THE NEW HAND KNIT BALL RATING - TO HELP YOU TO CHOOSE THE PATTERN SUITED TO YOUR KNITTING ABILITY.

One ball says this is a beginner level of knitting. Knit and Purl stitches, casting on and off and some basic increasing and decreasing.

Two balls mean easy knits, with knit-purl stitch patterns, simple lace patterns (no shaping in the lace), slip-stitch patterns, and cables.

Three balls are advanced knitters requiring some specialised knowledge, such as Fair Isle, Aran and more complicated lace patterns.

Four balls signal a *challenge knit*. There can be make-and-lose patterns, complicated shaping, and any technique that requires a higher level of concentration.

P This letter P after any ball grouping suggests that an additional degree of patience is required for a quality finish.

These ball ratings will now be on all new and reprinted Cleckheaton books and leaflets.

This system has been developed to give the knitter a better understanding of the comparable ease or complexity which would be experienced in knitting any one design.

TENSION

Before commencing your garment it is essential to first check your tension. Using needles and yarn specified in the instructions, cast on the number of stitches stated in tension plus 8 sts, i.e. 22 sts to 10 cm over stocking st, using 4 mm needles.

Cast on 22 sts plus another 8 sts, as 4 sts at each end of work are rarely the correct tension. Check your tension by placing a RULER along the stitches, marking the centimetres with pins and very accurately counting the number of stitches between the pins.

If there are too many stitches between the pins, your tension is **too firm** - try a larger size

needle. If there are too few stitches between the pins, your tension is **too loose** - try a smaller size needle. If you have to change your needle size to arrive at the correct tension in stocking st (or patt), you must also make corresponding alterations to all needle sizes mentioned in the instructions.

Secure the sewing yarn to one side of the pieces to be joined then pass the needle through the edge stitch on the underside piece directly across to the matching stitch on the upperside piece and pull the yarn through. Turn the needle and work back through the next stitch on the upperside piece directly across to the matching stitch on the underside piece, again pulling the yarn through. Continue in this way until the seam is completed.

"KNIT-IN-ELASTIC"

To prevent lower bands, cuffs and certain types of Neckbands and Collars from stretching, we suggest using Aero "Knit-in-Elastic" knitted together with yarn (in areas mentioned above only).

FRONT BANDS

The right side of a K1, P1 front band always has a K1 rib alongside the pip edge of the front band itself. Ensure that any horizontal pattern or stripe will match when the buttons are done up.

Each band should be slightly less than the finished length of the main fabric and should be slightly stretched and pinned into position before seaming.

SEWING IN ZIP FASTENERS

Pin the zip fastener into the required opening, taking care not to stretch the knitting. With the right side of the work facing, sew in the zip using a back stitch seam and keeping as close to the edge of the knitting as possible. When inserting an open-ended zip, keep the fastener closed and insert it as for an opening from top to lower edge, fastening off securely at the end. Break off the yarn and work along the other side in the same way. This ensures that both sides match and that

one side is not pulled out of shape, making it difficult to operate the zip smoothly.

TENSION:

This garment has been designed at a tension of - 26 sts to 10 cm over st st, using 3.75 mm needles.

BACK:

Using 3 mm needles and MC, cast on 67 (73, 79) sts.

1st Row: K2, * P1, K1, rep from * to last st, K1.

2nd Row: K1, * P1, K1, rep from * to end.

Rep 1st and 2nd rows until band measures 3 (3, 4) cm from beg. ending with a 2nd row.

Change to 3.75 mm needles. **

NOTE: When changing colours in centre of row, twist the colour to be used underneath and to the right of colour just used, making sure both yarns are worked firmly at joins. Always change colours on wrong side of work so colour change does not show on right side. Use a separate ball of yarn for each section of colour. We suggest using bobbins. Wind a quantity of yarn around bobbin and place end through a slot to hold.

Unwind only enough yarn to knit required sts, then place yarn in slot, keeping bobbin close to work.

Tie coloured threads 9.5 (10.5, 11) cm down from each shoulder. Using back stitch, sew in sleeves evenly between coloured threads. Join side and sleeve seams. Sew on buttons.

KNITTING STITCH EMBROIDERY

KNITTING STITCH EMBROIDERY is particularly effective on plain knitting. Your garment can be quickly transformed by the addition of embroidered motifs to yoke or pockets, and children love to have an illustration from their favourite books transferred to a cardigan or jumper.

Use the same thickness of yarn for embroidery as used in the garment. You could use a thicker yarn if necessary, but a thinner yarn would not give a good result.

Knitting stitch is a stitch worked directly over each knitted stitch, with a contrasting colour to represent the same knitted stitch, as before. Each

square on the Graph represents one stitch.

Insert needle from back of work, in the centre of any stitch and draw through. * Insert needle from right to left, underneath the two loops of the same stitch one row above, and draw through, then insert needle back into original place where needle was first inserted, draw underneath the two loops still working from right to left, and out into the centre of the next stitch (thus completing one knitting stitch), rep from * to end of Graph pattern.

All rows of pattern are worked from right to left, then from left to right, till the motifs or patterns have been completed.

GRAPH A

Stem stitch is primarily an outlining stitch, but is often used to work stems in floral designs as well. Working from left to right, bring needle out at 1. Insert at 2 and exit a half stitch length back at 3; distances 1 - 3 and 3 - 2 should be equal. Repeat sequence.

Note that point 3 of previous stitch is now point 1, and the needle emerging at 3 is coming from hole at point 2 of the previous stitch. Keep thread below needle. For a broader stem stitch, angle the needle slightly when entering at 2 and exiting at 3 as in last drawing.

TO MAKE UP:

Using back stitch, join foot and leg seams, reversing seam for last half of rib. Using 3 strands of C2 each 150 cm long, make 2 twisted cords and thread through eyelet holes at ankle. Tie in a bow at front as illustrated. Fold rib section in half onto right side.

PICKING UP STITCHES

Unless otherwise stated in the instructions, the right side of the fabric should be facing you and the total number of stitches will be picked up with one of a pair of needles if worked in rows, or three of a set of four needles if worked in rounds. The needle and yarn should be held in the right hand in the normal way.

* Insert the point of the needle from the front to the back of the fabric one complete stitch in from the edge. Put the yarn under and over the needle,

pull the loop on the needle through the fabric fairly loosely and leave it on the needle to form one stitch. Repeat from the point marked with an * until the required number of stitches has been picked up.
