Tip

Winding of wool

If you are purchasing yarns in a form of skein (especially natural yarns are still sold in that way), or you are undoing a knitted garment and wish to re-use the wool follow our tip below:

place the yarn over the back of 2 chairs. Move these apart until the skein is firmly in position. You can now wind your wool without any assistance.

This method can also be employed to smooth used yarns. It is necessary to dampen the yarn slightly before following the procedure above. Leave until dry. The wool will be soft and ready to use.

How to keep fit

Do you tire easily when crocheting? Then you should first check to make sure you are sitting in a relaxed position.

*

Frequently a small stool under your feet can work wonders.

*

If, on the odd occasion, you want to knit or crochet for a particularly long time, then position a bright lightbulb behind your neck. This radiates warmth, making the blood flow through your muscles better, and preventing them from hurting.

*

It also helps if you let your arms and shoulders relax and hang limply forwards about once every half hour.

*

Drawing circles with your head also relaxes your neck muscles, which frequently get very taut when crocheting. First let your head hang loosely forwards, then nod backwards and forwards several times. Then slowly let your head draw circles, working in a clockwise direction. Keep your head as far out and as relaxed as possible. Make three circles in one direction, then do the same in the other direction. Finally let your head hang loosely forwards again. Don't you feel a lot fresher already?

*

Of course you could also use compressions to fight tiredness. First lay yourself down comfortably, then put cold pads on your eyes. Stay like this for five minutes, then turn over and lay on your stomach, placing the pads on your neck.

Do not forget the tension swatch

To make sure, your garments are a good fit, you must check that the number of stitches and rows in 10 cm agree with those given. Cast on at least 60 sts. in the appropriate pattern and knit 10 R.

Knit 1 R. contrast yarn. Knit 30 rows and mark stitch 21 on each side of centre Ø with contrast yarn. Knit a further 30 rows. Knit 1 row contrast yarn. Knit 10 rows pattern. Take off the machine, pull lengthwise and let the swatch rest. Using the Knitmaster "Green Ruler" lay it between the marked stitches and read off the number of stitches per 10 cm. Repeat for the number of rows. If the figures don't agree, either alter the tension dial setting or work out the number of stitches required, using the measurements given.
