How to Crochet

Holding yarn and hook

Holding hook between first finger and thumb of right hand and letting second finger rest near point of hook, make a loop by wrapping the yarn round first and second fingers of left hand. Place the hook under the front loop and draw the back loop through. Withdraw fingers from loop and draw loop up on hook.

Holding work, as it is formed, between first finger and thumb of left hand, pass yarn from ball over first and second fingers, under third and round little finger.

○ Chain stitch (ch)

Commencement of all crochet work:- Holding yarn and hook as described above and making a slip loop to begin with, * pass hook from left to right under yarn (held in left hand), draw this thread through loop already on hook and rep from * for length required.

Counting Chain Stitches

To count the number of chain stitches made, hold the chain so that the "Vs"s are all lined up. Do not count the loop on the hook or the slip knot you made when beginning the chain. Each V counts as one chain made. When making a long chain, place a safety pin or marker at regular intervals to keep track of the count. A few extra chains can be unpicked after the foundation row has been worked.

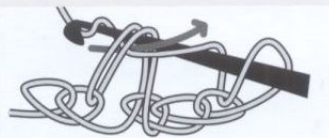

Treble stitch (tr) - Base stitch throughout the book

Step 1

Pass yarn around hook (known as yarn over hook and abbreviated as yoh) and insert the hook into the work (fourth chain from hook on starting (foundation) chain).

Step 2

Yarn over hook and draw through the work only. (How far you pull the yarn through will determine the height of the finished stitch.)

Step 3

Yarn over hook and draw through the first two loops on hook.

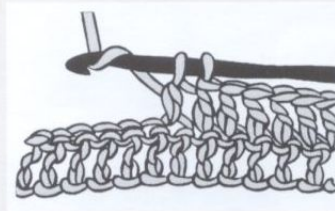

Step 4

Yarn over hook and draw through the last two loops on hook. 1tr made.

Step 5

Begin next tr - yarn over hook and insert hook into next stitch. Repeat from Step 2.

+ Double crochet (dc)

Draw a loop through st, then draw a loop through both loops on hook

WORKING FROM A STITCH DIAGRAM

A stitch diagram gives a pictorial representation of the work, which is very useful for more involved patterns. The stitch diagram for the basic tr square shows the foundation ch at the bottom, the first row worked from right to left (see arrow) with the turning ch at the beginning, the second row worked from left to right with 1dc and 1ch as the turning ch, then a third row which is the same as the second row but worked from the other direction. The shaded area shows the pattern repeat (the stitches worked over and over again to form a pattern).

Stitch diagrams show where to work the stitches which is important for more complex patterns.

MAKING A PRACTICE SQUARE

Step 1 - The foundation chain

If working with 4ply, using 3.00mm hook, make 36ch.

If working with 8ply, using 4.00mm hook, make 29ch.

Step 2 - The first row

The first 3ch (those closest to the hook) will form the **turning ch** which counts as 1tr.

Work 1tr into each of the remaining ch. 8ply workers should have 27tr and 4ply workers should have 34tr (including turning ch).

Step 3 - The turning ch

A turning ch is necessary at the beginning of each row to reach the height of the stitch.

For the first row, we worked extra chain with the foundation chain. We could make 3ch at the beginning of each row to use as the turning ch, as in the pants, hat and pram covers in this book.

For a more stable edge, such as required in the Cardigans, we recommend working a dc (or double crochet) followed by a ch. Turn the work, work a dc (see above) into the top of the stitch next to the hook, working through both loops. Always work through both loops of a stitch unless otherwise stated. Make a ch to reach the height of a tr. The dc and ch combined are considered to be the turning ch and are counted as 1tr.

Step 4 - The second row

Work a tr into each of the stitches along the row, working the last stitch into the top of the turning ch. Count the stitches at the end of the row to make sure you have worked every stitch.

Step 5 - Completing the square

Repeat steps 3 and 4 until your work is as long as it is wide. Fasten off by cutting the yarn (leaving an end a few centimetres long) and pulling the end through the loop.

Step 6 - Measure your tension

Place the square on a flat surface, measure 10cm across, placing pins 10cm apart. Count the number of stitches in between the pins. Repeat in the other direction for rows. The patterns in this book are written to a tension of 23tr and 12 rows to 10cm for 4ply and 18tr and 10 rows to 10cm for 8ply. If you are getting too many stitches and rows, try using a bigger hook. If you are not getting enough stitches and rows, try using a smaller hook.

Congratulations on working your first crochet square.

