GENERAL INSTRUCTIONS

Hint: One very common mistake people make in crocheting these dolls is to stitch the body onto the head, and the arms onto the hands with the wrong side of the crochet facing out. The right side will look smoother and nicer, so be sure to turn your work right side out before stitching. This applies to the legs, also. If your body or arms have ridges, you have probably crocheted in the back loop only throughout the pattern. Be sure to crochet thru both loops of each stitch unless otherwise specified.

arnd	around	rep	repeat
beg	beginning	rem	remaining
ch	chain	sc	single crochet
dc	double crochet	sk	skip
dec	decrease	sl st	slip stitch
ea	each	sp	space
hdc	half double crochet	st	stitch
inc	increase	thru	through
lp	loop	tog	together
patt	pattern	tr	treble crochet
rnd	round	yo	yarn over

(). *: When you see a set of parentheses or asterisk, repeat whatever is within them the specified number of times immediately following them. For example: (2 dc in next st, dc in each of next 2 dc) arnd, would mean to repeat the stitches listed in the order given, over and over again until you have gone all the way around the row.

Inc: Work 2 stitches in one stitch.

dec: When making dolls, you do not want to skip a stitch to decrease, as it will leave a hole. A decrease stitch actually combines two stitches into one.

sc dec: Insert hook into next st, yo, pull up a lp, insert hook into next st, yo, pull up a lp, yo, and pull thru all 3 lps on hook.

dc dec: Yo, insert hook into next st, yo, pull up a lp, yo, pull thru 2 lps on hook (2 lps rem on hook), yo, insert hook into next st, yo, pull up a lp, yo, pull thru 2 lps on hook, yo, pull thru rem 4 lps on hook. **Note:** One dec st uses 2 sts to complete, so when the pattern says to dec over the next 2 sts, it means do only one dec st.

hdc dec: Yo, insert hook in next st, yo, pull up a lp, insert hook in next st, yo, pull thru all lps on hook.

work even: Means to work the same stitch used in the previous row in each stitch across row.

to join a new color: Start with a loop on your hook, insert hook into stitch, and work specified stitch.

gauge: Check your gauge to make sure it is correct. If it's smaller than the specified gauge, change to the next hook size larger, until it fits the gauge. If it's larger than the specified gauge, change to the next hook size smaller, until it fits the gauge. If the gauge is too small, the neck of the body won't fit over the doll's neck. If it's too large, there will be large gaps when it's stuffed, as it will stretch some.

to mark rounds: Use a contrasting piece of yarn. Lay it over the first stitch in the row, and as you reach the next row, simply take one end of the yarn and lay it over the beginning stitch. The same piece of yarn can be used to mark each row in that section. It's faster and easier than using a safety pin to mark rows.

PRE-SEWN BODY: Also available for your "Baby Toothie"™ doll is a pre-sewn body (158-83). Complete sculpting instructions and directions for making your own soft sculpture doll body are included in this kit from Mangelsen's. The only change necessary in order for these clothes to fit is to increase the amount of stuffing used in making the pre-sewn body. It should take almost an entire bag of stuffing and the finished measurement around the waist should be approximately 18".

*CRO-SCULPTURE BODY

*Cro-Sculpture is a new form of doll making in which crochet and soft sculpture techniques have been combined to give a more life-like appearance to crocheted dolls.
