General Directions

There are several basic techniques and information on materials that will help you in creating these chair sets. We have included this information here. We suggest that you read through these General Directions carefully before beginning your project.

A Word About Gauge

Correct stitch gauge is very important. Please take the time to work a stitch gauge swatch about 4" x 4". Measure the swatch. If the number of stitches and rows are fewer than indicated under "Gauge" in the pattern, your hook is too large. Try another swatch with a smaller hook. If the number of stitches and rows are more than indicated under "Gauge" in the pattern, your hook is too small. Try another swatch with a larger hook.

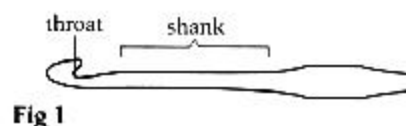

Crochet Materials

Steel Hooks:

If you have never worked with steel hooks and finer thread, don't be afraid to try. You will be using exactly the same stitches you're familiar with, but at first it will feel clumsy and awkward. For an experienced crocheter, this is a bit of a surprise -- suddenly feeling all thumbs again just as when you first learned to crochet. But this will pass in a few hours of crocheting, as you adjust your tension and working method to the new tools. Soon you will work much more by feel than when working with heavier yarns. So be patient with any initial clumsiness and confusion -- they won't be with you long.

Steel hooks range in United States sizes from 00 (large) to 14 (very fine), and are 5" long which is shorter than the aluminum or plastic hooks. Their shape is different from the other crochet hooks. There is the throat, then the shank, and

after the shank the steel begins to widen again before it reaches the finger grip (**Fig 1**). When crocheting, it is important that the stitches do not slide beyond the shank as this will cause a loose tension and alter the gauge. If you find you are having difficulty at first, put a piece of cellophane tape around the hook to keep the stitches from sliding past the correct area. With practice, you will work in the right place automatically.

Crochet Thread:

Bedspread-weight crochet cotton, the size usually used to make tablecloths and bedspreads, is used for the projects in this book. It is sold under various brand names, such as: J. & P. Coats "Knit-Cro-Sheen"® or "Southmaid"; Anchor "Crochet Cotton" size 10; DMC "Cebelia" size 10 or "Baroque"; American Thread "Giant"; Grandma's Best; or Lily "Daisy."

Blocking Instructions

Blocking your finished pieces is the final and most important step in creating beautiful heirlooms. Please take the time to follow these simple instructions:

Step 1: Wash your finished pieces carefully by hand using a mild soap. Rinse well in warm water.

Step 2: Place pieces on pinning board (we prefer Styrofoam®). Pin to shape using rust-proof pins. Let dry thoroughly.

Step 3: Remove pieces from pinning board.

* An asterisk is used to mark the beginning of a portion of instructions which will be worked more than once; thus, "rep from * twice" means after working the instructions once, repeat the instructions following the asterisk twice more (3 times in all).

† The dagger (or †† double daggers) identifies a portion of instructions that will be repeated again later in the same row or round.

: The number after a colon at the end of a row indicates the number of stitches you should have when the row has been completed.

() Parentheses are used to enclose instructions which should be worked the exact number of times specified immediately following the parentheses, such as (2 sc in next dc, sc in next dc) twice. They are also used to set off and clarify a group of stitches that are to be worked all into the same space or stitch, such as (2 dc, ch 1, 2 dc) in corner sp.

[] Brackets and () parentheses are also used to provide additional information to clarify instructions.

Join - join with a sl st unless otherwise specified.

The patterns in this book are written using United States terminology.

Terms which have different English equivalents are noted below.

United States	English
single crochet (sc)	double crochet (dc)
half double crochet (hdc)	half treble (htr)
double crochet (dc)	treble (tr)
triple crochet (trc)	double treble (dtr)
triple triple crochet (tr trc)	quadruple treble (q[uad] tr)
skip (sk)	miss
slip stitch (sl st)	slip stitch (ss) or ("single crochet")
gauge	tension
yarn over (YO)	yarn over hook (YOH)
bedspread-weight crochet cotton	lightweight crochet cotton
