Professional finishing touches for your gifts & treasures

BULLION STITCH

Make a back stitch, the size of the Bullion Stitch required, and bring the needle out where it first emerged, without pulling right through. Wind the yarn around the point of the needle as many times as required. Holding the left thumb on the coiled thread, pull the needle through. Still holding the coiled thread, turn the needle back to where it was inserted and insert in the same place. Pull the needle through. A Bullion Rose consists of a number of Bullion Sts in a cluster.

CHAIN STITCH

This can be worked vertically, horizontally or diagonally across the fabric or in a circle.

CRAB STITCH

Crab stitch for Reversed Double Crochet is used as a decorative texture or edging. It consists of working double crochet stitches in the 'wrong' direction (from left to right for right handers).

1. and 2. After a right side row, do not turn. Always starting with the hook facing downwards insert the hook back into the next stitch to the right. Pull the yarn through twisting the hook to face upwards at the same time.
3. Wrap the yarn and draw through, to finish off the dc as normally.
4. Insert the hook ready for next stitch.

CROCHET BUTTON (Makes 1)

Using 3.50mm hook and MC, make 4ch (leaving an end 20cm long at beg for sewing up), st st to form a ring.

1st Round: 1ch, 8dc in ring, st st in first dc at beg

2nd Round: 1ch, 1dc in same place as st st, 1dc in each of next 7dc, st st in first dc at beg. Rep last round twice.

Fasten off, leaving an end 25cm long. Turn button inside out. Fill button with 25cm long end and then using 20cm end, close opening - DO NOT BREAK OFF YARN - leaving end until required for attaching button.

FAIR ISLE

Colours not in use are carried loosely across the wrong side of work so as not to distort the fabric.

1. Hold the first colour in your right hand and the second colour in your left hand. Work as normal with the first colour, carrying the second 'loosely' across the wrong side of work.
2. When the second colour is required, insert the right hand needle into the next stitch and draw a loop through from the yarn held in the left hand, carrying the yarn in the right hand loosely across the wrong side until next required.

If there are more than 6 stitches worked in one colour, cross the yarns over each other on every 3rd or 4th stitch to avoid long, loose strands.

If you find it awkward to hold the yarns in both hands, simply work as usual, dropping the yarn not in use and picking it up again when required, making sure that it is not pulled too tightly across the wrong side. Always carry the same colour across the top throughout the row for a neat appearance on the wrong side, and to avoid the yarns becoming twisted.

FINGER FLOWERS

1. Cut a length of yarn 15cm long (either same colour as flower or contrasting colour) to the centre of flower. Wind another length of yarn around one finger eight times, overlapping ends. →

Glossary

2. Remove from finger, pressing loops flat, and tie around centre of loops with 15cm length. Trim off excess.

3. Divide loops into two on each side of knot and tie again, making a cross in centre of flower. Leave ends of tying thread to attach flower.

FRENCH KNOTS

Bring the needle from the back to the front of the work and wind the yarn several times around the needle according to the size of the knot required. Take the needle back through the same place and draw the yarn through, forming a small knot on the right side. If the knot tends to slip through to the wrong side, insert the needle half a stitch further on to avoid this.

HOLLYHOCK FLOWER (buttonhole stitch worked in a circle)

Bring the needle out of the fabric, locating the centre of the flower. Insert the needle in the same place and bring out at the edge of the flower; loop the thread under the needle and pull through. Repeat around edge of flower.

KNITTING STITCH EMBROIDERY

(refer page 11)

LAZY DAISY STITCH

This is a method of working individual chain stitches to form 'petals' which can be grouped together to make a flower of 4, 5 or more petals.

LOOP STITCH

1. Knit the next stitch, but do not allow the loop to drop off the left hand needle. Bring the yarn to the front between the two needles, and wind the yarn around your left thumb.
2. Take the yarn to the back again between the needles and knit into the same stitch remaining on the left hand needle - making two stitches out of the original one. Slip the stitch off the left hand needle.
3. Place both stitches back on the left hand needle and knit them together through the back of the loops to complete the stitch.

MATRRESS STITCH

This seam will give your garment a professional finish. Even if you have always used backstitch or oversewn seams, try this method and you will be surprised how easy it is and how much better the seams look and feel.