How to make the first crochet set

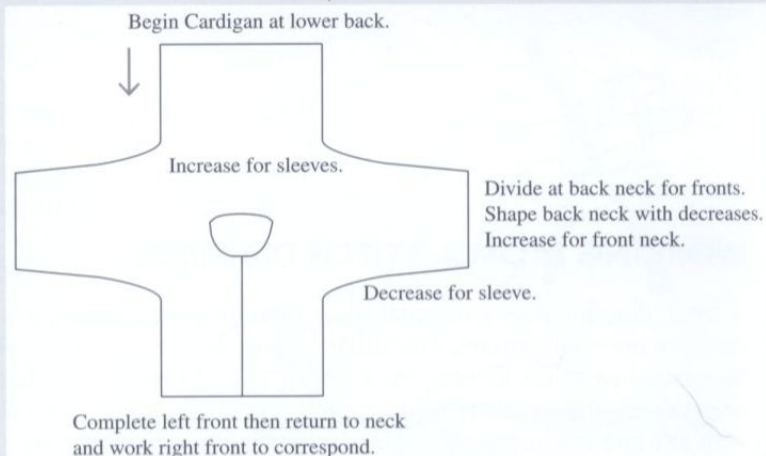

Increasing

In this book, we increase by working 2 stitches into the same stitch (see the stitch diagram for the Hat below).

Decreasing

There are many ways to decrease in crochet. Usually the pattern should tell you how to decrease. Because decreasing changes from pattern to pattern abbreviations for decreasing will be found at the beginning of the relevant pattern rather than with the standard abbreviations. In this book we use two decreases.

- 'Dec A'** - This decrease is used at the end or in the middle of a row and involves starting 2 trebles (stopping after step 3 - see page 8), then work as for step 4 but going through all 3 loops on hook.
- 'Dec B'** - This decrease can only be used at the beginning of a row. Instead of working 1dc and 1ch for the turning ch, work just the dc. When working the following row do not work into this st.

Slip stitch (sl st)

Pass hook through st, draw yarn through both loops on hook.

Working in Rounds

To work in rounds as for the hats in this book:

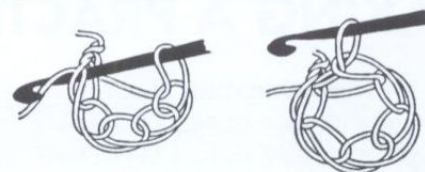

Make a chain of 5 sts (or required number).

To form a ring:

Make a slip stitch by inserting hook in first of these ch, pass yarn round hook, and draw this thread through both loops on hook.

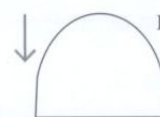

Begin the first round with a turning ch of 3ch to bring your work up to the height of a tr, then work the trebles all into the ring (not the individual chains). End the round with a sl st in the top of the turning ch (omitting the sl st and turning ch at beg of next round would give a spiral effect).

The crown shaping is made by working 2tr into evenly spaced sts in each round until the Hat is the required diameter. Then continue without increasing until the Hat is the required length.

HATS

Join 5 chain to make a ring.

Increase out from crown.

Continue in rounds until required length.

To work in rounds as for the pants in this book:

Make a chain of required number of stitches.

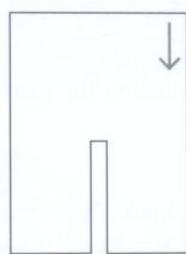

To form a ring:

Make a slip stitch by inserting hook in first of these ch, pass yarn round hook, and draw this thread through both loops on hook.

Begin the first round with a turning ch of 3ch to bring your work up to the height of a tr, then work a treble into each ch. End the round with a sl st in the top of the turning ch (omitting the sl st and turning ch at beg of next round would give a spiral effect).

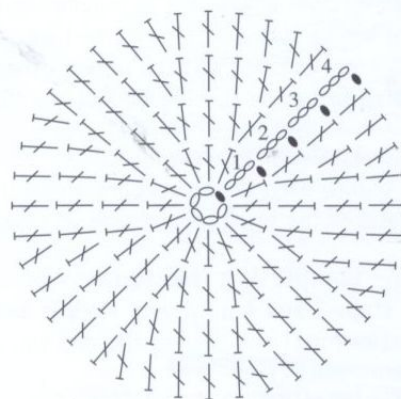

PANTS

Make chain and join to make large loop.

Work in rounds to crotch.

Work legs separately in rounds.

KEY - Shaded area represents st repeat.

Extending your skills

CHANGING COLOURS

When changing colours, work the last step (step 4 on page 8) of the last stitch of the old colour in the new colour. This gives a neater colour change.

Half treble (htr)
 Pass yarn round hook, draw a loop through st, draw a loop through all 3 loops on hook.

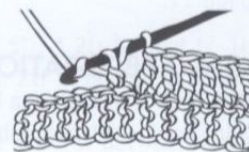

WORKING SHELLS

'Shells' are formed by working a number of stitches into the same place (as in Design 5). They can be the same stitch or vary. In Design 5 we have (3tr, 2ch, 3tr) shells.

