Mittens

Using a back stitch, join side seam. Thread ribbon through second row of eyelet holes, bringing ends out to tie.

SPECIAL INSTRUCTIONS

Pin out to correct measurements and press with a cool iron over a dry cloth.

Check your Needles as both Metric and old U.K. sizes are given.

Having chosen the garment you are going to knit, check your tension by working a 4 inch square (10 cms. x 10 cms.)

Check the number of balls with the size you propose to knit before purchasing the yarn.

MOTIFS

NOTE:

These motifs can be Swiss Darned, following the colour sequence as given in the instructions and working row by row.

SWISS DARNING

The principle of Swiss Darning is that the embroidered stitch follows the line of the knitted stitch, superimposing what appears to be coloured patterns in stocking stitch on the front surface of the fabric. This is the working method for Swiss Darning on the knitted fabric: First draw the needle through the two threads at the base of the stitch to be covered, then insert the needle again through the two threads at the top of the stitch to be covered, draw the needle through, thus covering one side of the knitted stitch. Now insert the needle again through the base of the same stitch and the second side of the stocking stitch loop on the front of the fabric will be covered.