Matress stitch should be worked one whole stitch in front the edge. It can even be worked on shaped edges - as you are working from the right side, it is easy to see where you are and to keep the seam neat and straight.

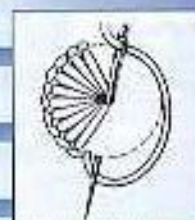

When starting, leave a long end which can be secured by running it back along the edge when the seam is completed. If the seam needs to be undone, simply pull this end, drawing the yarn through the stitches.

1. With right side facing you, lay the two pieces to be joined flat and edge to edge. Thread a knitters needle and insert the needle between the edge stitch and the second stitch on the first row. Pass the needle under two rows, then bring it back through to the front.
2. Return to the opposite side and, working under two rows at the same time throughout, repeat this zigzag action always taking the needle under the strands that correspond exactly to the other side, and going into the hole that the last stitch on that side came out of, taking care not to miss any rows.

The matress stitch stitching should be elastic without being loose - while working keep yarn held firm, not pulling sts too tightly.

POMPON

1. Decide the size of the Pompon, then cut two circles of card, the diameter of which will be slightly larger than the size of the finished pompon. Cut a smaller hole in the centre of each circle, about half the size of the original diameter.

2. Holding the two circles together, wind the yarn around the ring (using several strands at a time), until the ring is completely covered.

3. Cut all around the outside edge between the two circles using a sharp pair of scissors. Make sure all the yarn has been cut.

4. Separate the two circles slightly, wind a length of yarn between them (to form a knot), leaving sufficient yarn for sewing the pompon in place. Pull the two circles apart and fluff out yarn to cover centre joint. Trim as desired.

SATIN STITCH

This is used to completely cover an area of knitting without duplicating stitches.

STEM STITCH

Stem stitch is worked from left to right, taking small sts across. Always keep the thread below the needle (refer illustration).

TASSEL

1. Cut a rectangle of card as wide as the required length of the finished tassel. Wind the yarn around the card until the required thickness is reached. Break the yarn, thread through a bodkins' needle and pass the needle under all the loops. Do not remove needle.

2. Tie the end of the yarn firmly around the loops; remove the card and cut through the loops at the opposite end to the knot.

3. Wind a length of yarn around all the loops 2cm below the fold and fasten securely. Pass the needle through the top and use the end to sew in place. Trim the end neatly.

THUMB METHOD FOR CASTING ON

1. Casting on 'Thumb Method' requires the use of your left thumb and 1 knitting needle. To begin, make a slip knot, leaving a length of yarn before the slip knot approx 4 times the required width for the sts cast on. Assessing this measurement takes some practice, but as a general rule allow approx 2.5 metres for an adult's garment for Back and Front and approx 1 metre for sleeves. Place the slip knot on needle in your right hand. * Wrap yarn end around the left thumb from front to back.

2. Insert the needle upwards through the yarn on the thumb and knit the st in the usual manner.

3. Remove the yarn from thumb and pull yarn slightly to tighten st. Repeat from * until the required number of sts have been cast on (counting the slip knot as 1 st).

TWISTED CORD

1. Cut the required number of strands of yarn 2 - 3 times the length of the finished cord eg. 4 strands of yarn 100cm long will produce a cord 5 strands thick and approx 40cm long. Knot the strands together at each end, making sure all lengths are equal.

2. Attach one end to a pin, hook or handle, insert a knitting needle through the other end. Turn the knitting needle clockwise until the strands are well twisted.

3. Holding the centre of the cord, place the needle and the hook end together, keeping the cord taut to avoid tangling. →

Glossary

4. Release the centre of the cord so that the two halves twist together. Smooth out any lumps. Knot and trim both ends.

TRIPLE LOOP STITCH

1. Take the yarn to the back (right side) of the work and insert the right hand needle halfway into the next stitch. Put two fingers of your left hand behind the stitch and wind the yarn three times around both fingers and right hand needle in an anti-clockwise direction.

2. Use the right hand needle to draw the loops through the stitch without allowing the original stitch to drop off the left hand needle.

3. Remove one finger from loops, replace the new loops back on the left hand needle and bring the loops down at the back of work with the fingers of left hand, pull the loops through firmly on the right side.

4. You have made one Triple Loop Stitch.