WORKING CLUSTERS

Clusters are similar to combining an increase with a decrease and a bit like working a shell but the group of stitches are gathered together at the top as a feature. A cluster can be made up of any combination of stitches. In Design 4 there are three double trebles worked into a 3ch sp and gathered together for each cluster.

Double treble (dtr)
 Yarn twice round hook, draw a loop through st, draw a loop through first 2 loops on hook, draw a loop through next 2 loops, then another through last 2 loops (thereby completing one double treble st).

Work your double treble in the usual way - yarn over hook twice, draw up a loop in the next 3ch sp, then instead of working (yarn over hook and drawing through the first 2 loops on hook) 3 times - do this only twice as specified in the abbreviation. This way you are left with the last loop of the double treble on the hook. Repeat this process - yarn over hook twice - another 2 times, leaving 4 loops on the hook. Finally work another yarn over hook and draw through these 4 loops, thus completing the cluster. A cluster can consist of more than three stitches and even up to five stitches. Clusters are usually worked in a chain loop or over a number of stitches. When a cluster is worked into one stitch only it forms a bobble.

POMPONS

Pompon makers can be bought at yarn stores, or made by using cardboard and following the easy steps below.

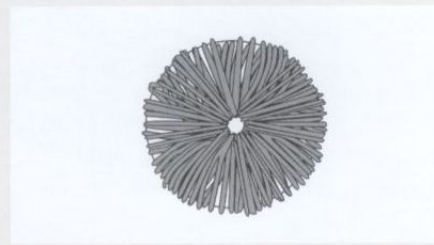

1. Cut out two circles of cardboard for your project. Cut the hole in the centre of both circles.

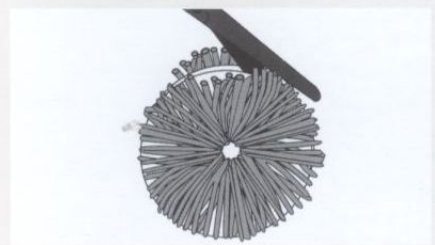

2. Put the two circles together and wind yarn round and round the cardboard.

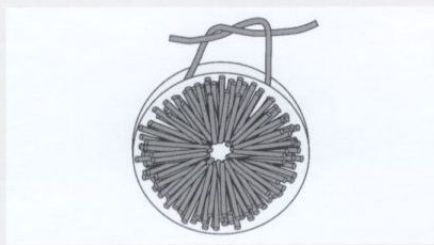

3. Keep winding until the centre hole is completely filled up.

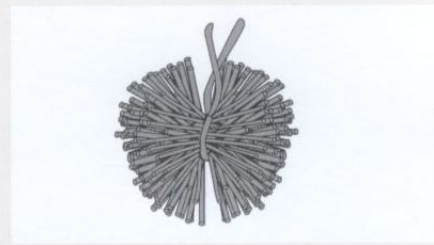

4. Place the point of a pair of scissors between the two circles of cardboard and cut around the yarn, keeping the scissors between the circles all the time.

5. Using a double strand of yarn, wrap it round between the two circles of cardboard, knot firmly and take away the cardboard.

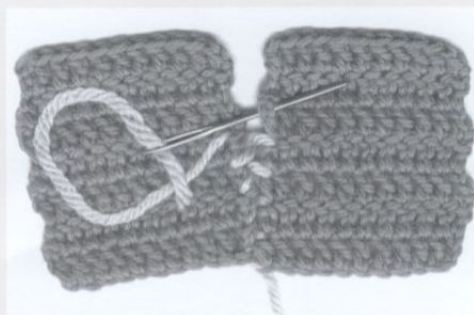

6. Trim the pompon.

FLAT SEAM

Flat seam may be worked from either the right or the wrong side of the work. Place the 2 pieces of fabric evenly together and sew stitch by stitch, always bringing the needle up from underneath to top through the centre of the stitch, then in same manner through corresponding stitch on second piece.

Note: Always keep work elastic - there should be as much stretch in your seam as there is in the rest of your garment.

TASSELS

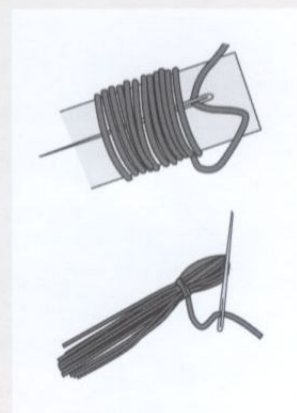

You will need cardboard, yarn and a wool needle.

1. Cut a rectangle of card as wide as the required length of the finished tassel. Wind the yarn around the card until the required thickness is reached.

2. Break the yarn, thread through a wool needle and pass the needle under all the loops. Do not remove needle.

3. Tie the end of the yarn firmly around the loops, remove the card and cut through the loops at the opposite end to the knot.

4. Wind a length of yarn around all the loops 2cm below the fold and fasten securely. Pass the needle through the top and use the end to sew in place. Trim the end neatly.
