THE DESIGNS IN THIS PUBLICATION ARE SUITABLE FOR HAYFIELD YARNS. NO RESPONSIBILITY WILL BE TAKEN FOR THE RESULT OF USING ANY OTHER YARN.

BABY CHANGES because of the way in which the colour changes each garment will be unique.

To ensure the correct colour gradation we suggest you cast on and join in a new ball with the same or similar colour tone.

Very Important

Check your tension to ensure success. If less sts are made, use smaller needles, if more use larger needles.

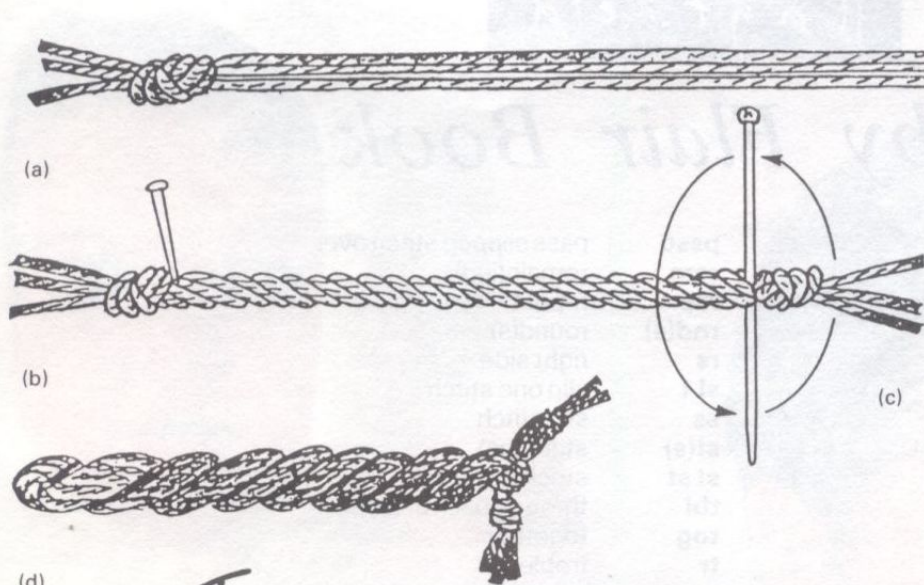

Figures in brackets refer to larger sizes.

Where only one figure is given, this applies to all sizes.

Where the figure 0 appears, no sts or rows are worked for this size.

Making a Twisted Cord

A Twisted cord requires three strands of yarn each about $2\frac{1}{2}$ -3 times the required finished length, 3 strands will give you a finished cord 6 strands thick.

(a) Cut the strands of yarn as indicated and knot together at each end making sure that the lengths are even.

(b) Attach one end to a pin, hook or door handle.

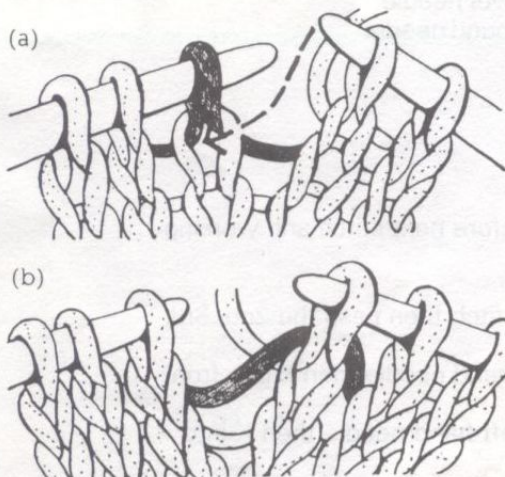

(c) Insert a knitting needle through the other end. Twist the knitting needle anticlockwise until the strands are well twisted together. Holding the centre of the cord, place the needle end and the hook end together, keeping the cord taut to avoid tangling.

(d) Release the centre of the cord and allow the two halves to twist together smoothing out the bumps.

Knot and trim both ends.

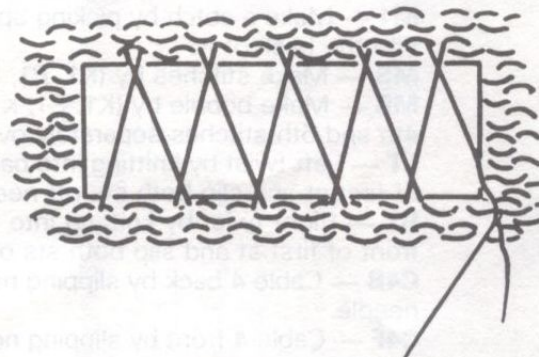

Knitting Tips

K1B

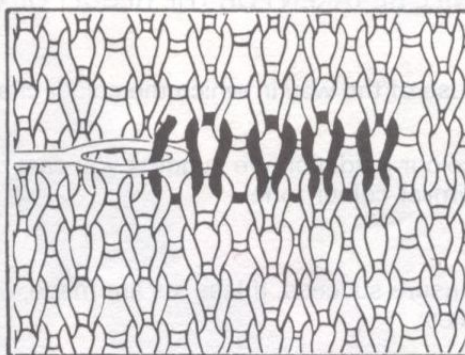

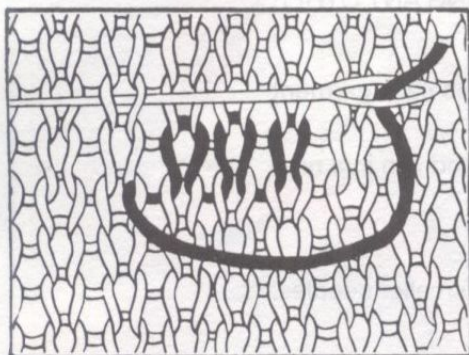

K1B. Knit one below. Insert needle through centre of st below next st on needle (a) and knit this in the usual way, slipping the st above off needle at the same time (b).

Herringbone Stitch

Knitting Tips

SWISS DARNING

The stitch is worked with a tapestry needle over the actual stitches of the knitted fabric, thus retaining the texture, elasticity and character of the knitting. The finished pattern or motif has the appearance of having been knitted in. It is essential to use the same thickness of yarn as that which has been used for the knitted fabric.
