***The success of Villawool designs is entirely dependent
on the use of the recommended Villawool yarns.***

NOTE: Every effort has been made to have the knitting directions contained in this book accurate and complete. However, we cannot accept responsibility for variance of individual knitters or the use of yarn other than specified. The designs within have been specially made for the Villawool yarns as stated.

The importance of TENSION

Almost everyone knits differently—some tightly, some loosely—and because of this there will naturally be variations in finished garments.

In each pattern a **needle size** is given for the **tension required** and all garments illustrated in our books are made to this given tension and needle size. However, the knitter must work the tension **regardless of the needles** stipulated, so she must use needles which give her the correct tension. A tight knitter should use a size larger needles and a loose knitter should use a size smaller needles.

Before attempting a design, it is essential to work a small sample until the tension is accurate.

AND NOW MACHINE WASHABLE PURE WOOL

The patterns in this book are all made in 100% wool or Bri Nylon.

Bri Nylon yarns have always been machine washable . . . and now for the first time there are Villawool yarns of PURE WOOL which are fully machine washable and which will spin dry. These yarns are Super Baby Wool, Superknit 4 ply fingering and Superknit 5 ply Crepe.
