## Tension: Gauge over st-st

30 sts to 10 cm (4 ins) in width on 2.75 mm needles  
 For best results check your tension carefully.  
 If you have more than 30 sts to 10cm (4ins) your tension is too tight and you should change to a larger needle.  
 If you have less than 30 sts, your tension is too loose and you should change to a smaller needle.
