Dear Crocheter,

Do your children dislike hanging their clothes up as much as mine did? Without constant supervision, their room would look as if it was hit by a Texas tornado! So what's a mother to do?

Cynthia Harris has come up with the perfect answer—Happy Hangers™! She has created a zoo of crazy creatures and friends that are guaranteed to solve the age-old problem overnight! The pig, the clown and all of their crocheted friends make hanging up clothes fun, not a chore! Patterns for a friendly lion, happy cow, pink pig and smiling panda, a little boy and little girl are included inside as well as the colorful clown. Cynthia also designed the Zoolery Fun—its lion, koala bear, giraffe, elephant and zebra heads will help young ones organize their belts, jewelry and accessories!

Cynthia, a mother of three, learned needlecrafts at an early age from her "persistent grandmother" and has not stopped since. We've published many of her designs in our magazines and look forward to seeing more of Cynthia's creative crochet projects in the future!

Happy Crocheting!

Introducing the Founder of Annie's Attic™
Annie Potter

The Annie Potter story is one of talent and opportunity combined with determination and gratitude. She explains that it all began during her childhood in Kansas.

"Mom spent hours crocheting, which fascinated me even at the young age of 5. And by the time I reached 8, I found myself crocheting. And not long after that, I began to design my own patterns."

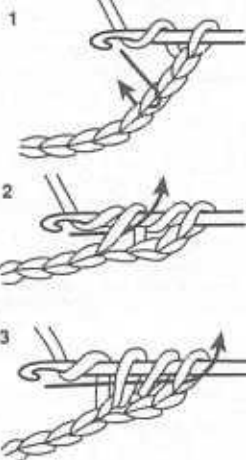

As an adult, she began to design professionally. Then from a simple mail-order ad in a needlecraft magazine, ANNIE'S ATTIC™ was born. From her kitchen table, she, her family and friends, began to fill the thousands of orders that arrived.

After the first ad came another, and then another. Then a catalog. Then a magazine, Annie's Quick & Easy Pattern Club, followed by another, Annie's Crochet Newsletter.

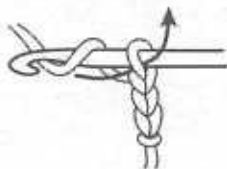

Today, ANNIE'S ATTIC™ involves many thousands of people, all dedicated to sharing needlecraft. And although Annie buys designs from people all over the world, she still creates and publishes many of her own patterns in the catalog and magazines.
