Introduction

As the mother of young children, I know they love any opportunity to dress up. With this in mind, my aim in this book has been to design knits that are not only practical and comfortable, but which children will also find stylish and fun to wear.

There are over 40 patterns here, including winter outfits of hats, scarves, mittens and socks and ethnic-inspired cotton caps for summer. The designs range from classic berets and shawls to fun animal hats and booties for babies. All the yarns used are machine-washable. Many of the garments can be knitted with oddments of yarn and are quick and easy to knit. Knitting smaller items can be very enjoyable and in my experience it's an excellent way for new or young knitters to build up their confidence, creating something with an individual, hand-crafted look in the process.

Author's Acknowledgments

I would like to thank the following for their generous help: Gisela Blum for her practical and technical assistance, Berenice Goodchild, Kate Jones, Milly Johnson, and once again, Fiona McTague for her practical and moral support, and for contributing the "Birds" Hat and Bag, and the swatch for the Fair Isle Shawl.

I am grateful for the invaluable help of the following knitters: Lynda Clarke, Isobel Kemp, Miriam Hudson, Sylvia Stevens, Frances Wallace, Betty Webb.

I would also like to thank Tina Egleton for her technical expertise and pattern checking, Sandra Lousada for the beautiful photography, Marie Willey for perfect styling, Denise Bates for her support, and Fiona MacIntyre and Heather Jeeves for making the book possible.

A photograph of two young children sitting on a wooden floor. The child in the upper half of the frame is wearing a light blue, short-sleeved dress and a white crocheted hat with a wide, scalloped lace-trimmed brim. She is looking down at a small wooden bowl filled with colorful beads. The child in the lower half of the frame is wearing a dark blue, short-sleeved dress and a white crocheted hat with a wide, textured brim. She is also looking down at the same bowl. The wooden floor is made of wide planks, and the lighting is warm and natural, suggesting an indoor setting with large windows.

NOTES

Figures for larger sizes are given in () brackets. Where only one figure appears, this applies to all sizes.

Work figures given in [] the number of times stated afterwards.

Where 0 appears no stitches or rows are worked for this size.

YARNS

All amounts are based on average requirements and should therefore be regarded as approximate. Use only the yarn specified if possible.

If, however, you cannot find the actual yarn specified, you can substitute a yarn of similar weight. Make sure that the substituted yarn knits up to the tension specified in the instructions (see below).

TENSION

Each pattern in this book specifies tension – the number of stitches and rows per centimetre (inch) that should be obtained on given needles, yarn and stitch pattern. Check your tension carefully before commencing work.

Use the same yarn, needles and stitch pattern as those to be used for main work and knit a sample at least 12.5x12.5 cm (5 in) square. Smooth out the

finished sample on a flat surface but do not stretch it. To check the tension place a ruler horizontally on the sample and mark 10 cm (4 in) across with pins. Count the number of stitches between pins. To check the row tension place ruler vertically on sample and mark out 10 cm (4 in) with pins. Count the number of rows between pins. If the number of stitches and rows is greater than specified try again using larger needles; if less use smaller needles.

The stitch tension is the most important element to get right.

CIRCULAR KNITTING

Some of the garments in this book have been knitted in the round on double pointed needles. Circular or tubular knitting is worked in continuous rounds to make a seamless fabric.

There are a few important points to remember:

1. The bottom edge of all stitches must face the centre, thus avoiding twisting the work.
2. A marker such as a length of coloured thread should be placed at the end of the cast on edge to indicate the end of rounds, and moved up as the work progresses.
3. Yarn must be pulled firmly when knitting the first stitch on each of the double pointed needles, to avoid a ladder effect.

When working with a set of double pointed

needles: Divide the number of stitches to be worked on or cast on between three needles, leaving one needle free for working with. Lay the three needles in a triangle. With fourth (working) needle, join work by working into first cast on stitch on first needle, pulling the yarn tightly to avoid a gap. Knit all stitches on first needle, and using this needle as a working needle, knit stitches on second and third needles as before. Slip marker and begin next round.
