Sock Ribbing (Right)

Notice bead marker, I always keep the start/end of row as near to centre of a needle as possible as bead marker is then easier to control.

Cuff (Left)

This is how your sock should look when you have finished your Cuff.

Heel Flap (Right)

This is how your sock should look after you have completed your heel flap. It is literally a square made up using half your stitches.

To Shape The Heel (Left)

You should just be able to see the 'V' shape made when decreasing stitches.

Gusset Shaping (Right)

This is how your Gusset will look when you have decreased your stitches back to the original amount you had on your needles. Notice side marker now being used.

Toe Shaping (Left)

You can hopefully just see where I have decreased at either side of stitch marker to shape the toe.
