PICTURE KNITTING USING THE WINDING YARN METHOD

This is a method of knitting-in motifs which avoids the extra bulk of Fair Isle. When changing colours in the middle of a row, twist the colour to be used (on wrong side) underneath and to the right of the colour just used (see diagram). As you begin in each colour, give a gentle tug to even up loose stitches.

It is necessary to use a separate quantity of yarn for each section of colour. To minimise tangles, wind small amounts of yarn on to Susan Bates Yarn Bobs. Unwind only enough yarn to knit required stitches, keeping bob close to work.

You may find it helpful to colour in each section of your graph before beginning.

TO MAKE A TWISTED CORD

Method requires two people. Take as many strands of yarn as required, approximately three times the length required for the finished cord. Knot each end and slip a pencil between strands. Each person holds yarn just below pencil with one hand and twists pencil clockwise with other hand, keeping yarn taut. When yarn begins to kink, catch centre over doorknob or back of chair. Bring pencils together for one person to hold, while other grasps centre of yarn, sliding hand down and releasing at short intervals, letting yarn twist. Knot ends to prevent unravelling.

KNITTING STITCH EMBROIDERY

Interest can be added to garments with Knitting Stitch Embroidery — this is very easy to do, especially if you do the embroidery before sewing up the garment.

Knitting stitch is worked over each knitted stitch with a contrasting colour. It is necessary to use yarn of the same thickness as the knitted garment to cover the stitches. Be careful not to pull the stitch too firmly and it will cover the existing stitch completely.

A completed stitch looks like a 'V'. Each square on the graph represents one stitch. It is a good idea, before beginning, to colour in the graph in the colours to be used. Begin at lower edge of graph, on the right-hand side.

Using a tapestry or knitters' needle, bring the needle from the back through the centre of the stitch below the one to be covered.

*Then from right to left under both strands of stitch above the one to be covered.

Bring needle back to the start of the stitch, take needle behind two strands in row below and up into the centre of next stitch. You have worked one knitting stitch.

Repeat from * following graph for number of stitches. To finish bring needle back to the start of the stitch and through to the back.

To begin the second row: Bring needle from back to centre of stitch below the one to be covered. Working from left to right pick up both strands of stitch in row above the one to be covered.

Take needle back to beginning of stitch, pick up two strands which brings the needle up into centre of next stitch. When working a stitch above one worked in the previous row, your needle will come up in the centre of this worked stitch. Repeat this, following graph for number of stitches to be worked.

Be careful not to pull the stitches too firmly. To finish each row or colour — take needle back to beginning of stitch and through to the back.
