shoulders and sides to body front.
- 6 Stitch to the body with 2 strands of No. 8 machine thread.
- 7 Lay thin wadding piece on the wrong side of front bodice.
- 8 Put the piece on the body front turning allowances to wrong side, secure sides and shoulders working in fine slip-stitches with sewing thread.
- 9 Clothed doll.

13 TO SEW ON HAIR AND CAP:

Make a bundle of yarn 160 cm long (the same length as the skein of yarn clipped at the center). Put it on the head, smoothing with a coarse tooth comb. Secure yarns following the arrows on the chart.

- ① Put front hair down on forehead, adjusting to the width of face. Steady with yarn carried across top (a) and slightly backward.

- ② Pin at the center back (b), bring yarn up to (c).

- ③ Pin at (c) & (d), place yarn as in (2). Pass the yarn to (e), putting widely along the outline of the face.

- ④ Having carried yarn across to point (g), secure at each point after (g) is secured to head.

- ⑤ Divide the remaining yarn in two, and bring down on both sides, secure at (h).

- ⑥ Apply paste on forehead and at position of ears, attach yarn to the skin-fabric.

- ⑦ Trim front hair evenly. Braid yarn on both sides, secure ends with ribbon.

- ⑧ Place cap on head, secure above the front hair and at neck back with glue.

PRINCE & PRINCESS

Shown on pages 20-21.

Put a piece of wire into their arms and legs and pose them as you like. Make a stand of board 2.5 cm or higher, and make a hole with a gimlet to set each foot firmly on the board.

YOU'LL NEED (body materials for both):

Head—foundation. Body, Arms, Legs—50 cm by 30 cm white rayon. Face, Nose, Arms—35 cm by 28 cm beige grosgrain. Eyes—dacron grosgrain. Mouth—strands of embroidery thread. Hair—mohair yarn. Also—wire No. 12, No. 18, packing, cotton wadding, polyester batting.

(Prince): Legs—28 cm by 14 cm silver lamé. Sleeves—24 cm by 16 cm dacron sermucker, 40 cm of 2 cm lace. Bodice, Hat—44 cm by 13 cm purple felt, 100 cm of 2.5 cm braid. Shoes—26 cm of 2 cm black and gold braid, 5 cm by 4.5 cm black felt.

(Princess): Legs, Bloomers—28 cm by 26 cm white grosgrain, 44 cm of 4 cm lace. Petticoat—40 cm by 11 cm non-woven fabric. Dress—44 cm by 20 cm white lace, 170 cm of 1.8 cm floral braid, 15 cm of 2 cm lace. Hair Ornament, Bouquet—artificial flowers, leaves, 10 cm of 1.8 cm floral braid. Shoes—26 cm of 2 cm pale pink braid, 5 cm by 4.5 cm white felt.

FINISHED SIZE: Refer to diagram.

INSTRUCTIONS:

The basic method is the same as for Hiji, so refer to pages 50-64.

Prince: Make arms and legs with wire inserted in the middle, and connect it with wire inserted into the body.

Make him stand by connecting the wires from the legs to his stand.

Princess: Make body in same manner as for prince, put on underwear and dress.

Sew on hair in the same way as for Hiji, attach back hair of twined yarn. Sew on hair ornament, and let her hold bouquet in the bent hand.
