## GAUGE

Exact gauge is **essential** for proper size and fit. Before beginning your project, make the sample swatch given in the individual instructions in the yarn and hook specified. After completing the swatch, measure it, counting your stitches and rows carefully. If your swatch is larger or smaller than specified, **make another, changing hook size to get the correct gauge.** Keep trying until you find the size hook that will give you the specified gauge.

## HINTS

As in all crocheted pieces, good finishing techniques make a big difference in the quality of the piece. Make a habit of taking care of loose ends as you work. Thread a yarn needle with the yarn end. With **wrong** side facing, weave the needle through several inches, then reverse the direction and weave it back through several inches. When ends are secure, clip them off close to work.

## MARKERS

Markers are used to help distinguish the beginning of each round being worked. Place a 2" scrap piece of yarn before the first stitch of each round, moving marker after each round is complete. When instructed to move a marker within a round, complete stitches indicated and move marker after last stitch made to mark beginning of next round.

## JOINING WITH SC

When instructed to join with sc, begin with a slip knot on hook. Insert hook in stitch or space indicated, YO and pull up a loop, YO and draw through both loops on hook (**Figs. 1a & b**).
