KNITTING STITCH EMBROIDERY

1. When working from right to left, bring the needle out in the centre of the stitch and take it up and around the head of the stitch from right to left (under the stitch above) as shown.
2. Take the needle back through the centre of the original stitch and out through the centre of the stitch on the left.
3. When working from left to right, bring the needle out in the centre of the stitch and take it up and around the head of the stitch from left to right (instead of from right to left).

FRENCH KNOTS

Bring the needle from the back to the front of the work and wind the yarn several times around the needle according to the size of the knot required. Take the needle back through the same place and draw the yarn through, thus forming a small knot on the right side. If the knot tends to slip through to the wrong side, insert the needle half a stitch further on to avoid this.

MAKING A POMPON

1. Decide the size of the Pompon, then cut two circles of card, the diameter of which will be slightly larger than the size of the finished pompon. Cut a smaller hole in the centre of each circle, about half the size of the original diameter.

2. Holding the two circles together, wind the yarn around the ring (using several strands at a time), until the ring is completely covered.

3. Cut all around the outside edge between the two circles using a sharp pair of scissors. Make sure all the yarn has been cut.

4. Separate the two circles slightly, wind a length of yarn between them then tie **firmly** into a knot, leaving sufficient yarn for sewing the pompon in place. Pull the two circles apart and fluff out yarn to cover centre join. Trim as desired.

CASTING ON THUMB METHOD

1. Casting on 'Thumb Method' requires the use of your left thumb and 1 knitting needle. To begin, make a slip knot, leaving a length of yarn before the slip knot approx. 4 times the required width for the sts cast on. Assessing this measurement takes some practice, allow approximately 1 metre for these designs. Place the slip knot on needle in your right hand. * Wrap yarn end around the left thumb from front to back.

2. Insert the needle upwards through the yarn on the thumb and knit the st in the usual manner.

3. Remove the yarn from thumb and pull yarn slightly to tighten st. Repeat from * until the required number of sts have been cast on (counting the slip knot as 1 st).

TO MAKE A TWISTED CORD

1. Cut the required number of strands of yarn 2 - 3 times the length of the finished cord. eg. 4 strands of yarn 100cm long will produce a cord 8 strands thick and approx 40cm long. Knot the strands together at each end, making sure all lengths are equal.

2. Attach one end to a pin, hook or handle, insert a knitting needle through the other end. Turn the knitting needle clockwise until the strands are well twisted.

3. Holding the centre of the cord, place the needle and the hook end together, keeping the cord taut to avoid tangling.

4. Release the centre of the cord so that the two halves twist together. Smooth out any lumps. Knot and trim both ends.

MAKE 1 (abbreviated as 'M1')

Pick up the yarn lying between the stitch just worked and the next stitch and place it on the left hand needle, then knit (or purl) into the back of this loop.
